Renewables are good for Europe
Europe is good at renewables

**RENEWABLE ENERGY IS**

based on sources that cannot and will not expire!

**IT COMES IN DIFFERENT SHAPES AND SIZES**
Renewables are good for Europe
Europe is good at renewables

WE USE RENEWABLE ENERGY FOR

Electricity
(26% is renewable)

Heating and cooling
(17% is renewable)

Transport
(6% is renewable)

THE USE IS GROWING!
62% increase in 8 years
(05->13)

Renewables are good for Europe
Europe is good at renewables

We are on our way to become

THE WORLD’S NUMBER
1 IN RENEWABLES

40% of the world's wind turbines are built by EU companies

40% of world's patents are held by EU companies

EU is ahead of China and the USA in terms of renewable share in total power generation

EU has 3 times more renewable power per capita than the rest of the world put together
Renewables are good for Europe
Europe is good at renewables

RENEWABLES ARE GOOD FOR EUROPE

Technology: The price of solar panels fell by 80% in just four years

Energy security: We have reduced our fossil fuel imports by 30 B€ every year

Jobs: More than 1 million people work in renewables

Climate action: In 2012, renewables reduced CO₂ emissions by 326 Mt: equivalent to the annual emissions of Spain

Industry: More than 130 B€ were earned by EU renewables companies

Consumers: There are more than 2,400 renewable energy cooperatives in Europe in 2015

Trade: We export 35 B€ renewable technology every year
