

ENRD Thematic Group on 'Mainstreaming the Bioeconomy'

Territorial approaches to rural bioeconomy

2nd meeting of the TG
17 January 2019, Rue de la Loi 38, Brussels
European Network for Rural Development – Contact Point

[#Bioeconomy @ENRD](#)

TG objective

To encourage the development of sustainable bioeconomy value chains in **rural areas** in order to promote employment and economic growth, while preserving eco-systems

Identify opportunities to further support the development of the bioeconomy through the EU funded *Rural Development Programmes (RDP)*

Set of recommendations

TG activities

 Analytical work: 1-Scoping, 2-Analysis on RDPs and synergetic instruments; territorial approaches; engaging stakeholders, 3-Recommendations

Inventory
of good
practices

3 main TG
meetings

(Oct 2018, Jan and May 2019)

2 Twitter
chats

(Nov 2018,
Feb 2019)

2 video-
conferences

(Feb & April
2019)

Seminar

(July 2019)

Portal Bioökonomie im ländlichen Raum

„Die Bioökonomie umfasst jene Teile der Wirtschaft, die erneuerbare biologische Quellen an Land und im Meer wie beispielsweise Kulturpflanzen, Wälder, Fisch, Wild- und Nutztiere sowie Mikroorganismen zur Erzeugung von Nahrungsmitteln, Werkstoffen und Energie nutzen“ (Europäische Kommission, GD Forschung und Innovation). Eine innovative und ressourcenschonende Bioökonomie kann einerseits wirtschaftliche Chancen für Erzeuger und Verarbeiter in ländlichen Gebieten eröffnen und andererseits die biologische Vielfalt bewahren und die Treibhausgasemissionen verringern helfen.

Dieses Portal ist Teil der Arbeit der ENRD-Themengruppe „Durchgängige Berücksichtigung der Bioökonomie“. Sein Schwerpunkt liegt auf den Herausforderungen und Chancen für die Bioökonomie im ländlichen Raum. Über die Schaltflächen unten können Sie sich mit dem Inhaltsangebot des Portals vertraut machen und Ihre eigenen Erfahrungen weitergeben.

Schwerpunkt

The ENRD Thematic Group on Bioeconomy is collecting information about public or private initiatives that contribute to the development of rural bioeconomy and that (are expected to) generate income, employment and increased environmental sustainability to rural areas. Contributions are welcome! Please [check the questions here first](#), and when you are ready fill in our [online survey](#).

#Bioeconomy @ENRD

Where is the value concentrated?

“To achieve a wide deployment of **sustainable biobased value chains**, it is necessary to develop ... business models that can be replicated and **adapted to a variety of locations and contexts**, with lower levels of investment, risk and technical sophistication, which can be plugged into established food and bio-based value chains or to stimulate new alternatives, **taking advantage of the benefits of the particular location** (resource availability, socio-economic factors, etc.).

A **wider range of actors need to get involved**, including farmers and forest owners (alone or in association), small businesses, etc.

By operating at local / regional level, these models will also facilitate **circular approaches** between exploitations and across sectors. To achieve these objectives, **small-to-medium scale solutions** seem to be most appropriate. **Innovative organisational models** should also be developed, to promote cooperation within and outside the primary sector. ”

- EU Bioeconomy Strategy, 2018

Today's Agenda

09.15 – 09.30 Welcome, updates of TG work plan and introduction to the day

09.30 – 09.45 RDP measures supporting territorial bioeconomy development

09.45 – 10.30 Session 1 – Local approaches to rural bioeconomy

 10.30 – 10.45 *Coffee break*

10.45 – 11.45 Group work 1

11.45 – 12.20 Session 2 – Creating an enabling environment for rural BE at the regional level

 12.20 – 13.15 *Networking lunch*

13.15 – 14.15 Group work 2

14.15 – 14.50 Session 3 – Deploying policy and instruments to support BE at regional level

14.50 – 15.10 Group work 3

 15.10 – 15.25 *Coffee break*

15.25 – 15.50 Wrap-up discussion in plenary

15.50 – 16.15 Feedback on the day and concluding remarks

Would you use your bicycle to go to work?

YES

NO

The reasons why I **would** use the bicycle

The reasons why I **would not** use the bicycle

I will live longer

I don't look elegant

Avoid traffic

Avoid parking costs

Wear a hat

Use sunscreen

Go earlier to work

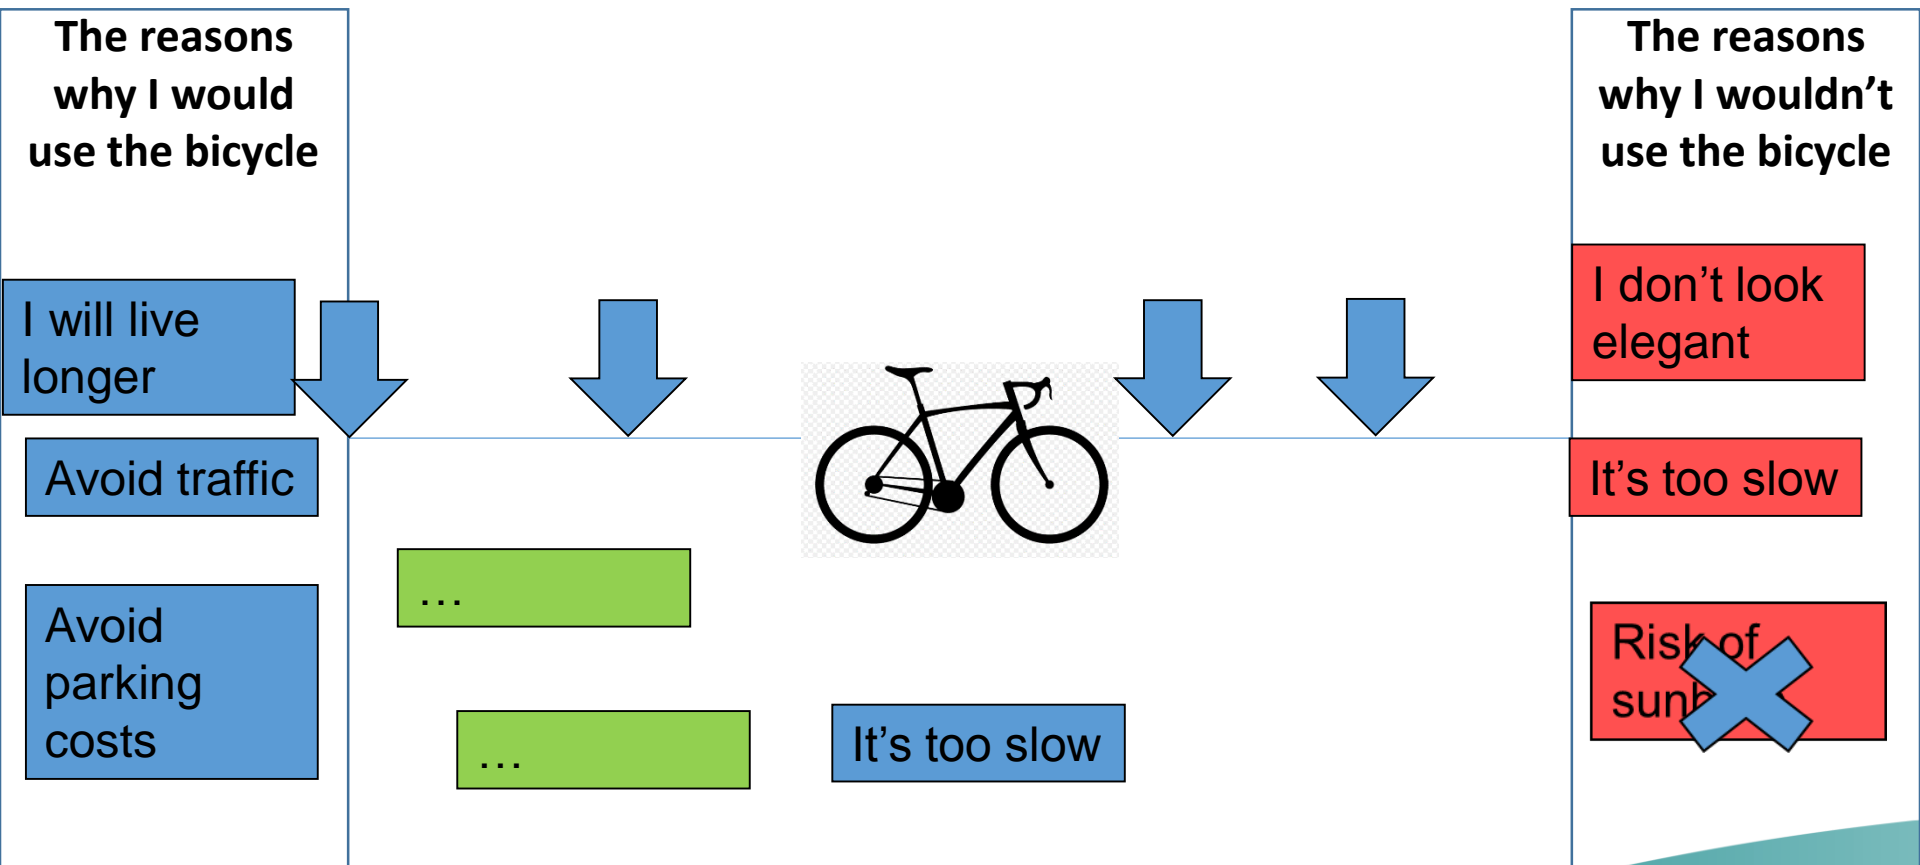

Risk of sunburn

Plant trees to make shade on the bike trail

It's too slow

Risk of sunburn 

Would you use your bicycle to go to work?

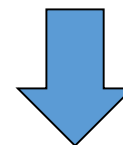

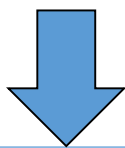

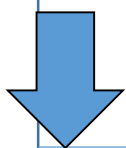

Would you use your bicycle to go to work?

YES

NO

The reasons
why I **would**
use the bicycle

The reasons
why I would
not use the
bicycle

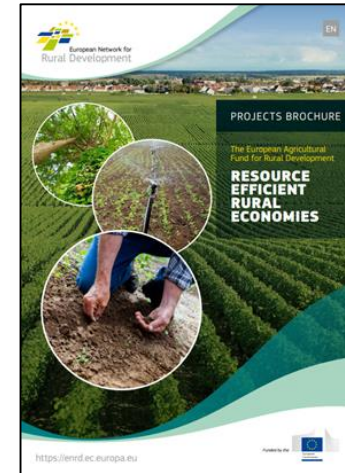

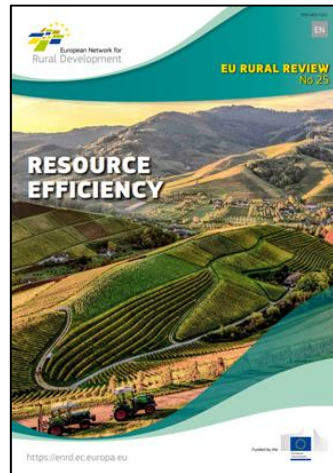

Upcoming activities

	Jan	Feb	Mar	Apr	May	Jun	Jul
Collection of rural bioeconomy cases							
Sharing of cases through Portal							
Video production							
Videoconference – 12 February							
Twitter chat (tbc)							
Videoconference – April tbc							
3 rd Meeting – 15 May							
Research & analysis							
Seminar on Bioeconomy – 3 July
