What we asked you

Specific **topics** on which your **organisation is active** and which offer an opportunity for improving the results achieved by the RDPs (for example, actions to support energy efficiency in farming, using the environment to add value to products, etc.).

Examples of good practice that you are aware of (themes, methods, projects).

Suggestions for **networking tools and activities** that are **relevant** for your organisation and could extend good practices (for example, workshops, guidance, thematic groups, etc.).

One priority per cell in the table. Not priorities on the left and comments on the right.

For this **immediate feedback in written form**

- there is no intention of ranking the priorities
- topics may be very specific or broader

Comments – if any – on the most important and on links – timeliness etc – can be made orally.
