

## Help Jiffy save the planet

Navigate a displaced frog safely across a four-lane highway; generate electricity by blowing air through wind turbines; sort waste; remove rubbish from the sea and beachfront. Saving the planet is certainly a tough job, even in the virtual world of Jiffy, the main character of DG Environment's new online game for children!

### Online game

You can choose from four areas where you can help Jiffy save the planet: water, air, waste and nature. Each one features an online game, where you can test your skills and learn about the challenges of protecting our environment.

### Quizzes

Perhaps, you prefer to test your knowledge? Jiffy poses some interesting and tricky questions, as well, in a series of quizzes. Did you know that all of the aluminium cans recycled per year would reach the moon if lined end-to-end? Do you know how much water on earth is available to drink? Or who the biggest emitter of CO<sub>2</sub> in the world is?

If you would like to learn the answers to these questions and more, just visit

[http://ec.europa.eu/environment/youth/games/home\\_en.html](http://ec.europa.eu/environment/youth/games/home_en.html)

### More games and e-Cards

And even more games and eCards are available at

[http://ec.europa.eu/environment/youth/fun\\_and\\_games\\_en.html](http://ec.europa.eu/environment/youth/fun_and_games_en.html)

You will not save the planet by playing the game, but you will learn a bit more about how to do your part in real life.
