¹ As granted still under Regulation (EU) No 994/2010 where reverse flow capacity would not significantly enhance the security of supply of any Member State or region or if the investment costs would significantly outweigh the prospective benefits for security of supply. Cases falling under Article 6(5)(a) of that Regulation are not included.

² Exemptions were granted for an indefinite period of time provided that no transmission system operator, authority concerned or the Commission requested the revision of the procedure in accordance with Article 7(6) of Regulation (EU) No 994/2010. Under Regulation (EU) 2017/1938, that repealed Regulation (EU) No 994/2010, such exemptions shall remain valid unless the Commission or the other concerned Member State request a revision. New exemptions under Regulation (EU) 2017/1938 can only be granted or prolonged for a maximum period of 4 years.
