Feedback:

The key-demands on a successful implementation of both Directives are:

- 1. to establish an one/extraordinary buget for NATURA2000 und strenghtening the instruments and Budget for extensiv land use und Managing the sites.*
- 2. to integrate all the demands for Natura2000 implementation into other policies like agriculture und forestry and make that process binding for all the EU-member states.*
- 3. to support all activities in member states for biulding up an Administration or at least an sufficient personal capacitiy for Managing the Natura2000 sites !*
