

What are your needs and challenges?

How can rural social enterprises best be supported?

Access to Infrastructure and internet	Valorise endogenous resources	Training, qualification, mentoring	Digital literacy	Socially-responsible public procurement	Set of targeted measures	Publically accessible meeting places accessible free of charge	Competence centre in the wider regions of the rural areas. Operated by social enterprises that are the specialists
Different definitions, datasets, understanding mostly qualitative	Legal status for underaged young entrepreneurs	Access to finance: big thing!	Access to expertise and good practices	Show case on how rural social enterprises help	Networking and variety of communication channels with stakeholders	Moderated and communicated events (workshops) financial resources for co-creative processes	Funding for the timeconsuming networking and communication work that they made before just as a side effect.
Cooperative attitudes	Visibility and recognition	Access to skilled labour	Access to market	RDP: LEADER, EIP, Smart villages, networking	Broadband plan	Learning resources	Not only cash but financial tools, attracting investors
Meeting spaces	Simpler procedure	Regulatory frameworks (e.g. volunteering on farms)	Staying alive while not generating profit	Support from local authorities	Supporting people's time	De-risking innovation	Support social capital (relations between people)
