## CAP Plans MS roadmaps overview (No. of MS)

*Disclaimer: this information is partial and preliminary, based on the replies provided by Member States as of 2 December 2019*

## Preliminary conclusions:

- ✓ Early sharing of the main elements of CAP Plans will allow DG AGRI to provide necessary feedback
- ✓ Informal submission of mature drafts by mid 2020 would allow Commission to engage in a structured dialogue with MS
- ✓ Formal submission should be ensured by 2020 Q4, so CAP Plans can start in 2022
- ✓ Stakeholder involvement ongoing in all MS, (shadow) monitoring committees should be envisaged asap
- ✓ Complementarity and synergies, MS encouraged to follow closely PAs discussions even if EAFRD not in the scope
