- (I) Pump prices
- (II) Delivered consumer prices for deliveries of 2000 to 5000 litres (for offtakes of less than 2000 litres the industrial sector may be taken into consideration)
- (III) Delivered consumer prices for offtakes of less than 2000 tonnes per month or less than 24000 tonnes per year (for Ireland, deliveries of 500 to 1000 tonnes per month)

The prices inclusive of duties and taxes are VAT excluded only in the cases of Residual fuel Oil –HS (sulphur content exceeding 1%) and Residual fuel Oil –LS (sulphur content not exceeding 1%).

- (IV) Average resulting from the weighting of the quantities consumed during the year 2,019(EUR 27)
- (V) Average resulting from the weighting of the quantities consumed during the year 2,019(EUROLAND)

The prices communicated by the Member States are the prices most frequently charged, based on a weighted average.

Comparisons between prices and price trends in different countries shall be carefully made. They are of limited validity because of differences in product quality, in marketing practices, in market structures, and to the extent that standard categories are representative of the total sales of a given product.

For Greece the disposal period of heating gas oil begins mid-October and ends in April.

As from 26/03/18 only one company in Ireland reports Residual fuel Oil –LS which is significantly cheaper.
