Aims of the meeting

- To explore good practices in measuring and reporting on carbon sequestration and storage for different carbon farming practices.
- To reflect on the conclusions from the TG member discussions on 18 May on:
  - The mix of financial incentives required to increase uptake of carbon farming activities;
  - Raising awareness and building capacity amongst land managers, advisers, stakeholders, and Managing Authorities on carbon farming.
- To develop recommendations on the conditions required to enable the upscaling of carbon farming.
