

Role of the California Air Resources Board (CARB)

- Historically, a leader in developing emission standards and advancing clean technologies
- AB 1493: CARB to set emission standards for greenhouse gases from light-duty vehicles
 - ▶ Regulations due January 1, 2005
 - ▶ Staff summary report due Fall 2003

Needs of the California Air Resources Board (CARB)

- Year 2000 HFC Baseline Inventory
 - ▶ All direct and indirect emissions
- Model Year 2009 MAC Greenhouse Gas Emissions Forecast
 - ▶ MY 2009 MAC technologies
 - ▶ GHG emission estimates of new technologies (LCCP basis)

Regulatory Development Approach

- Open process
 - ▶ Input and information appreciated
 - ▶ Public workshops
 - International Vehicle Technology Symposium, March 11-13, 2003
- All technologies and strategies will be given consideration
