Deliverables +  
Recommendations

## Overall Network Objectives

- To organize exchanges and active cooperation between all rural stakeholders in order to facilitate an efficient implementation of RDP and a wide diffusion of its added value.
- To build a global strategy and a coherent implementation of measures by developing an integrated approach of rural development challenges
- To integrate/insert EAFRD financed projects in territorial projects (LAG, natural parks,...)
- To reinforce good practices in EAFRD implementation by spreading appropriate information

# Annual Work Plan for 2010

## Axe 1

Adaptation of cultural and forestry practices to new challenges (climate changes)

To increase use of renewable energy and reduce energy costs in farms

To fight against floods and erosion by developing public private partnerships

« Industrial model versus extensive and family model » : What choices for young farmers ?

Guidance and good practices

Workshops with energy facilitators at regional level and farmers

Recommendations for future policies

Workshop for “inventory of communication tools about good practices of fight against erosion and floods

Good practices PPP

Field visits

Recommendations for future policies

Workshops with young farmers about farm recovery, specific measures, training courses...

Guidance and recommendations for future policies

## Axis 2

Multifunctional agriculture

Remunerations for environmental services (ecosystems) rendered by agriculture

How to approach agri-environmental measures at territorial level

Multifunctional agriculture : new shared objectives

Enquiry and workshops on ecosystemic approach : what do the farmers think about it ?

Workshops Good practices AEM / Mapping tool / economical approach of AEM

Film  
International seminar  
18-19 November  
Link with Belgian UE Presidency

### Axis 3

Consumer and agricultural production:  
reinforced links between cities and countryside

Enquiry and workshop on short circuits (farm direct selling, direct relations between producers and consumers/collectivities...)

Field visits

Regional seminar

Relations urban / rural

New mobility

To be set up in 2011

## Axis 4

Transcommunal cooperation

Cooperation between territories, between communes

Methodological aspects of a cooperation between communes

Enquiry and workshop on territorial cooperation practices

Repository of necessary skills for territorial animation

Tool for viewing local stakeholders spheres of action

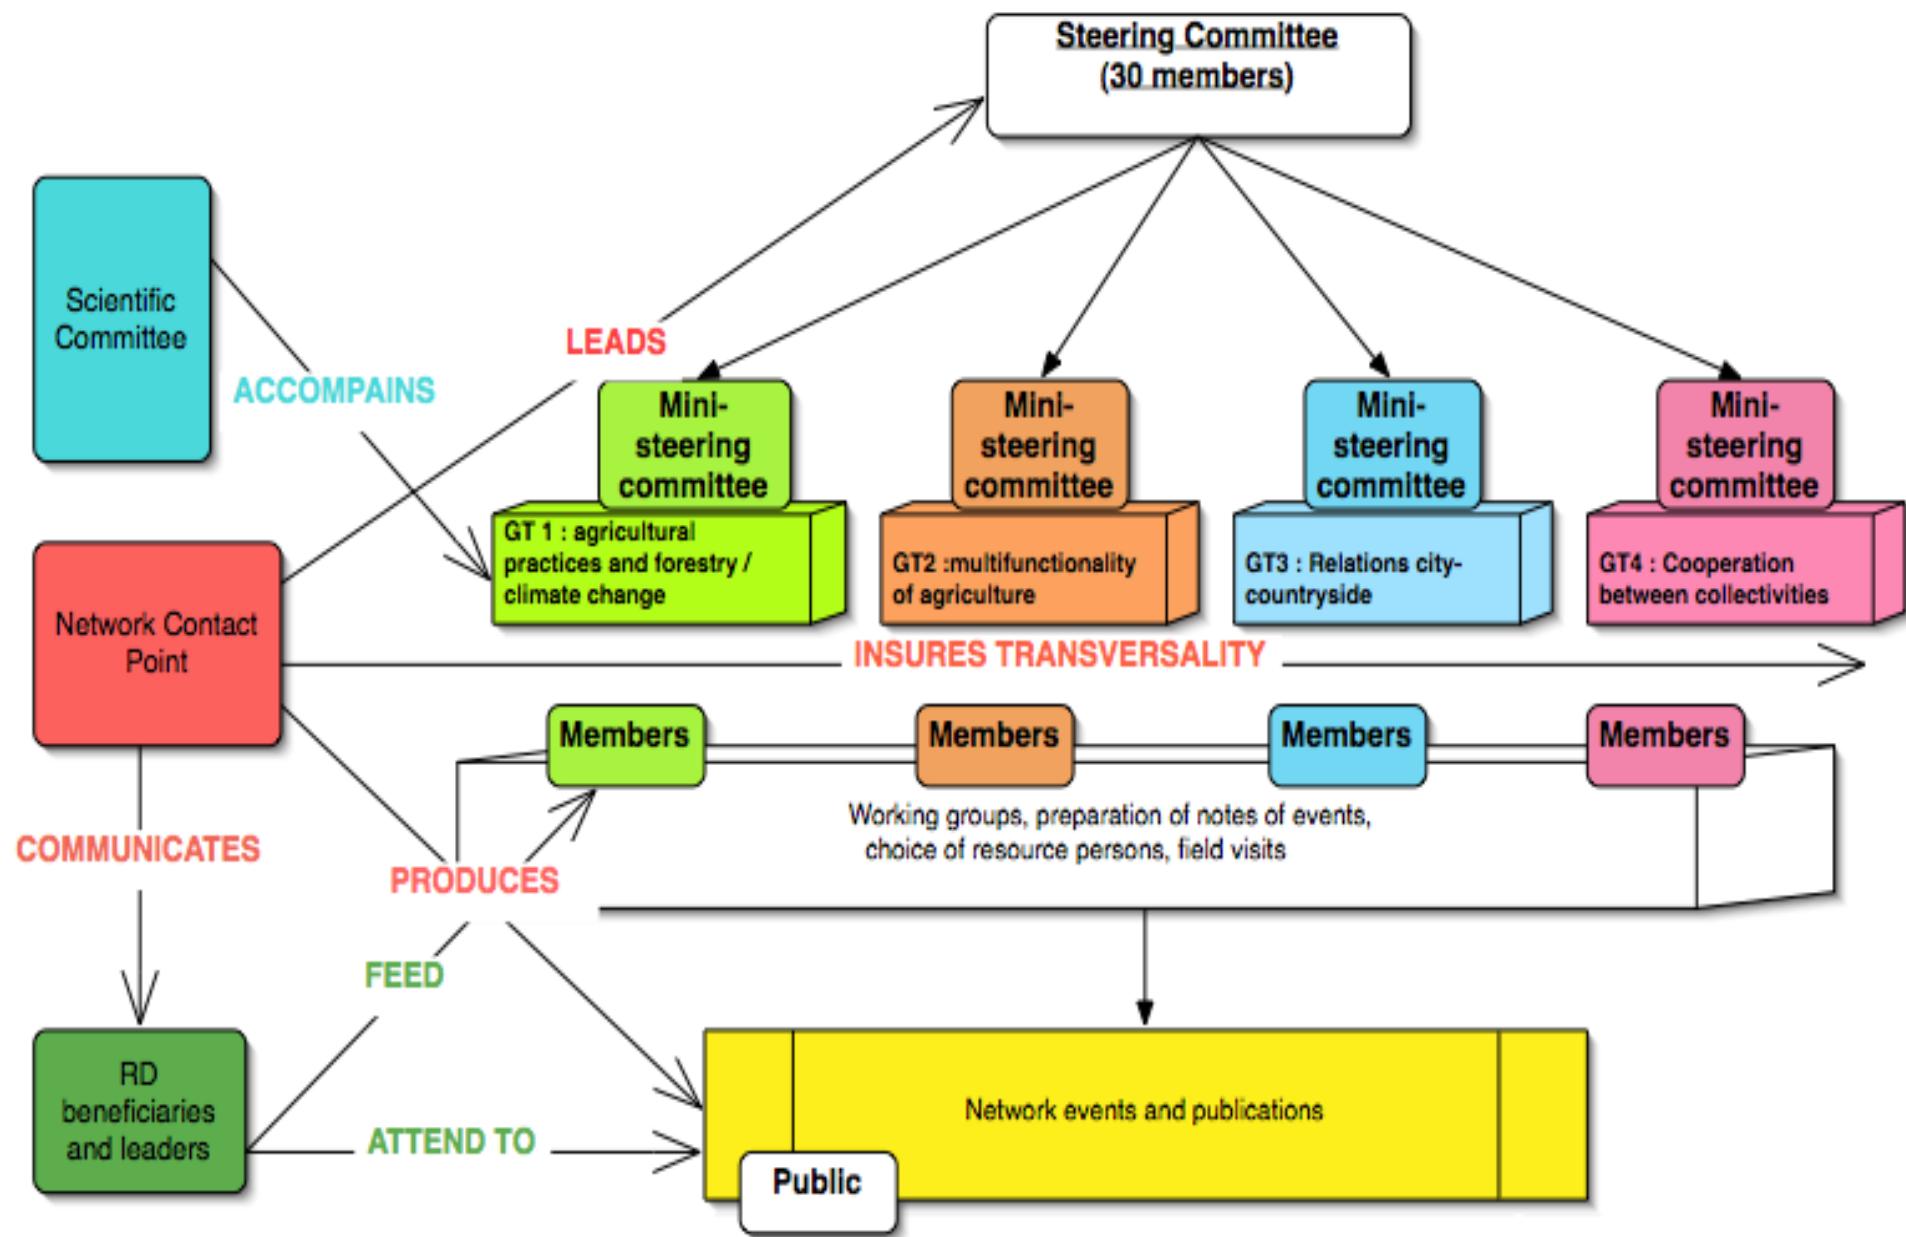

Methodological support to LAG for implementing landscape transcommunal structure

Regional seminar

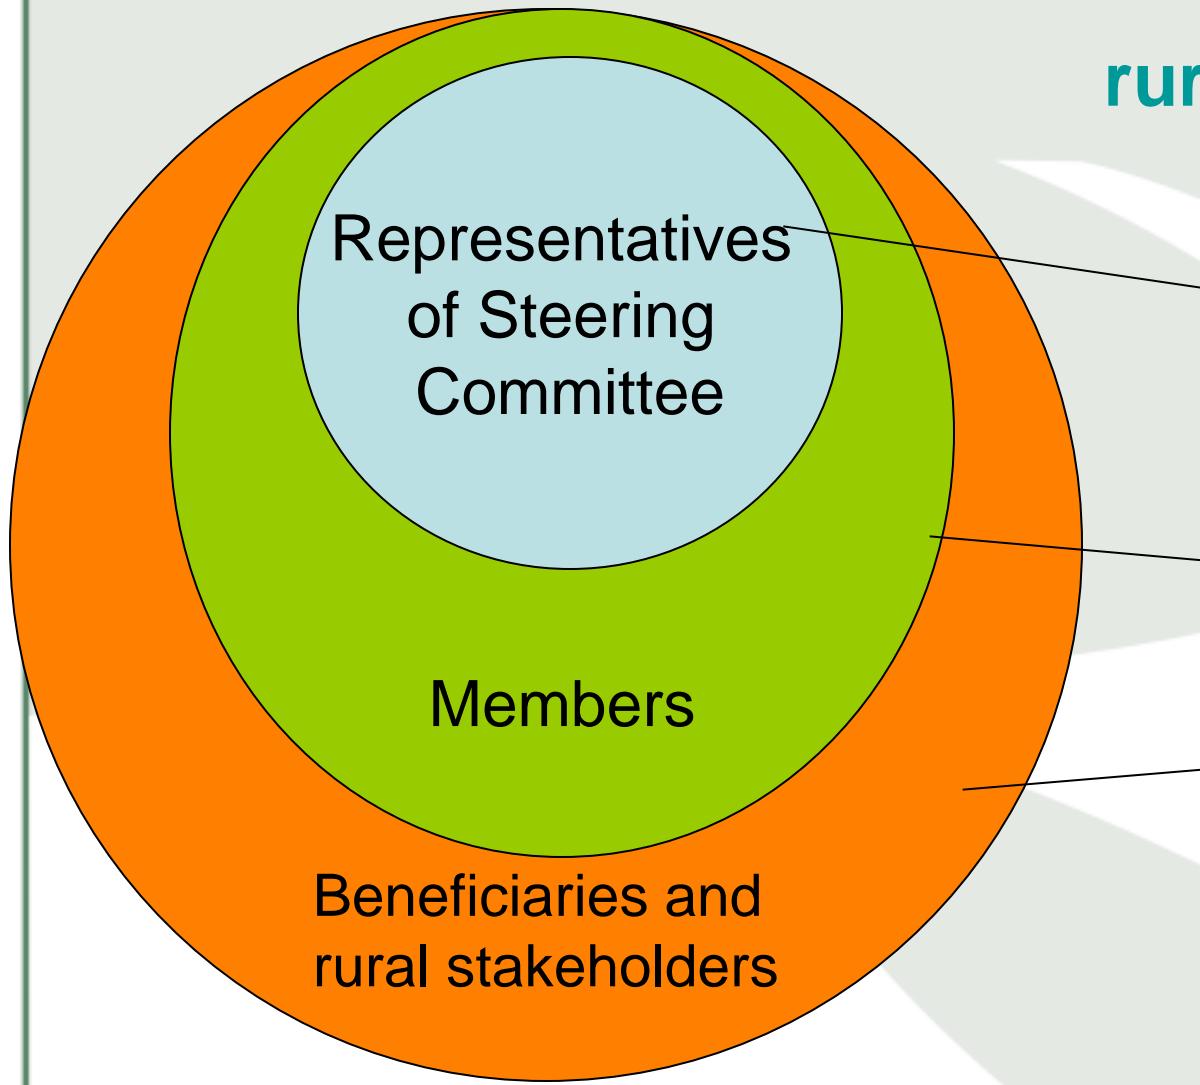

# **Design of NRN Wallonia Operating Structure**

## Regional Rural Network (Wallonia) Workgroups

## Members and rural stakeholders

Objectives of workgroup  
Proposal of themes & content for events and publications- Agenda

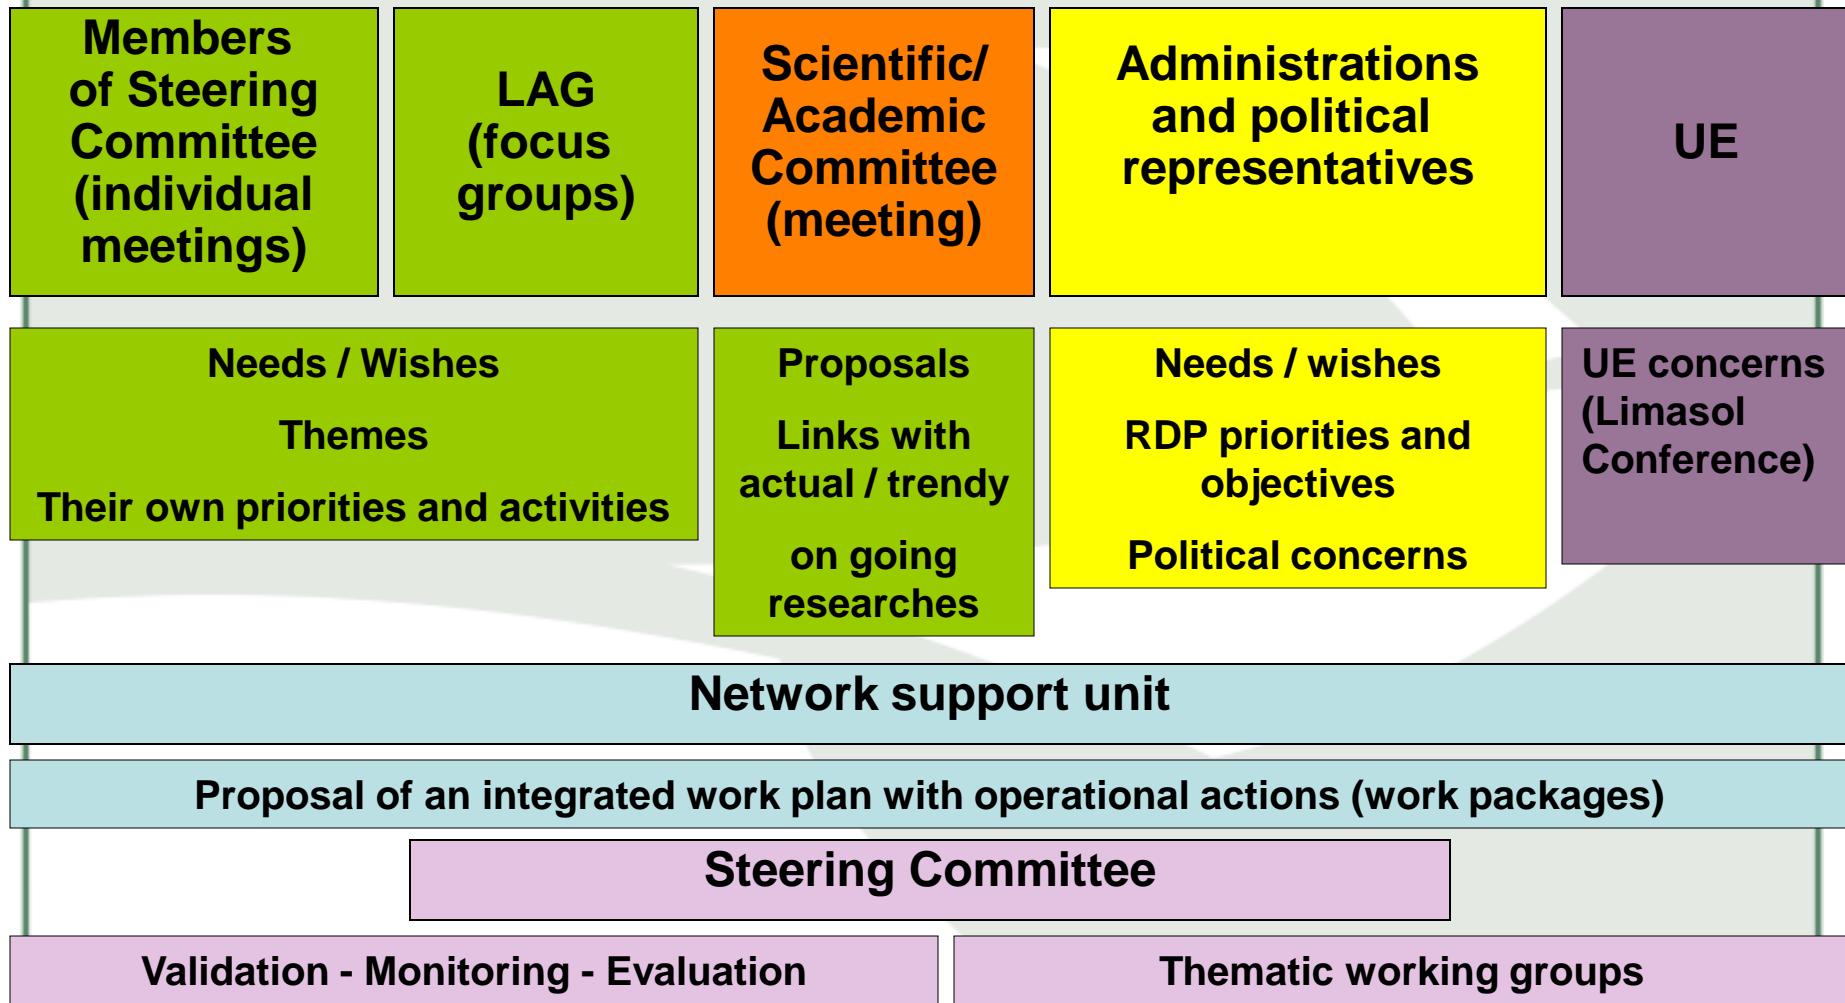

Contribution to the workgroup documents  
Proposal of content

Participants to events  
Activated regarding themes, events, ...  
Informed about activities of each workgroup

- **Association des Centres culturels, Accueil Champêtre en Wallonie, Commissariat Général au Tourisme, Gîtes de Wallonie, Les Plus Beaux Villages de Wallonie**
