Feedback:

In order to improve the implementation of the 2 nature directives, we must address at least the following 3 items:

- *enlarge the areas where natural processes rule and we do not apply active field management within the Natura 2000 network (wilderness)*
- *improve the integration of Natura 2000 in the educational curricula, in other words improve the public outreach thereby increase the public support for the Natura 2000 network*
- *strengthen the effectiveness of management through introducing a 3rd party management audit of N2000 sites*
