

LEADER/LAG-Bornholm DK is Addressing green issues

- Bright Green Island:**
- Renewable energy
 - Circular economy
 - Local Food
 - Focus on local protein for animal feeding
 - From 2032 - no more burning waste!
 - *"Thinking and educate green"*

The Island of Bornholm: 40.000 inhab. Farming, tourists and small scale industry

LAG-strategy - Thematic / (Lighthouse-model)

- Bioeconomy (local food, energy, etc.)
- Experience economy (handicraft's, outdoor -
tourisme etc.)

Our Strategy was born green ☺

Project ex. - Green and sustainable Re-use of building materials

Nedrivning af 3 private færdige landejendomme som finansieres af Nedrivningspuljen. I alt 1333 m2.

- Underhånsbud.
- Adskilte priser på alm. nedrivning og den ekstra materialesortering.
- Udarbejdelse af ekstra betingelser for ekstra materialesortering.
- Ressourcekortlægning af 17 materialefraktioner

NEDRIVNINGER SOM LÆRINGSCASES
NEDRIVNINGSPULJE

Demolition as a learning process

New business: "Old brick's of Bornholm"

GAMLE MURSTEN BORNHOLM Aps
(under dannelse)

- CE-mærkning
- 85 tons murstenene fra nedrivninger under BYG360°
- Langvarende aftale med BOFA om løbende levering af genbrugte mursten fra genbrugspladser
- GI Mursten Bornholm skal bidrage til PARCK med projektets murstenenes sporingsdata
- GI Mursten Bornholm bliver en del af Grønt Byggeri Netværk Bornholm

Lehnsgaard - rapeseed oil
Today - local use 20% of
total harvested rape seed
(80% - used for biodiesel
in Germany)

Local
harvest:
5.000
t./year

Tomorrow:
Local use - 100 %!
As much as possible
will be used for
food.
Rest by local
farmers in milk and
pig-production.

Fishing Seaweed - a substitute of imported protein ?

Fishermen have problems with a lot of seaweed in their fishing nets - and the tourists don't want it on the beach

Could it be used for animal feed
Substitute imported soya?
Local fishermen and farmers
make a trial.

New - or upgraded Local food production 2015-2020 supported by LAG

- Natural beer
- Eco beer
- Cider
- Apple juice
