

ENRD Workshop on NRN Facilitation Techniques for Stakeholder Engagement

Agenda

4 March 2020

Calatayud, Zaragoza region, Spain

Background

A one-day workshop focused on NRN facilitation techniques for stakeholder engagement is designed to support NSUs to fulfil their tasks related to the NRN objective of ‘more involved stakeholders’. This core part of all NSUs daily work has a special importance in the framework of the current discussions on the future national CAP Strategic Plans and national CAP networks. The workshop also reflects the need for peer-to-peer learning on facilitation techniques to be used during events and related knowledge sharing among NSUs.

Objectives

The workshop aims to bring together NSU representatives and provide them with a common space to exchange on:

- their experience and expertise;
- different modern approaches in facilitation techniques.
