

The MECK-SCHWEIZER are coming ...

Building a structure for a local goods cycle in
the area Mecklenburgische Schweiz

European Network for Rural Development meeting
20 March 2018

The introduction

Lenten Campaign – Nordic Church 2014

The initial position

- Food trade is characterised by **trends of globalisation**, in the region of Mecklenburg-Vorpommern e.g. four companies have a market share of 85 %.
- Few wholesalers and their discount stores set their own prices and conditions. Potentials for **exercise of power** through focusing:
listing, prices, discounts
- Small and medium-sized producers are widely excluded by this sales structure. **No Structure for local marketing** of local products without involving cost-intensive wholesalers.
- **Family-owned retail is threatened of extinction.** Retail withdraws from rural areas (next to Malchins in the last two years retail withdrew in: Faulenrost, Seedorf, Basedow, Jürgenstorf, Kummerow, Gielow)
- In many places **located nearby supply** of food and goods of daily needs **is at risk** or no longer possible

What we stand for

- ***Regionality***

We support local added value in a manageable economic cycle.

- ***Fairness***

Fair cooperation.

- ***New ways***

We break new ground for a worthwhile future.

Quality and traceability

- our guideline -

- The Meck-Schweizer-label is an **origin- and quality label**

-> **Origin:** from the Mecklenburgischen Schweiz

-> **Quality:** priority on production quality
superior sustainability goals, as an environmentally friendly and socially fair production, is what leads us.

Quality and traceability

- our basic criteria -

- Unprocessed and processed food with only one ingredient have come from the **Mecklenburgischen Schweiz** by **100 %**.
- Ingredients for compound foods have to come from the Mecklenburgischen Schweiz if possible. If that is not possible the ingredients have to be purchased **as close to the area as possible**.
- For the use of animal feed it applies that: **Maximising the value of fodder production in the region** must be considered.
- Animals have to have **spent a large proportion of their lives in our region**. Parents have to originate from our region as far as possible. If that is not possible, young animals have to be purchased as close to the area as possible.
- Still in development:
 - if necessary, specific product criteria
 - partner criteria
 - control system

Quality and traceability

- our guideline -

We distribute

Focus of our marketing activities is the turnover in the region: Mecklenburgische Schweiz. All available distribution channels of retail and gastronomy are used for this target. Particularly important to us is the local supply in rural areas, which is supported and promoted by us.

The screenshot shows the homepage of the Die Meck-Schweizer website. On the left, there is a cartoon character of a farmer in green overalls and a cap, holding a pitchfork and pointing upwards. The main header reads "Die Meck-Schweizer Regionale Lebensmittel". Below the header is a search bar with the placeholder "Suche nach Produkt oder Kategorie" and a "Suche" button. To the right of the search bar is a large image of various fresh vegetables like carrots, broccoli, and radishes in a basket. On the left side, there is a sidebar with a list of product categories: Fisch, Trocken, Obst & Gemüse, NonFood, MoPro & Eier, and Getränke. Each category has a small icon and a dropdown arrow. In the center, there are two product cards. The first card shows a bottle of "BITTERLIKÖR ALTE POMERANZE" from "HAHNSCHE GUTSMANUFAKTUR" for 3,30 € per bottle. The second card shows a similar bottle for 5,40 € per bottle. Both cards include details like volume (100ml, 200ml), manufacturer (Aus Gielow OT Liepen), and tax information (+10% PROVISION, 19% MWST.). At the bottom of the page, there is a link: <https://shop.meck-schweizer.de/#!/products/Bitterlik%C3%B6%20Alte%20Pomeranze%20200ml-5112206727315456>.
