- The Rural Ticket was a support of the Government of Asturias based on the article 19.(a.ii), of the EU Regulation 1305/2013 (EAFRD), which allows an aid of up to €70,000.
- It was not easy. All kinds of negatives; industry, freelance ticket, auditors, etc...
- It is the easiest way between the proposals and the objectives without bureaucratic burden: no bills, no bank papers, no eligibility affairs...
- The aid is €25,000, compatible with the investment aid. It is the same amount which is granted to young people who incorporate to the agricultural activity
- It has allowed for small business initiatives to become a reality.
