

Workshop 2

“Result-oriented RDPs’ implementation”

Brussels, 11 June 2014

#RDPs_2014_2020

Headlines and Issues

A stronger focus on the results we are trying to achieve by providing, saving and building capacity for all.

Being better at:

- *Communication and coordination*
- *Understanding and ownership of the objectives*
- *Ensuring two way information flows*
- *Getting the right people involved at the right time*
- *Training the right people.*
- *Institutional capital and memory*
- *Formal and informal coordination, involve bodies via tools*
- *Policy - delivery, evaluation lessons and involvement*
- *Knowledge transfer – better guidance*
- *Compliance and consistency*
- *Avoid bottlenecks in the delivery chain, "gold plating"*

How we will work

Two examples:

- ❖ SCOs in the Canary Islands
- ❖ Learning and doing, managing risks in Ireland

Discussion tables

These examples:

- What are the opportunities for you to apply these approaches
- What major obstacles are there?

Your examples:

- What have you or others done in your area?
- Who did it? Why?
- What was expected result? Any constraints?

Your recommendations:

- Up to 3 practical things that can be done, who by?
- *Someone to do the recommending!*
