Feedback:

We would like to point out in the framework of this Roadmap that EU Regulation 1013/2006 is the third European act in this matter (Directive 1984/631 and Regulation 259/93 preceded). Taking the history of these legislations and the policy they are embedded in, into consideration, this Regulation 1013/2006 can in our view not be seen as a fundamentally problematic piece of legislation and it seems that only some provisions need modification. A complete and valid evaluation should indeed be made, however we feel that some stakeholder's claims are not directly related to the WSR but rather to the OECD Decision or other legislation.

In C2 "coherence and consistency" the Animal By-Product Regulation 1069/2009 should be added.

We would like to see the Correspondents of the WSR named in D4 in addition to a general mention of stakeholders.
