

Agenda

Ad Hoc Meeting of the Waste Shipment Correspondents

Regulation (EC) No 1013/2006 on shipments of waste

14 January 2021

- 1) Introduction by the Commission
- 2) Approval of the agenda
- 3) Main remaining issues for the finalisation of the Correspondents Guidelines
 - a. Establishment of common thresholds across the EU to specify how “almost free from contamination” and “almost exclusively” should be interpreted
 - i. Pros and cons of unique thresholds applying to all types of plastic waste covered by the new entries
 - ii. What would be appropriate levels for such thresholds?
 - iii. Should the threshold for contamination with foreign materials and the threshold for other types of polymers be combined or added to each others?
 - iv. Review clause
 - b. How should “contamination” be understood within the scope of the Correspondents Guidelines?
 - c. Possible date of entry into force of the Correspondents Guidelines
 - d. Other possible remaining issues
- 4) Interim solution pending the adoption of the Correspondents Guidelines
- 5) Conclusion and next steps
