Like mind mapping

To find new ways and create new connections

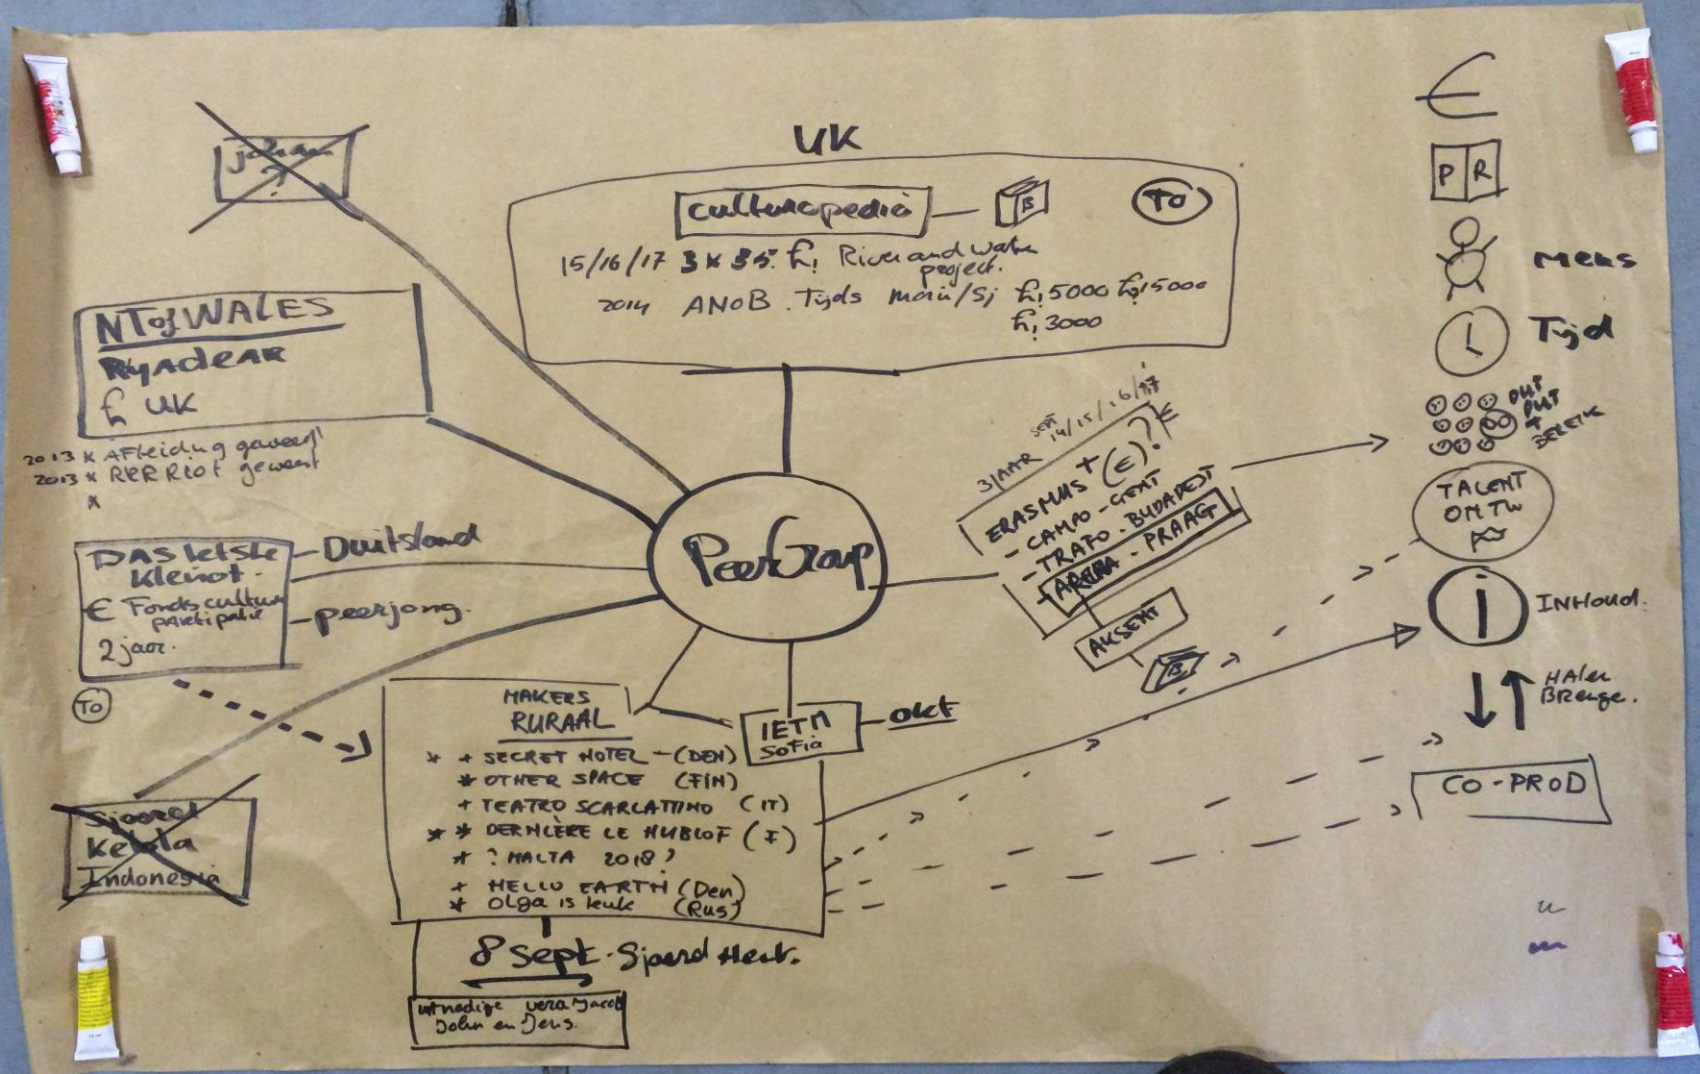

Creating this with
local people

Takes
TIME

Social mapping and find and create new community's

Radius

project

2017/2018

Inspired by Prof.dr.Joop Schaminee

Radius

The range of action

A landscape photograph showing a wide, green grassy field. In the background, a dense line of tall, leafy trees stretches across the horizon under a cloudy sky. In the foreground, there are various plants, including purple flowers and a small tree. A white, cylindrical pillar with a domed top is visible on the right side of the field.

Tree provinces point

Friesland, Groningen, Drenthe

Allardsoog

Radius goals

- To make the responsibility we have for the world around us tangible: pre antropocene era
- We develop the method RADIUS:
art/science/community
- Create theatrical and scientific interventions in the rural area of Allardsoog
 - to reach local people, government, stakeholders and wider audience
 - to discuss the themes that need attention

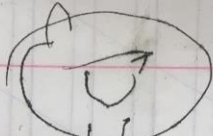

5 University

- RUG Groningen
- WUR Wageningen
- Radboud Nijmegen
- UU Utrecht
- Van Hall Larenstein Leeuwarden

RADIUS method: experiment

- We focus on the RADIUS of the 3 provinces point: border
- We work with 5 universities to investigate the RADIUS of border: physical, social and mental
- We map the 5km circle with the community
 - How do people experience borders
 - How is it related to themselves, others
 - How is it related to the world
- We bring 3 provinces and 5 villages, rural stakeholders together to share experience in the rural area of Allardsoog
- We share results: theatrical and scientific interventions
