Long Term Rural Vision Portal

The President of the European Commission has announced that the Commission will develop a Long Term Vision for Rural Areas to enable them to make the most of their potential and support them in facing up to their own unique set of issues, from demographic change to connectivity, the risk of poverty and limited access to services. This should be done in close consultation with people living in rural areas, as well as local and regional authorities.

#Rural2040

"The future of rural Europe can only be shaped locally. The public consultation will lead to a new strategy and vision for rural Europe in 2040 from and by rural people." **Ursula von der Leyen, President of the European Commission**

Lunch break time

13.15-14.15
