European Network for Rural Development

How the NRNs approach regional and local networking?

Going Regional... Going Local!

OBJECTIVE

The ENRD CP aims to **identify examples on regional and local networking** and how they can be shared, improved…

SURVEY

To develop this we launched a **questionnaire** on the 17th of February and disseminated it among the NSUs
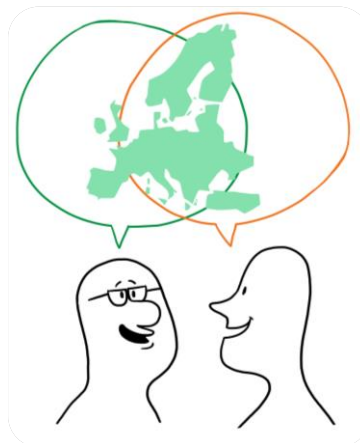

IN-DEPTH WORK

Six Member States have been selected for in-depth work:
- ✓ Belgium (W and F)
- ✓ France
- ✓ Italy
- ✓ Poland
- ✓ Romania
- ✓ Slovakia

! **Going beyond the questions on structure that we have already explored, to understand:**

1. How a **two-way flow** of networking works;
2. The role of **local representatives**;
3. Their level of **autonomy**.

A new approach:
- ✓ Which formal regional NRN structures are involved?
- ✓ What local initiatives have been conducted? Related to which NRN Tasks?
- ✓ What is the level of autonomy of the regional/local organisations?
