

# Needs for information, knowledge and skills of NSUs

Assessment and possible assistance

### Objectives of the session

Share identified needs

Map further needs

Identify possible ways for support and delivery

#### Areas identified as important from NSUs

#### **Planning**

• Defining a clear framework for the NSUs - structure, representation, budget, capacity and monitoring and evaluation , clear work plan within the RDP context, definitions of roles MA-NSU, within the NSU

Structure and representation

• Creating a mechanism for decision making with stakeholders involvement, inclusive governance, regional – national interaction

Effective stakeholder involvement

- Stakeholders analysis
- Initiating, organizing and facilitating thematic initiatives

Thematic analysis, and support

- Provide expertise and resource information related to RDP
- Identify lessons learned

**Facilitation** 

• Effective meeting planning and holding

Planning and delivering effective communication

• Motivating and fostering interaction and participation

• Developing resource and informational materials related to RDP, planning and implementing effective dissemination and outreach

## What is helping NSUs being effective?

Analytical capacity within the core team of the NSU on themes important to RD

The possibility to react in a flexible way to needs and requests from stakeholders

A relationship of trust among primary stakeholders. Inclusive workshops and meetings.

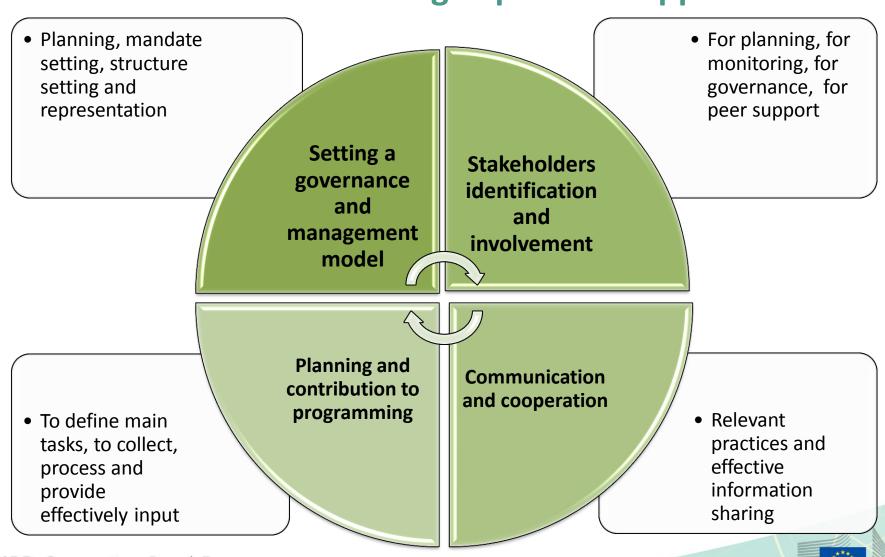

Attitude to be open

???

#### Main areas needing input and support

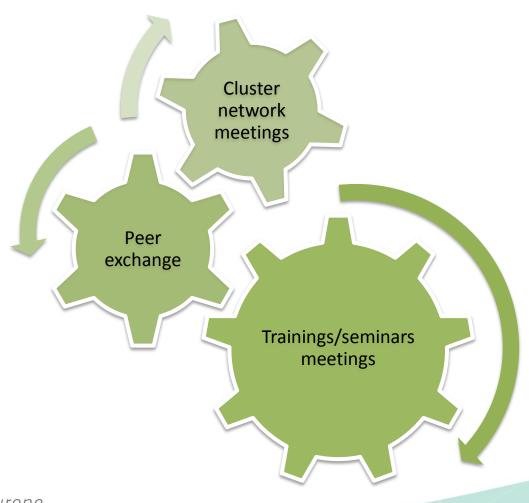

**ENRD** Connecting Rural Europe http://enrd.ec.europa.eu

#### Possible formats for delivery and support

Funded by the

# Map out and cluster needs and available resources to identify best ways for support

What are appropriate formats?

What are specific deficits of your NSU (knowledge, skills, information, framework)?

What can you offer to others to address deficits or learn from you/how?
