

# What are the innovative solutions to improve practices and education systems in rural/inner areas?

Practices and policy solutions of  
Italian Strategy for Inner Areas

Inner  
Areas

-  Single-municipality service center
-  Multi-municipality service center
-  Belt ( $t < 20'$ )
-  Intermediate areas ( $20' < t < 40'$ )
-  Remote areas ( $40' < t < 75'$ )
-  Ultra-remote areas ( $t > 75'$ )
-  Motorways

# Education problems (inequality of opportunity)

1. Small classes in primary school
2. No on-site school headmasters
3. Teacher turnover and skill shortages
4. Quality of education (lack of innovative methods)
5. Spaces of learning and creative centre

# Innovative solutions (policy solutions)

1. New methods and approach
2. Organizational choices
3. Teacher training
4. Student involvement in practical experiences
5. Building schools with architectural innovation

# How we work with communities

1. With a participative approach
2. Involving all level of government (national, regional, local)
3. Student voice and choice

*We ask*

*«How do you imagine your future in your area?»*
