REGULATIONS

REGULATION (EU) No 230/2014 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

of 11 March 2014

establishing an instrument contributing to stability and peace

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Articles 209(1) and 212(2) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Acting in accordance with the ordinary legislative procedure ⁽¹⁾,

Whereas:

- (1) This Regulation constitutes one of the instruments providing direct support for the Union's external policies and succeeds Regulation (EC) No 1717/2006 of the European Parliament and of the Council ⁽²⁾, which expired on 31 December 2013.
- (2) Preserving peace, preventing conflicts, strengthening international security and assisting populations, countries and regions confronting natural or man-made disasters are among the prime objectives of the Union's external action as set out in, inter alia, Article 21 of the Treaty on European Union (TEU). Crises and conflicts affecting countries and regions, and other factors such as terrorism, organised crime, gender-based violence, climate change, cyber security challenges and security threats emanating from natural disasters pose a risk to stability and security. In order to address those issues in an effective and timely manner, specific financial resources and financing instruments are required that can work in a manner complementary to humanitarian aid and long-term cooperation instruments.

(3) In its conclusions of 15 and 16 June 2001, the European Council endorsed the Union Programme for the Prevention of Violent Conflicts, underlining the Union's political commitment to pursue conflict prevention as one of the main objectives of the Union's external relations, and acknowledging that development cooperation instruments can contribute to the attainment of that goal. The Council conclusions of 20 June 2011 on conflict prevention restated the validity of that Programme as a valid policy basis for further Union action in the field of conflict prevention. In its conclusions of 17 November 2009, the Council endorsed the 'Concept on Strengthening EU Mediation and Dialogue Capacities'.

(4) The Council conclusions of 19 November 2007 on a EU response to situations of fragility and the conclusions of the Council and the Representatives of the Governments of the Member States meeting within the Council, also dated 19 November 2007, on security and development, emphasised that the nexus between development and security should inform Union strategies and policies in order to contribute to policy coherence for development in accordance with Article 208 of the Treaty on the Functioning of the European Union (TFEU) and to the coherence of Union external action in general. More specifically, the Council concluded that future work on security and development should include the security and development implications of climate change, environmental and natural resource management issues and migration.

(5) The European Council approved the European Security Strategy on 12 December 2003 and the shared analysis of its Implementation Report on 11 December 2008. In its communication entitled 'EU Internal Security Strategy in Action: Five steps towards a more secure Europe', the Commission also noted the importance of cooperation with third countries and regional organisations, in particular for the purposes of combating multiple threats such as trafficking in human beings, drug trafficking and terrorism.

⁽¹⁾ Position of the European Parliament of 11 December 2013 (not yet published in the Official Journal) and decision of the Council of 11 March 2014.

⁽²⁾ Regulation (EC) No 1717/2006 of the European Parliament and of the Council of 15 November 2006 establishing an Instrument for Stability (OJ L 327, 24.11.2006, p. 1).

- (6) In its communication entitled ‘Towards an EU response to situations of fragility — engaging in difficult environments for sustainable development, stability and peace’, the Commission recognised the essential contribution made by the Union to the promotion of peace and stability by addressing expressions of violence and root causes of insecurity and violent conflict. This Regulation should contribute to the attainment of those goals.
- (7) On 8 December 2008, the Council approved a comprehensive approach to the implementation by the Union of United Nations Security Council Resolutions 1325 (2000) and 1820 (2008) on women, peace and security, recognising the close links between the issues of peace, security, development and gender equality. The Union has consistently called for full implementation of the women, peace and security agenda as set out in relevant United Nations Security Council resolutions, particularly the need to combat violence against women in conflict situations and to promote the participation of women in peacebuilding.
- (8) The EU Strategic Framework and Action Plan on Human Rights and Democracy, adopted by the Council on 25 June 2012, calls for the development of operational guidance to ensure that human rights are taken into consideration in the design and implementation of counter-terrorism assistance measures, and underlines that the eradication of torture and other cruel, inhuman or degrading treatment and respect for due process (including the presumption of innocence, the right to a fair trial and rights of defence) are a Union priority in the implementation of human rights.
- (9) Democracy and human rights have been placed at the forefront of the Union’s relations with third countries and should thus be considered as principles under this Regulation.
- (10) The European Council Declaration of 25 March 2004 on Combating Terrorism called for counter-terrorism objectives to be integrated into external assistance programmes. The European Union Counter-Terrorism Strategy, adopted by the Council on 30 November 2005, called for increased counter-terrorism cooperation with third countries and the United Nations. The Council conclusions of 23 May 2011 on enhancing the links between internal and external aspects of counter-terrorism called for the capacity of the competent authorities involved in the fight against terrorism in third countries to be strengthened in the strategic programming of the Instrument for Stability established by Regulation (EC) No 1717/2006.
- (11) Regulation (EC) No 1717/2006 was adopted with the objective of enabling the Union to provide a consistent and integrated response to situations of crisis and emerging crisis, to address specific global and trans-regional security threats and to enhance crisis preparedness. This Regulation aims to introduce a revised instrument, building on the experience of Regulation (EC) No 1717/2006, in order to increase the efficiency and coherence of the Union’s actions in the areas of crisis response, conflict prevention, peace-building and crisis preparedness in addressing security threats and challenges.
- (12) Measures adopted pursuant to this Regulation should pursue the objectives of Article 21 TEU and Articles 208 and 212 TFEU. They may be complementary to, and should be consistent with, measures adopted by the Union in pursuit of Common Foreign and Security Policy objectives within the framework of Title V TEU and measures adopted within the framework of Part Five TFEU. The Council and the Commission should cooperate to ensure such consistency, each in accordance with its respective powers.
- (13) This Regulation should be consistent with the provisions concerning the organisation and functioning of the European External Action Service (‘EEAS’) as established by Council Decision 2010/427/EU ⁽¹⁾. The 2010 Declaration by the High Representative on political accountability confirmed the principles of dialogue with, consultation of, and the provision of information and reporting to the European Parliament.
- (14) The Commission and the EEAS, as appropriate, should hold regular and frequent exchanges of views and information with the European Parliament. In addition, according to the relevant inter-institutional agreements on the matter, the European Parliament is to be given access to documents in order for the right of scrutiny under Regulation (EU) No 182/2011 of the European Parliament and of the Council ⁽²⁾ to be exercised in an informed manner.
- (15) Common rules and procedures for the implementation of the Union’s instruments for financing external action are laid down in Regulation (EU) No 231/2014 of the European Parliament and of the Council ⁽³⁾.

⁽¹⁾ Council Decision 2010/427/EU of 26 July 2010 establishing the organisation and functioning of the European External Action Service (OJ L 201, 3.8.2010, p. 30).

⁽²⁾ Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission’s exercise of implementing powers (OJ L 55, 28.2.2011, p. 13).

⁽³⁾ Regulation (EU) No 231/2014 of the European Parliament and of the Council of 11 March 2014 laying down common rules and procedures for the implementation of the Union’s instruments for financing external action (see page 11 of this Official Journal).

(16) In order to ensure uniform conditions for the implementation of this Regulation, implementing powers should be conferred on the Commission with regard to programming and implementation measures. Those powers should be exercised in accordance with Regulation (EU) No 182/2011.

(17) Given the nature of such implementing acts, in particular their policy orientation nature and budgetary implications, the examination procedure should in principle be used for their adoption, except in the case of measures of a small financial scale.

(18) The Commission should adopt immediately applicable implementing acts where, in duly justified cases relating to the need for a swift response from the Union, imperative grounds of urgency so require.

(19) The Union should seek the most efficient use of available resources in order to optimise the impact of its external action. That should be achieved through coherence and complementarity between the Union's instruments for external action, as well as the creation of synergies between this instrument, other Union instruments for financing external action and other policies of the Union. This should further entail mutual reinforcement of the programmes devised under the instruments for financing external action.

(20) Since the objectives of this Regulation cannot be sufficiently achieved by the Member States but can rather, by reason of the scale and effects of the action, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 TEU. In accordance with the principle of proportionality as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve those objectives.

(21) This Regulation lays down a financial envelope for its period of application which is to constitute the prime reference amount, within the meaning of point 17 of the Interinstitutional Agreement of 2 December 2013 between the European Parliament, the Council and the Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management⁽¹⁾, for the European Parliament and the Council during the annual budgetary procedure.

(22) It is appropriate to align the period of application of this Regulation with that of Council Regulation (EU, Euratom) No 1311/2013⁽²⁾. Therefore, this Regulation should apply from 1 January 2014 until 31 December 2020,

HAVE ADOPTED THIS REGULATION:

Such an exceptional assistance measure may have a duration of up to 18 months, which may be extended twice by a further period of up to six months, up to a total maximum duration of 30 months, in the event of objective and unforeseen obstacles to its implementation, provided that there is no increase in the financial amount of the measure.

In cases of protracted crisis and conflict, the Commission may adopt a second exceptional assistance measure of a duration of up to 18 months.

The duration of the exceptional assistance measure referred to in the first subparagraph combined with the duration of that referred to in the second subparagraph shall not exceed 36 months.

3. Where an exceptional assistance measure costs more than EUR 20 000 000, it shall be adopted in accordance with the examination procedure referred to in Article 16(3) of Regulation (EU) No 236/2014.

4. The Commission shall likewise inform the Council before making significant substantive changes to exceptional assistance measures already adopted. The Commission shall take account of the relevant policy approach of the Council both in its planning and in its subsequent implementation of such measures, in the interests of consistency of the Union's external action.

5. As soon as possible following the adoption of an exceptional assistance measure, and in any case within three months thereof, the Commission shall report to the European Parliament and to the Council, giving an overview of the nature, context and rationale of the measure adopted, including the complementarity of that measure with the ongoing and planned Union response.

6. The Commission may adopt interim response programmes in accordance with the examination procedure referred to in Article 16(3) of Regulation (EU) No 236/2014 with a view to establishing or re-establishing the essential conditions necessary for the effective implementation of the Union's external cooperation policies.

Interim response programmes shall build on exceptional assistance measures.

The Commission shall keep the European Parliament duly informed, in a timely manner, about its planning and the implementation of Union assistance pursuant to Article 3, including the financial amounts envisaged, and shall also inform the European Parliament when making substantial changes or extensions to that assistance.

*Article 8***Thematic strategy papers and multiannual indicative programmes**

That procedure shall also apply to substantial reviews which have the effect of significantly modifying thematic strategy papers or multiannual indicative programmes.

5. The examination procedure referred to in Article 16(3) of Regulation (EU) No 236/2014 shall not apply to non-substantial modifications or technical adjustments to thematic strategy papers and multiannual indicative programmes pursuant to which funds are reassigned within the indicative financial allocations per priority area, or the size of the initial indicative financial allocation is increased or decreased by not more than 20 % but by an amount not exceeding EUR 10 000 000, provided that such modifications or technical adjustments do not affect the priority areas and objectives set out in those documents.

In such cases, modifications or technical adjustments shall be communicated without delay to the European Parliament and to the representatives of the Member States in the committee referred to in Article 11.

6. On duly justified imperative grounds of urgency relating to the need for a swift response from the Union, the Commission may modify thematic strategy papers and multiannual indicative programmes in accordance with the procedure referred in Article 16(4) of Regulation (EU) No 236/2014.

A clear human rights perspective shall also be present in measures addressing cyber-security and the fight against cybercrime.
