

# Interactive map of Irish LAGs

## Irish Rural Network support unit

The Irish NSU developed an online interactive map to provide those interested in LEADER funding with an easy access to information about the Local Development Strategy and geographical coverage of their respective LAGs and implementing partners.

The map outlines the geographical boundaries of each of the 29 Irish LAGs, an updated list of the implementing partners in each LAG region, contact details, and website and social media links.

The map also exists in a static version and is accessible via the NRN website. It has been disseminated via newsletters and social media (Facebook and Twitter).

### Target audience

Anyone interested in accessing funding under the LEADER Programme 2014-2020.
