

## PEFCR Pilot Fiche

### MARINE FISH (discontinued)

<b>Proposed product group</b>	The scope of the PEFCR Fish for human consumption is from marine fisheries and aquaculture. This includes live fish, fresh or chilled fish (including preserved fresh, chilled or frozen).
<b>Reference NACE/CPA</b>	<ul style="list-style-type: none"> <li>• 03.00 Fish and other fishing products; aquaculture products; support services to fishing <ul style="list-style-type: none"> <li>○ 03.00.1 Fish, live (03.00.12 and 03.00.14 live fish, marine, not farmed and farmed)</li> <li>○ 03.00.2 Fish, fresh or chilled (03.00.21 and 03.00.23 fresh or chilled fish, marine, not farmed or farmed)</li> </ul> </li> <li>• C.10.20 Manufactured products, processed and preserved fish, crustaceans and mollusks: <ul style="list-style-type: none"> <li>○ 10.20.1 Fish, fresh, chilled or frozen</li> </ul> </li> </ul>

<b>Work started</b>	1 June 2014
<b>Current status</b>	At the Steering Committee of 1-2 June 2016 the marine fish pilot announced that regrettably they would not be able to finish the pilot in compliance with the PEF pilot guidance on time. The pilot intends to present a report on the preliminary results of the pilot as a basis for further work in the future. One of the stumbling blocks was the lack of secondary data for marine resources production systems. The Norwegian Seafood Federation is planning, in co-operation with European institutes, to carry out a project to establish a Life Cycle Inventory Database to cover this gap.
