French NRN

identification and enhancement of projects

Identification of projects :

- At the national level

- At the regional level

- Inter-departmental exchange of information

- Tracking national and regional press articles

- Feedback from the network's association members

- **A project to capitalize innovative programming projects (ongoing)**

- **A capitalization project in the form of booklets of THE LEADER themed projects on programming**

=> Exemple "Les webinaires du RRN (Réseau Rural National) : The valuation of emerging subjects and innovative projects in the Webinaries of the rural network

1- **A response to network members' expectations**

A. Energize colleges and enhance them
B. Addressing niche or topical topics for rural dev players

2- Organisation of webinars and thematics

3- Fallout / First observations

1- **A response to network members' expectations**

A. **Energize colleges and enhance them**

Ce partenariat prend la forme en assemblée générale d'une organisation en **7 collèges** :

- Collège 1 : Monde agricole, forêt et industries agroalimentaires
- Collège 2 : Environnement et patrimoine
- Collège 3 : Acteurs socio-économiques (hors agriculture, forêt et IAA)
- Collège 4 : Développement territorial intégré - soutien au développement local
- Collège 5 : Collectivités locales et territoriales
- Collège 6 : Enseignement, recherche, experts
- Collège 7 : Réseaux régionaux

➤ Meeting of all the member actors around a theme;
➤ Mobilization of colleges and actors who had little presence in representative bodies in the present;
➤ The increasing participation of rural intercommunal structures, elected officials, academics who discovered the news of the network via webinars.

1- **A response to network members' expectations**

A. Energize colleges and enhance them

B. **Addressing niche or topical topics for rural dev players**

2- Organisation of webinaires

Average webinar time : 2h00 (10h- 12h00)

Plénière : 1h15   Workshop : 45min

Plenary interventions.
4 to 5 specialists and field actors to present different approaches for the same theme.

Participation: the possibility of intervening via a chat.

Interactions in conference mode. All participants are divided into subgroups. These exchanges in workshops allow to collect testimonies, new problems encountered in relation to the subject but also to initiate new actions to respond with the support of the national network.

3- Fallout / First observations

- More than 140 participants per session, more than 16 Regions represented for each webinar;
- Actors who are once again involved in the network's activities;
- A new audience: local elected officials, municipal technicians, academics...;
- An updated source page on each topic;
- Rich and participatory workshop uplifts;
- Facilitate the inter-knowledge of the actors through the presentations and facilitate in the workshop the rapprochement of the actors.
