

How Sweden wants to use SCO

Caroline Larsson from paying agency at the Swedish Board of Agriculture

Petra Jarlros from managing authority at the Swedish Board of Agriculture

Agenda

- Planned implementation
- Working process
- Which types of SCO Sweden wants to use

Planned implementation

An important part of making SCO an actual simplification is the implementation of the

- administrative support
- teaching
- IT-support
- trust of the level of control.

Workingproces

- Developing and writing a report
- Cooperation between the different founds (EMFF, EAFRD, ESF och ERDF) to achieve unity.
- The report has been sent to The Swedish National Financial Management Authority (the Swedish audit institution) for response.
- Presentation and teaching of co-workers.

- Program for EAFRD was sent into the COM
- Formal questions from the COM.

Which types of SCO Sweden wants to use

- Unit costs
- Lump sums
- Flat rates

Food

- Cost for lunch and dinner is reimbursed with a compulsory unit cost. A higher reimbursement is allowed concerning
 - conference
 - transnational projects within Leader
 - projects where food has a central role
- The beneficiary needs to present list of participants and motive for the cost and also attached program or other similar material

Mileage allowance

- Is reimbursed with a compulsory unit cost.
- The beneficiary needs to declare a log book.

Daily allowance

- Is reimbursed with a compulsory unit cost according to the Swedish tax agency's levels.

Individual work for sole proprietorship

- Is reimbursed with a compulsory unit cost for work that can not be declared with an invoice.

Annual working hours

- Annual working hours of 1 720 hours

Indirect costs

- Art 68.1b -15 % of eligible direct staff costs and/or smaller projects
- Art 68.1c – based on existing methods and corresponding rates
- We will regulate what is included in indirect costs.

Other costs directly linked to salary payments

- A supplement charge of 42,68 % on the gross employment cost

Lump sums

1. The applicant hand in a detailed budget with clear and measurable results
2. The administrator controls if the costs in the budget is eligible for support and reasonable and the goals are possible.
3. The managing authority send out a proposal of the decision for support to the applicant.
4. The decision for support will include sub-goals, specific conditions to ensure quality in implementation and clearly state what a beneficiary has to attach to the application for payment
5. The paying agency will only verify if the project reached its goal according to the decision for support
6. Controls after the payment has been made, shall only verify if the project reached its goal according to the decision for support

What is left to do

- Get a response and some answers from the commission
- To determine the SCO in the injunction and regulation and also decide the levels and implementation
- Gain approval and inform the suggestion concerning SCO both internal and external through web-page and education of staff
- Layout and application of SCO in the IT-system and administrative support system
