

Improving LEADER/CLLD Implementation

Group Work

Brussels, Belgium – 08 March 2018

#LeaderCLLD

Topics

1. Coherent & consistent communication in delivery chain
- 2. Demonstrate added value of LEADER, ensure common understanding in delivery chain(OD)**
- 3. Enable LAGs to focus more on animation, project support & development(OD)**
4. Enhance SCO use for simpler delivery & reduced admin burden
5. Make sure all LEADER stakeholders learn from controls & audits
- 6. Simplification - moving forward together at the MS level (involving MAs, LAGs, NRNs, PAs in finding good solutions) (OB x2)**
- 7. Modifying Member State's existing delivery systems to improve LEADER delivery and results (OD)**
8. Enable LAGs to exercise operational & strategic freedom for better LDS delivery

#LeaderCLLD

For your groups chosen topic:

Consider / explore:

- What works well in implementing LEADER in your experience and from what you have heard today, why is this? Identify specific examples where possible.

Identify and agree:

- What is it possible, practical and important to improve within the Member States competence for better LEADER implementation and achievement.
- Make specific suggestions, who by, when etc?
