# EIP-AGRI Network Priorities in 2018

eip-agri  
AGRICULTURE & INNOVATION

## A. Fostering a thriving Innovation Ecosystem in agriculture

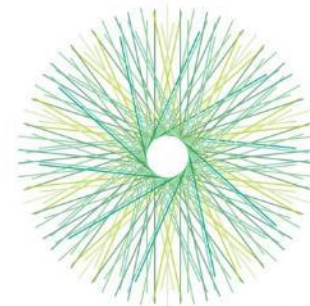

Making the most of the  
digital transformation

**B. Promoting innovation in:**  
Managing natural resources  
&  
Improving farm resilience

**C. Strengthening  
agricultural value chains  
within a circular,  
decarbonised bio-economy**

# EIP-AGRI Network Priorities in 2018

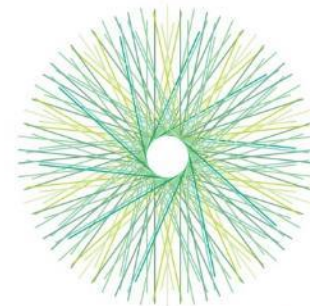

eip-agri  
AGRICULTURE & INNOVATION

## Fostering a thriving Agricultural Innovation System in the EU

eip-agri  
AGRICULTURE & INNOVATION

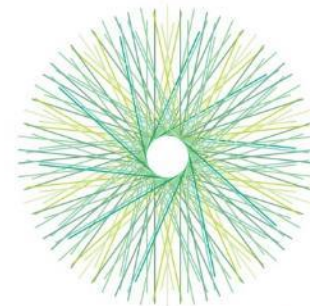

### Seminar: **Upscaling OG results and learning from EIP-AGRI implementation**

#### **Objective:**

- Capitalize on the results of OGs and learn from EIP implementation
- Feed the discussion about the new CAP

## Fostering a thriving Agricultural Innovation System in the EU

eip-agri  
AGRICULTURE & INNOVATION

### *Communicating the digital transformation in agriculture*

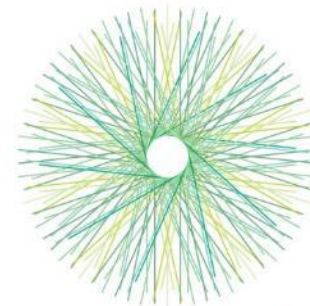

## Digitisation Toolbox

### Objective:

- Communicate the outcomes of past digitisation activities in a simple and accessible way through several communication products

## Fostering a thriving Agricultural Innovation System in the EU

eip-agri  
AGRICULTURE & INNOVATION

### *Communicating the digital transformation in agriculture*

Workshop:

## **Access the digital transformation in agriculture: the role of AKIS**

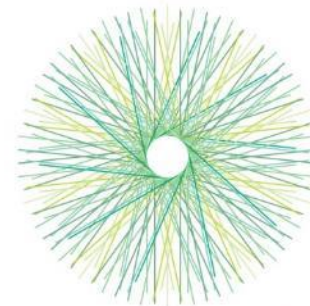

### **Objective:**

- Promote the communication of digitisation through Agricultural Knowledge and Innovation Systems (esp. advisors and NRNs) and contribute to the development of the Digitisation Toolbox
- Feed the discussion about the new CAP

## Fostering a thriving Agricultural Innovation System in the EU

eip-agri  
AGRICULTURE & INNOVATION

### *Communicating the digital transformation in agriculture*

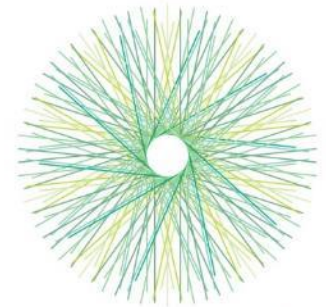

#### **Seminar:**

Multi-level digital strategies for agriculture and rural areas

#### **Objective:**

- Promote multi-level strategic plans for digitisation in agriculture (and rural areas) and raise awareness about the Digitisation Toolbox
- Feed the discussion about the new CAP

# EIP-AGRI Network Priorities in 2018

eip-agri  
AGRICULTURE & INNOVATION

**A. Fostering a thriving  
Innovation Ecosystem in  
agriculture**

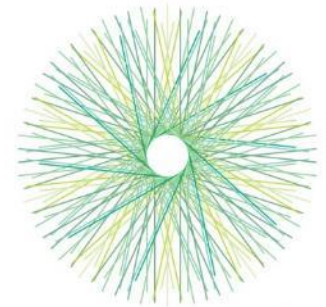

Making the most of the  
digital transformation

**B. Promoting innovation in:  
Managing natural resources  
&  
Improving farm resilience**

**C. Strengthening  
agricultural value chains  
within a circular,  
decarbonised bio-economy**

## Promoting innovation in managing natural resources and improving farm resilience

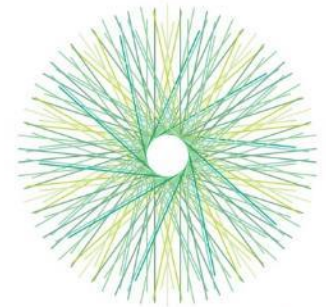

eip-agri  
AGRICULTURE & INNOVATION

### Workshop: **Innovative water management in agriculture**

- Bring together recent and current activities relating to innovation in water management in agriculture, with special attention to water quality
- Gather OGs working on water-related projects
- Exchange information from different groups working on the topic (e.g. EIP water, Commission Water Task-Force, ENRD Thematic Group, OECD... )
- Territorial approaches in agricultural water management and water quality at landscape level (e.g. examples how farmers work together at catchment level with advisors' support)

## Promoting innovation in managing natural resources and improving farm resilience

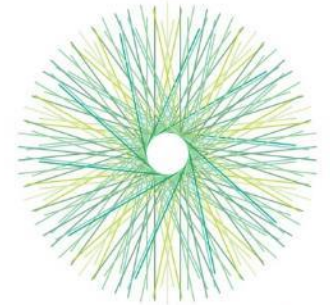

eip-agri  
AGRICULTURE & INNOVATION

### Focus Groups:

- Non-chemical weed management
- Protecting agricultural productions from frost damage
- Anti Microbial Resistance in the poultry sector

# EIP-AGRI Network Priorities in 2018

eip-agri  
AGRICULTURE & INNOVATION

**A. Fostering a thriving  
Innovation Ecosystem in  
agriculture**

Making the most of the  
digital transformation

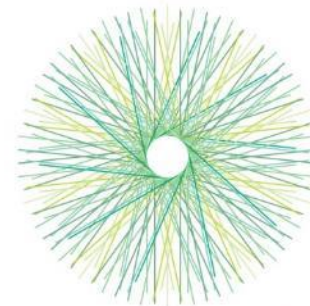

**B. Promoting innovation in:  
Managing natural resources  
&  
Improving farm resilience**

**C. Strengthening  
agricultural value chains  
within a circular,  
decarbonised bio-economy**

## Strengthening agricultural value chains within a circular, decarbonised bio-economy

eip-agri  
AGRICULTURE & INNOVATION

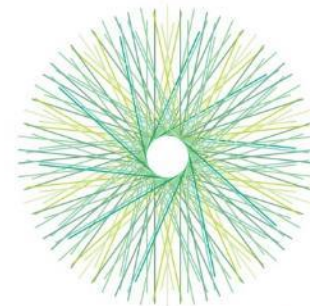

### Focus Groups:

- New feed for livestock
- Reducing food loss on the farm

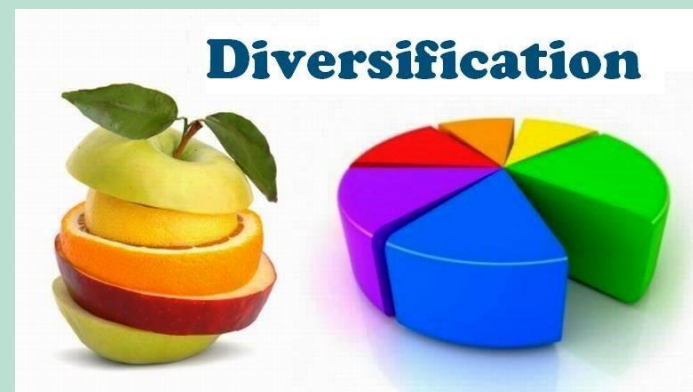

## Strengthening agricultural value chains within a circular, decarbonised bio-economy

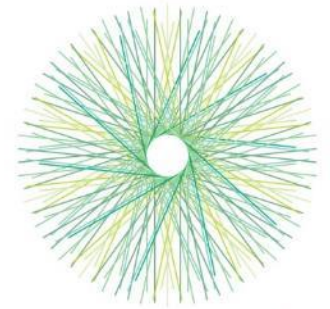

eip-agri  
AGRICULTURE & INNOVATION

### Workshop: Opportunities for farm diversification in the circular bio-economy

- Diversification as a way of managing risks
- Strategies for optimising the use of biomass on the farm, consistently with the farm size and type
- New uses of biomass from agricultural supply chains;
- New products, new markets and related logistics
- involvement of new entrants
