

NRN objectives

The National Rural Network of Luxembourg has adopted the following objectives:

- ➔ Sharing and disseminating data collected through monitoring and evaluation
- ➔ To provide networking activities for advisors and management services for innovation
- ➔ To provide training and networking activities for Local Action Groups and in particular technical assistance for interterritorial and transnational cooperation
- ➔ To organise the exchange of information and experience among rural development actors
- ➔ To develop a communication plan for the RDP
- ➔ To manage links with the ENRD as well as organisations and administrations active in rural development at community level
- ➔ To collect examples of projects covering all programme priorities

Membership

The network is composed of scientists, advisers, civil servants and farmers representing the following organisations:

- Ministère de l'Agriculture, de la Viticulture et de la Protection des consommateurs (4)

- Fédération Viticole
- Fédération Horticole
- Lëtzebuenger Jongbaueren a Jongwënzer
- Centrale Paysanne Service Jeunesse
- Syndicats des Villes et Communes Luxembourgeoises
- Conseil National des Femmes du Luxembourg
- Bio-Lëtzebuerg
- Natur & Umwelt asbl

The NSU and RDP management

The NSU and the Managing Authority

The NRN of the Grand Duchy of Luxembourg forms an integral part of the Ministry of Agriculture, Viticulture and Consumer Protection, which is the Managing Authority (MA).

✓ The NSU and the Monitoring Committee

- ✓ The Monitoring Committee of the RDP 2014-2020, which is composed of representatives of organisations and administrations working in the field of rural development and involved in rural development processes at both national and regional level, also has the role of the Coordinating Committee of the national rural network.
- ✓ Meeting once or twice a year, it comprises 27 members appointed by the ministry.
- ✓ There is no standing committee or general meeting of the network, but the committee may be open to new members during the programming period.
- ✓ This structure allows for regular exchange of information between all relevant actors.

Communication

The communication on the RDP must target two main stakeholders groups:

- ✓ agricultural professionals and
- ✓ the general public.

Information is delivered in two main forms:

- ✓ implementation reports and
- ✓ evaluation reports.

Implementation reports are intended for the information of the managing authority and its monitoring committee on the implementation of the program.

The main purpose of the evaluation reports will be to inform the managing authority and policy makers of the impacts and effectiveness of the measures of the rural development program. They should allow the planned measures to be oriented along the way in order to target them more or in order to make their actions more effective.

The two types of documents will be available to the public on the website of the Ministry of Agriculture, Viticulture and Consumer Protection.

Ad hoc events and conference

Short films that will be disseminated via social networks, on the Internet and via television channels.
