## European Investment Project Portal

The European Investment Project Portal (EIPP) is a publicly available, secure web portal where EU based project promoters seeking external financing, are given the opportunity to promote their projects to potential investors.

EU Investment Offensive: Vice-President Katainen kicks off investment roadshow

### EU Investment Offensive: Vice-President Katainen kicks off investment roadshow

"Our message is very clear: we are working to a very tight timeline to get new investment flowing into cash-starved business ventures, start-up firms, into infrastructure investments like transport or broadband and new schools and hospitals. We are taking to the road to build on the strong political support we have already received and to explain to the public and private sector how they can get involved."
