

Register of Collections - EU ABS Regulation

*The European Commission is responsible for establishing and maintaining the Register of collections within the Union,
whereas the EU Member States are responsible for verifying that the collection meets the criteria set out in the EU ABS Regulation and granting the status of registered collection.*

Registration code	Date of insertion into the Register	Name of the collection/collection holder and contact details	Category of the collection	Short description of - and information about - the collection or the relevant part thereof	Link to online database and website of the collection	Institution within competent authority of the Member State that verified the capacity of the collection to comply with Article 5(3) of Regulation (EU) No 511/2014
01-DE-2018	28-06-2018	<p>Leibniz-Institut DSMZ - Deutsche Sammlung von Mikroorganismen und Zellkulturen GmbH (Leibniz Institute DSMZ - German Collection of Microorganisms and Cell Cultures)</p> <p>Inhoffenstr. 7B D-38124 Braunschweig</p> <p>Prof. Dr. Jörg Overmann</p> <p>Joerg.overmann@dsmz.de contact@dsmz.de</p> <p>+49-531-2612-351 +49-531-2616-0</p>	<p>Microorganisms</p> <p>Animal cell lines</p> <p>Plant viruses</p>	<p>The registered parts of the collection include:</p> <ul style="list-style-type: none"> o Entire specimens of algae, protista, fungi, bacteria, archaea und viruses o Somatic cells of vertebrates and invertebrates o Nucleic acids of algae, protista, fungi, bacteria, archaea, viruses, vertebrates and invertebrates. <p>The collection of bacteria includes 22.859 stems of more than 10.000 species and 2.000 genera, 599 archaea, 2.465 fungi, 533 yeasts und 211 bacteriophages. The genomic DNA bank of all microbial organisms listed here includes 12.313 DNA specimens (status of 15 November 2017).</p> <p>The collection of cell lines includes 191 animal cell lines, which are also available as genomic DNA extracts (status of 15 November 2017).</p> <p>The collection of plant viruses includes 692 viruses, which are also all (1:1) available as genomic DNA extracts (status of 15 November 2017).</p>	<p>https://www.dsmz.de</p> <p>https://www.dsmz.de/catalogues/catalogue-microorganisms.html</p> <p>https://www.dsmz.de/catalogues/catalogue-human-and-animal-cell-lines.html</p> <p>https://www.dsmz.de/catalogues/catalogue-plant-viruses-and-antisera.html</p>	<p>Bundesamt für Naturschutz</p> <p>Konstantinstr. 110, 53179 Bonn, Germany</p>

For these resources, the collection has all the information concerning Access and Benefit Sharing rules, in accordance to the EU ABS Regulation. In June 2020, the registered collection was composed of 4,154 strains.</p> <p>La partie enregistrée de la collection est composée des souches indiquées "OK" pour le champ "Status APA" sur le catalogue en ligne. Pour ces ressources, la collection possède tous les éléments concernant les règles APA, en conformité avec la réglementation Européenne concernant l'Accès et la Partage des Avantages. En Juin 2020, la collection enregistrée comprenait 4.154 accessions.</p>	<p>https://www6.inrae.fr/cirm_eng/CFBP-Plant-Associated-Bacteria</p> <p>https://www6.inrae.fr/cirm/CFBP-Bacteries-associees-aux-Plantes</p> <p>http://catalogue-cfbp.inra.fr/recherche_e.php</p> <p>http://catalogue-cfbp.inra.fr/recherche.php</p>	<p>Comité d'experts chargé de l'instruction des dossiers d'inscription des collections de ressources génétiques au registre européen des collections, du contrôle des procédures de gestion y afférentes et de l'analyse des bonnes pratiques en la matière</p> <p>Ministère de l'Enseignement Supérieur, de la Recherche et de l'Innovation</p> <p>1 rue Descartes, 75231 Paris Cedex 05, France</p>
03-FR-2020	01-04-2020	<p>Pierre Fabre Research Institute Library of dry ground plant parts</p> <p>3 rue Hubert Curien BP 1352 31035 Toulouse Cedex 1 France</p> <p>Bruno David Mathieu Leti Antonio Grondin</p> <p>bruno.david@pierre-fabre.com mathieu.leti@pierre-fabre.com antonio.grondin@pierre-fabre.com</p> <p>BD: +33 6 86 1259 47 ML: +33 5 34 50 65 87 AG: +33 5 34 50 60 73</p>	<p>Dried ground plant parts from vascular plants</p>	<p>This collection includes dried ground plant parts of higher plants from several countries of origin. This collection was originally built up for an internal high throughput screening programme dedicated to find active molecules for drug discovery. It is one of the largest private libraries in the world since it includes more than 17,000 plant parts. In 2016, it has been opened to anyone through an Open Innovation Programme.</p>	<p>www.pierre-fabre.com</p>	<p>Comité d'experts chargé de l'instruction des dossiers d'inscription des collections de ressources génétiques au registre européen des collections, du contrôle des procédures de gestion y afférentes et de l'analyse des bonnes pratiques en la matière</p> <p>Ministère de l'Enseignement Supérieur, de la Recherche et de l'Innovation</p> <p>1 rue Descartes, 75231 Paris Cedex 05, France</p>
