FÜR UMWELT UND LANDWIRTSCHAFT

What is important for the next period/in the CAP Strategic Plans to enable LAGs effectively to address the issue of youth?

- bottom up approach
- permanent LAG-structures during an EU period
- attractive funding for LAG structures = LAGs as creative cells = enough LAG staff needed!
- variety/broad spectrum of funding opportunities (also for young people)
- flexibility by working with the local strategy (fast moving processes!)
- networking between structures outside LEADER
- ease cooperation between LEADER regions
