

Environmental Footprint Final Conference

23-25 April, 2018

Crowne Plaza

3, Rue Gineste, 1210 Brussels

– outline of the agenda –

Opening session and roundtable

23 April 2018, 14h (3hours)

This session will explore the Environmental Footprint journey and its context. What challenges are we facing for green markets? What solutions can different stakeholders envisage? Where is the place of Environmental Footprint in this vision?

This session will be opened by Karmenu Vella, Commissioner for Environment, Maritime Affairs and Fisheries.

Cocktail

Addressing technical challenges

24 April 2018, 10h (3hours)

This session will explore how Product and Organisation Environmental Footprint address issues such as common rules, verification, cost reduction, innovation and competitiveness.

The session will also include a roundtable to discuss what company challenges do the methods help address.

Communicating environmental information 1

24 April 2018, 14h (3hours)

This session is jointly organised by the European Commission and the Nordic Environmental Footprint (NEF). It will inform about the knowledge gathered on communicating (life cycle) environmental information through the Environmental Footprint pilot phase and through other EU and Member State instruments.

Communicating environmental information 2

25 April 2018, 10h (3hours)

This session is jointly organised by the European Commission and the Nordic Environmental Footprint (NEF). It will kick-start an exchange of ideas on a future communication framework for environmental information.

Environmental Footprint in policies

25 April 2018, 14h (3hours)

A roundtable of policymakers and stakeholders will look into the potential applications of the Environmental Footprint methods in existing or new policies.

Closing words

25 April 2018, 17h
