### Legend

- **Green**: data falls within the top of the 2012 groups
- **Orange**: data falls within the middle of the 2012 groups
- **Red**: data falls within the bottom of the 2012 groups

**In addition, the change in each indicator since the baseline is illustrated by a separate traffic light signal. Amber denotes no or 'limited' change, calculated by subtracting the minimum value from the maximum value for each indicator, and then dividing by the number of countries. This provides a range around the zero for each indicator.**
