Block procedure

What must absolutely be observed in the procedures of the "block procedure"?

INFO:

Block procedure:
when calls for proposals are kept open for a very long period

Block procedure

If we set a certain day as date for selection, what is to do with an application, that submitted the Administration one day before and can't be assessed completely?

INFO:

Block procedure:
when calls for proposals are kept open for a very long period

Publication

Must we publish the budget?

If yes, for every call or is it also possible for all calls
in the year?

Publication

Must we publish the application date or the date of the selection?

INFO:

Please distinguish:
Application date
for date-related application

Selection date
for continuous application

Low budget/ Tie-breaks

How is to proceed, if two applications share the same final value (same number of points) and the same ranking place but the budget is not enough?
Can we manage this internally (previously)?

Tresholds

In how far is it necessary to apply minimum thresholds if every application in this process is proved eligible?

- Has a “scoring” by applying selection criteria to be performed for identifying those with the most added value?**
- How to fix a minimum threshold?**

Thank you
