NRN and innovation in Poland

May 2015

NRN activities regarding innovation within programming period 2007-2013

NRN priority: Promotion of common activities supporting innovation in agri-food sector and rural areas

Realization of 2 projects activating potential partners interested in innovation in agriculture and food production in order to create operational groups focusing on innovation:

I project:

Information and training meetings on the possibilities of the use of measure „Cooperation” in RDP 2014-2020 and its implementation rules in each regions.

II project:

Information and training seminars on possibilities of getting support within the planned measure „Cooperation” in RDP 2014-2020

NRN activities regarding innovation within programming period 2007-2013

I project:

Target groups of the meetings (800 participants):

- Agricultural advisory services employees,
- National Rural Network staff and its biggest potential partners in the region such as:
 - Business surrounding institutions,
 - Platforms and clusters dealing with the subject of innovation in agriculture, forestry and food production
 - Entities which have succeeded in the area of patents, inventions, implementations or do some important work in that matter as well as undertake initiatives to shorten the supply chain or develop local markets

NRN activities regarding innovation within programming period 2007-2013

II project:

Target groups of the seminars (400 participants):

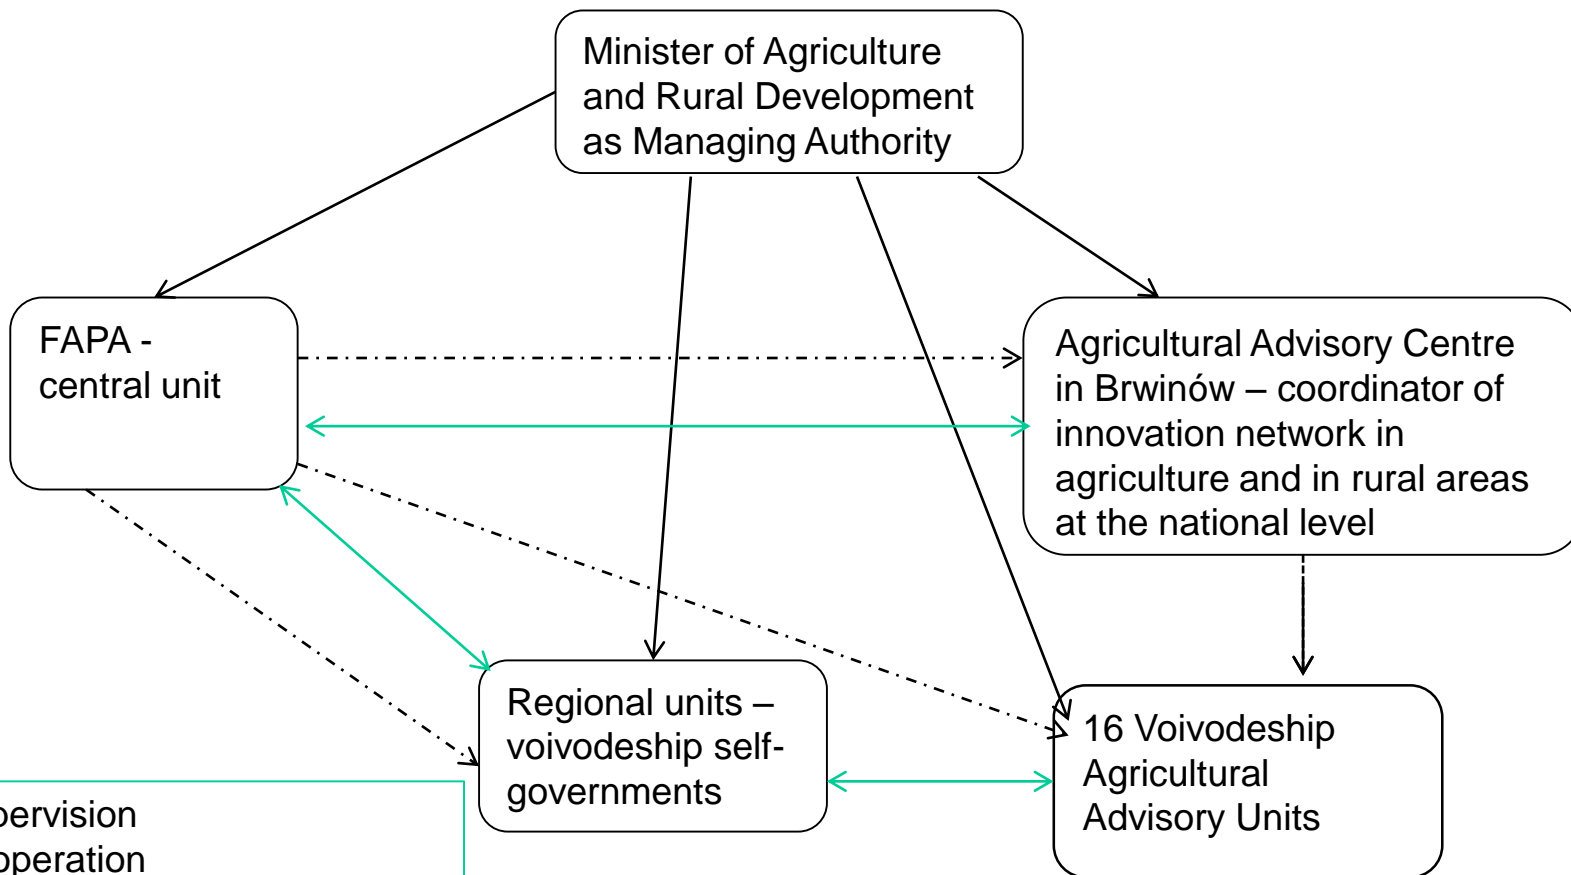

- Scientific research employees,
- Business surrounding institutions, advisory companies, administrative bodies

The main objectives are:

- getting scientific research employees interested in researches focused on solving practical problems in agriculture, forestry and food production as well as in scientific works on progress and development and implementations leading to improvement of agriculture and food production competitiveness,
- getting scientific research employees interested in cooperation for the use of research outputs in solving practical problems in agriculture, forestry and food production reported by beneficiaries as well as implementation activities which lead to improvement of agriculture and food production competitiveness

NRN organisational structure in the programming period 2014-2020

- Supervision
- ← Cooperation
- - - -> Coordination
- . . . -> Monitoring of the Action Plan implementation

Future activities with regard to innovation

- Provision of networking for advisers and for bodies that support implementation of innovations in rural areas. It will be carried out within the Action Plan of NRN and it will implement one of NRN objectives that is promotion of innovation in agriculture, food production and forestry
- Review, (form of a questionnaire), of so far acting NRN partners when it comes to their participation in innovation network in agriculture and in rural areas
- Establishment of a thematic group dealing with innovation
- Creation of a bookmark for innovation network in agriculture and in rural areas on NRN website (www.ksow.pl)
- Establishment of 90 operational groups focusing on innovation in the area of agriculture and forestry
