## Evaluation Knowledge Bank

The purpose of the Knowledge Bank is to provide insights into various outputs developed in initiatives and projects at the EU and Member States levels concerning data infrastructures and data use. Furthermore, it proposes a quick guide on potential use, showing how these outputs could be used for monitoring and evaluation of the CAP.

By the end of 2021, there are 63 outputs published from 25 projects/initiatives.

You can send new project info and feedback to [info@ruralevaluation.eu](mailto:info@ruralevaluation.eu).

To facilitate better usability of the Evaluation Knowledge Bank please also check out practical examples, presentations of the selected content and other material on the [Thematic Working Group 9 webpage](#).
