Immigrant integration to rural areas- project

- 4 countries, 16 Leader-areas
- Approximately 150 experts of integration in the network
- Working period 2017-2019

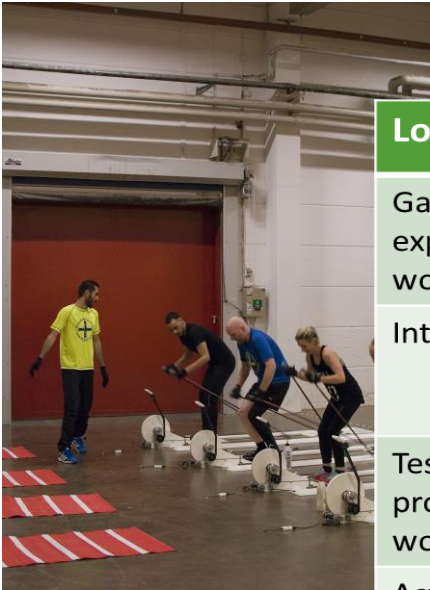

Objectives

- **Establishing a transnational network** of local integration actors and offer them an opportunity to learn from each other
- **Exchanging the best practices** related with immigrant integration
- **Identifying ways to generate added value** for the rural territories based on the immigration
- **Adding /Enhancing local residents' and authorities' knowledge on the immigrants** and the benefits of immigration and integration.
- Discussing the existing integration projects and **planning and implementation of new local projects.**

Measures

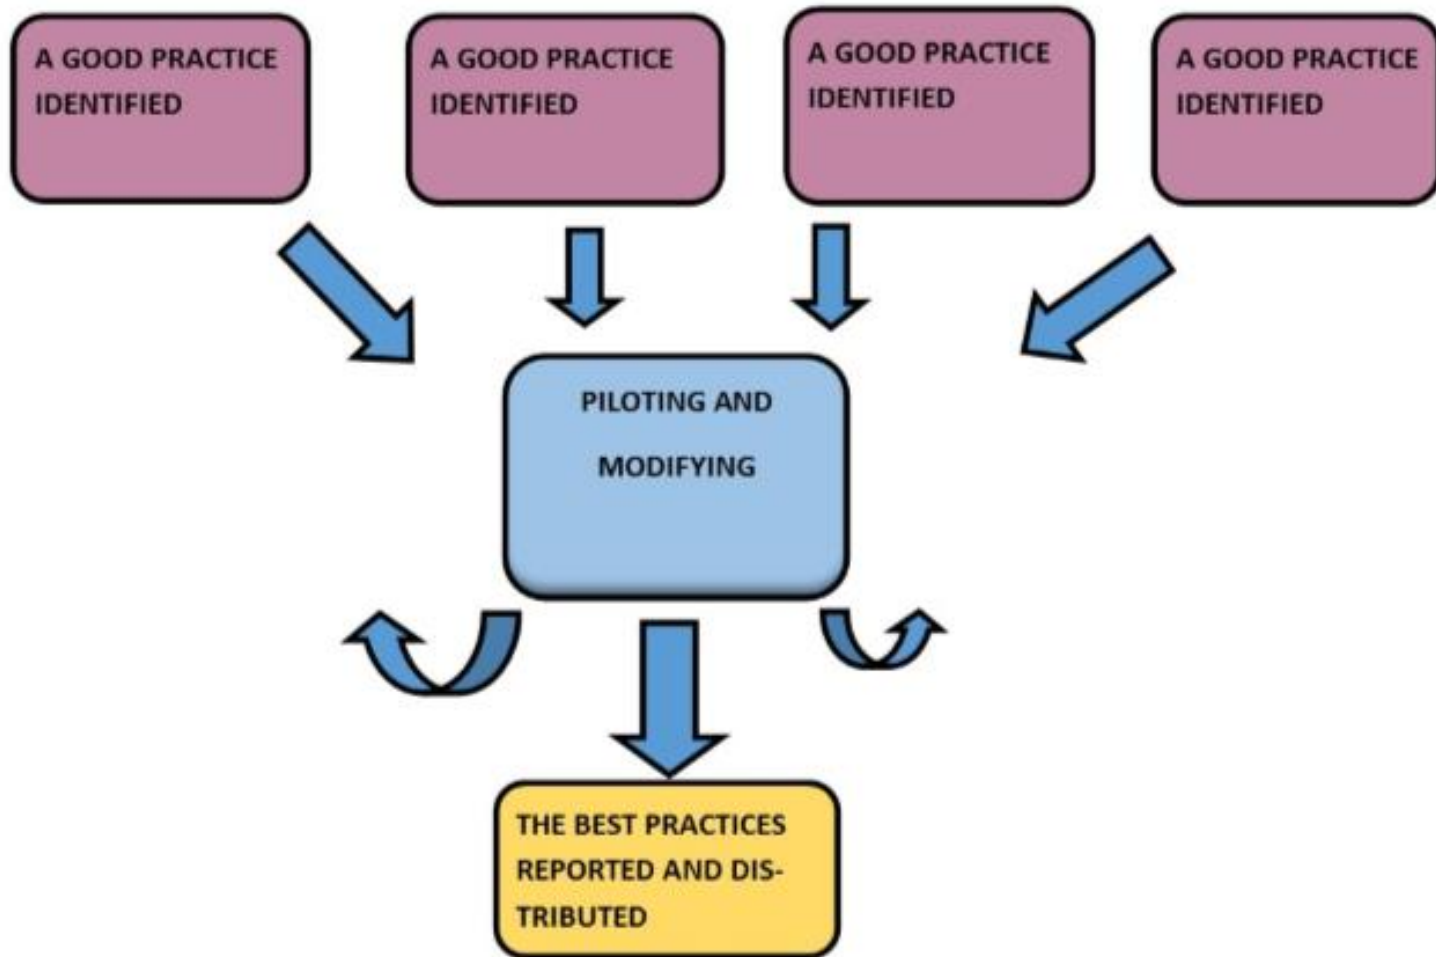

- **Identification of the relevant integration actors** including public, private and third sector
- **Organising seminars or visiting existing integration projects** and models
- **Learning platform** for the exchange and evaluation of good practices
- **Pilot projects** based on identified good practices
- **Joint Publication of Best Practices**, cases collected from each country and partner territory

Measures

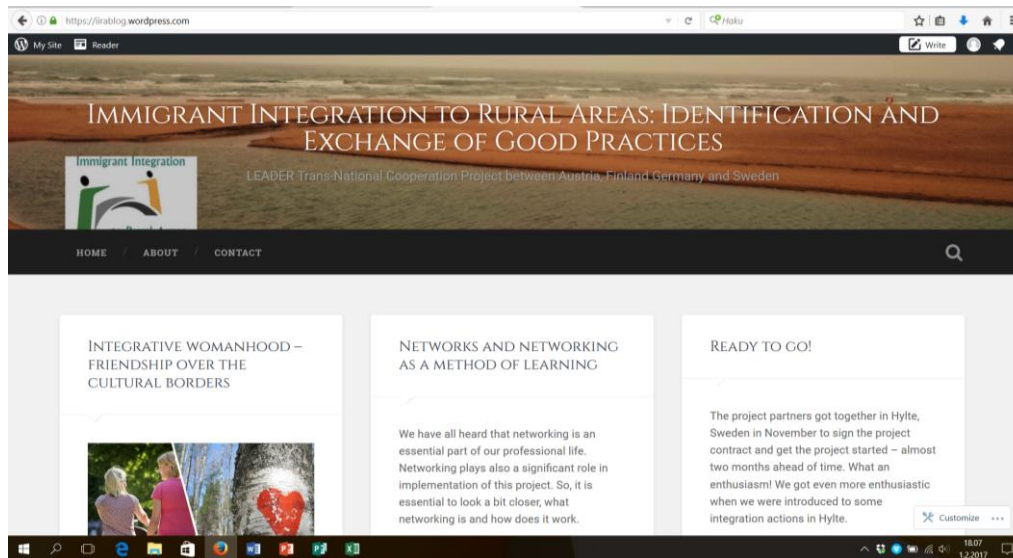

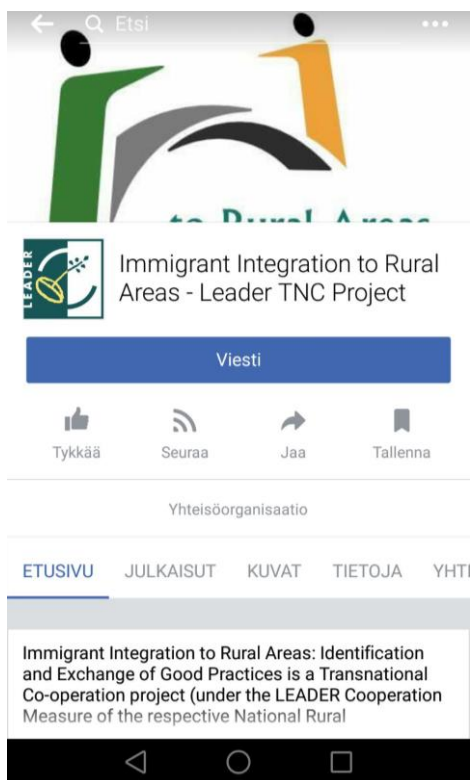

Local	Transnational
Gathering the network of experts; meetings and workshops	Networking local experts; seminars, workshops, visits and web tools
Introducing good practices;	Spreading and discussing the good practices; seminars, web tools
Testing good practices (pilot projects); blog posts, workshops	Evaluation and spreading the tested practices
Active participation on transnational measures; seminars, blog posts, learning platforms	Monitoring, activating and challenging the network; evaluation
Offering concrete practices and knowledge of integration	Offering the transnational network of experts, the learning platform, seminars and visits
