# CAP Strategic Plans

- Need to ensure the commonality while recognising the specificities of each Member State
- Must be ambitious

# Timeline

# Criteria

Assessment on the basis of **robust and fair criteria** provided in the **legislation**

Strategic Plans will be **approved by EC** based on the **well-rooted governance** of the CAP

Commission will **inform MS** on how it envisages **assessing** CAP Plans

# Link to F2F and Biodiversity Strategies

Contribution to the Green Deal will be assessed via the CAP Plan **common result indicators**

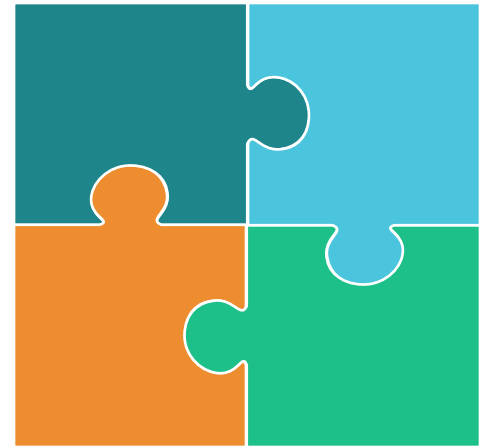

Draft Regulation foresees an **intervention strategy** for each objective, including the targets

**National values** will also facilitate the assessment of the ambition

# Role of stakeholders

- **Preparation of the CAP Plan must be done with the involvement of all relevant stakeholders, including regional authorities (Art 94)**
- Recommendations contribute to a constructive debate
- Transparency

# Role of the regions

- **Regional Authorities can design and implement elements of the CAP Plan, notably those whose scope is regional (Art 93)**
- **The national managing authority should ensure coordination, consistency and coherence of all the elements of the CAP Plan (Art 93)**
- SWOT, needs assessment and intervention logic to be made nationally; **regional specificities** should be identified
- Result indicators and targets should be established nationally, **regional targets** may be used but not to be included in the CAP Plan

# Approval and implementation of strategic plans

- Approval based on established legal procedures
- A summary of each CAP Plan in English will be published after approval
- Member States have to fulfil their responsibility in terms of public awareness and stakeholder involvement
- The role of the managing authority can be shared with the regional authorities

# Role of monitoring committee

- The Commission proposes to **set up the Monitoring Committee before the CAP Plan submission**, so they can be consulted on the draft (Art 111)
- **Monitoring committees** should also be established **in the regions**, making sure that concerned stakeholders and public authorities are fully involved in the implementation
- Monitoring committees will play a **key role** in linking the development of agriculture in Europe's regions to the policy discussions at European level.
