#RuralYouth

The reporting process

1. You see a crime being committed or something suspicious.

2. Go to the WhatsApp group and give as much information as possible.

3. Other users in the area will immediately look out for the suspected person/car.

4. If they do see them they will report it to the group and to the police.

5. The police take over and catch the suspects involved

Thankyou for your attention!
