COMMISSION RECOMMENDATION

of 11.12.2013

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 292 thereof,

Whereas:

(2) The Market Observatory for Energy (MOE) of the Commission then uses this data to publish a weekly Oil Bulletin listing consumer prices and net prices (excluding duties and taxes) of petroleum products in the EU Member States.

(3) In Council Decision 1999/280/EC of 22 April 1999, the Council underlines the decisive role that transparency of consumer prices of petroleum products plays for the satisfactory operation of the internal market, in particular for the free movement of goods within the Community.

(4) In the light of these objectives, some Member States expressed concerns that inconsistencies in the reporting process might impede direct consumer price comparisons.

(5) To address the wish for stronger coordination of the reporting process the European Commission, taking into account the comments submitted by Member States' administrations and the results of two expert meetings, has developed a methodology that can be used by Member States desiring to improve the comparability of their reported data.

(6) The use of the recommended reporting methodology will allow for a better comprehension of the underlying data, which will lead to greater transparency.

HAS ADOPTED THIS RECOMMENDATION:
