1. PURPOSE OF THE DOCUMENT

The data published by Eurostat in Balance of Payments and Foreign Affiliates Statistics domains are mostly based on the data transmissions by the EU Member States and other European countries. The BoP Vademecum is the reference document for the data transmission addressed to the national compilers. Its main purpose is to specify Eurostat's needs and assist the national compilers in fulfilling them.

The BoP Vademecum reflects requirements laid down in the Regulation (EC) No 184/2005 of the European Parliament and of the Council of 12 January 2005 on Community statistics concerning balance of payments, international trade in services and foreign direct investment (BoP Regulation) and in the Regulation (EC) No 716/2007 of the European Parliament and of the Council of 20 June 2007 on Community statistics on the structure and activity of foreign affiliates (FATS Regulation).

Moreover, the BoP Vademecum also reflects users' interest on the following data sets:

- Balance of payments Euro indicators;
- Balance of payments quarterly statistics;
- International trade in services and remittances;
- Foreign direct investment flows and positions;
- Outward foreign affiliates statistics.

To facilitate the access to this document, the BoP Vademecum is available in an electronic format (in MS WORD, MS Excel and PDF format) at the following address:

<https://circabc.europa.eu/faces/jsp/extension/wai/navigation/container.jsp>

Choose: Eurostat/Balance of Payments-BoP/Library/SDDS BoP Metadata

Eurostat welcomes and encourages suggestions from users for further improvements to the BoP Vademecum.

All proposals should be sent to the functional e-mail: estat-bop-vademecum@ec.europa.eu.

2. CHANGES FROM THE PREVIOUS VERSION (DECEMBER 2012)

This edition of Balance of Payments Vademecum is the last one describing requirements according to 5th edition of IMF Balance of Payments Manual (BPM5). Starting from June 2014 new requirements, according to 6th edition of IMF Balance of Payments Manual (BPM6) and specified in the Commission Regulation No 555/2012 amending Regulation (EC) No 184/2005 of the European Parliament and of the Council of 12 January 2005 on Community statistics concerning balance of payments, international trade in services and foreign direct investment, as regards the update of data requirements and definitions, will replace the current requests according to BPM5 methodology. These new requirements are described in a separate edition of 2013 update of BoP Vademecum. 2014 is a transition year and range of data still requested according to BPM5 differs among BoP domains:

- ✓ For **Euroindicators**, BPM5 data will be requested for reference quarters 2013Q3, 2013Q4, 2014Q1 and 2014Q2, with the last reporting to take place by 29 August 2014. Euroindicators will be then replaced by monthly BoP request,
- ✓ For **quarterly BoP**, BPM5 data will be requested for reference quarters 2013Q3, 2013Q4 and 2014Q1, with the last reporting to take place by 30 June 2014,
- ✓ For **international trade in services, no annual data according to BPM5 are requested in 2014** (data for reference year 2013 should be transmitted according to BPM6 methodology).
 - Possible **revisions of annual data for reference years 2010, 2011 and 2012** may be sent either according to BPM5 (questionnaires included in the present Vademecum only for the transmission of Annual ITS revised data) or to BPM6 methodology. However, if revised data need to be transmitted for the above periods, Member States are strongly encouraged to use BPM6 (see BPM6 Vademecum). For those Member States who would send annual revised data according to BPM5, Eurostat will do the conversion into BPM6,
 - European aggregates and national figures for annual ITS data before reference year 2010 will be disseminated according to BPM5. This means that **revisions prior to reference year 2010** should be delivered according to BPM5 (questionnaires included in the present Vademecum),
 - Please notice that the European aggregates for annual ITS data to be published towards the end of 2014 will be recalculated by Eurostat from 2010 onwards, so that there will be a break in the European series. The same principle will be applied to the publication of national data.
- ✓ For **foreign direct investment flows and positions** data according to BPM5 methodology will be asked for requests with deadline of t+21 months, which concern reference year 2012 and possible revisions of back periods. For requests with deadline of t+9 months revisions according to BPM5 methodology are requested for reference years prior to 2013 on voluntary basis.
- ✓ Change of methodology does not concern **Outward FATS** and the current questionnaires continue to be valid.

Further details concerning data reporting in 2014 may be found in document BP-13-10 “Overview of 2014 Data reporting final” presented at the meeting of BoP WG on 9 April 2013. Timetable for data transmissions according to BPM5 can be found on page 13.

Comparing with the previous edition of BoP Vademecum of December 2012, the changes mainly concern Euro Area enlargement and its consequences on quarterly and annual BoP reporting.

All changes from the previous version of the Vademecum are highlighted in **shadow**, while **the BoP Regulation and FATS Regulation requirements (mandatory data) are marked in Bold**.

2.1 Changes related to Euro Area enlargement

a) General guidelines

The enlargement of the Euro Area has implications on (i) the data dissemination by Eurostat and the ECB on Euro Area aggregates and (ii) on reporting requirements for the Member States. Standardisation of the requirements is considered to be fundamental by Eurostat and the ECB.

On 1 January 2014, Latvia (LV) will join the Euro Area (EA). Eurostat's policy for the BoP is in line with (i) the general Eurostat policy on enlargement, (ii) the procedure applied during the previous enlargements from EA-12 to EA-13, EA-15, EA-16 and EA-17 and (iii) the ECB policy on the Euro Area enlargement.

Codes for the *Euro Area 18 (I7)* and *Extra Euro Area 18 (J7)* have been introduced.

The following paragraphs highlight the main implications of Eurostat's policy on enlargement on quarterly and annual data sets.

b) Implications for Quarterly BoP data requests

1. When to swap from the old to the new Euro Area composition?

⇒ Eurostat asks Member States to start including the new Euro Area aggregates (I7 and J7) as from 2014/Q1 onwards, i.e. the delivery of 30 June 2014.

2. Back-data requests

Back-data on partner **Latvia** are required as for reference quarters from 2008/Q1 until 2013/Q4 and should ideally be transmitted to Eurostat by 31 March 2014 – see further details in section 5.1.

Special request for back-data with partner **Latvia** for periods 1999/Q1-2007/Q4, described on page 61, is requested by 30 June 2014. **The special request is related to a very limited number of posts:** Current account (993), Goods (100), Services (200), Income (300), Compensation of employees (310), Investment income (320), Direct investment income (330), Portfolio investment income (339), Other investment income (370), Current transfers (379), Capital account (994) and the priority QSA posts: Direct investment income - Income on equity – dividends and distributed profits (332), Direct investment income - Income on equity – reinvested earnings and undistributed profits (333), Direct investment income - Income on debt (334), Portfolio investment income – income on equity (340) and Portfolio investment income - income on debt (349).

3. The option of full bilateral data

OPTIONAL (the ideal future situation): Instead of delivering EU and EA aggregates, Member States may also send full bilateral data with respect to all EU Member States. Eurostat will calculate itself the aggregates. This option is valid for both the back-data requests and for all future deliveries.

In new requirements according to BPM6 methodology data with all EU non-Euro Area Member States will be required as part of Geo4 (Level 1) of geographical breakdown. In this way, in case of future Euro Area enlargements no back data for available years will be requested in respect to these countries.

4. Overview table of required EU and EA aggregates

In order to guide Member States on the *required composition of EU and Euro Area aggregates* for each reference period, the following table can be used as a reference. It also specifies which quarterly questionnaire is to be used in each period. This table is valid for both back-data and future transmissions.

Code	Aggregates	Reference periods															
		'99	'00	'01	'02	'03	'04	'05	'06	'07	'08	'09	10	11	12	13	14
V1	EU27																
V2	Extra EU27																
V3	EU28																
V4	Extra EU28																
I6	EA17																
J6	Extra EA17																
I7	EA18	Q1 - special back data request ⁽¹⁾									Q1 - back data ⁽²⁾					Q1	
J7	Extra EA18	Q1 - special back data request ⁽¹⁾									Q1 - back data ⁽²⁾					Q1	

⁽¹⁾Details on back data request for partner Latvia can be found on page 54.

⁽²⁾Back data are requested only with partner Latvia.

c) Implications for Annual ITS, FDI and Outward FATS data requests

The implications of the enlargement on the data requirements for annual ITS, FDI and Outward FATS statistics, are the following:

1. When to swap from the old to the new Euro Area composition?

⇒ Eurostat asks Member States to start including the new Euro Area aggregates (I7 and J7) only as from reference year 2014 onwards. These data are to be reported already according to the new BPM6 requirements. Therefore, Euro Area enlargement with Latvia has no impact on BPM5 reporting of annual ITS and FDI. Euro Area aggregates are not requested for Outward FATS.

2. Back-data requests

There are **no special back data requests** on new Euro Area composition.

3. Full bilateral data + aggregates

For consistency reasons with other international organisations, Eurostat kindly asks Member States to provide both full bilateral data and aggregates of economic and geographical zones for all items as specified in the BoP Vademecum requests.

4. Overview table of required EU and EA aggregates

In order to guide Member States on the *required composition of EU and Euro Area aggregates* for each reference period, the following table can be used as a reference. This table is valid for both back-data and future transmissions.

<i>Code</i>	<i>Aggregates</i>	<i>Reference periods</i>										
		'04	'05	'06	'07	'08	10	11	12	13	14	
V1	EU27											
V2	Extra EU27											
V3	EU28											
V4	Extra EU28											
I6	EA17											
J6	Extra EA17											
I7	EA18											
J7	Extra EA18											

2.2 Changes related to EU enlargement

On 1 July 2013, Croatia joined the European Union. The implications of the enlargement of the EU are explained in detail in the previous edition of BoP Vademecum of December 2012. An overview of the required EU aggregates is also provided in the two tables above.

As a reminder, Eurostat asks Members States to start including the new EU aggregates (V3 and V4) as from 2013/Q2 onwards reference period, i.e. from the delivery due on 30 September 2013 for quarterly BoP data and from reference year 2013, i.e. the delivery due on 30 September 2014 onwards for annual FDI and ITS, 31 August 2015 for Outward FATS and 30 September 2015 for activity breakdown of FDI flows and positions.

3. INTERNAL ORGANISATION

Unit C2 – National and Regional Accounts – Production. Balance of Payments

4. DATA TRANSMISSION

NOTE

The following measures on data transmission are introduced to ensure a reasonable level of efficiency, security and oversight of data reception and processing at Eurostat. In principle they apply to all data suppliers but they are especially important for **EU Member States and Candidate Countries**.

4.1. TIMETABLE AND REVISION POLICY

☛ Please, be aware that any transmission of data **before the deadline** is very much appreciated.

Deadline	Reference period	Revised/back data ⁽¹⁾	Data flow	Questionnaire	Delay T=reference period	Date of publication
29 November 2013	2013 Q3		BOP_EUR_Q	Euro indicators	T + 2 months	6 December 2013
2 January 2014	2013 Q3	2013 Q2	BOP_Q_Q	Q1	T + 90 days	23 January 2014
28 February 2014	2013 Q4		BOP_EUR_Q	Euro indicators	T + 2 months	7 March 2014
31 March 2014	2013 Q4	2011 Q1 – 2013 Q3	BOP_Q_Q ⁽²⁾	Q1	T + 90 days	16 April 2014
30 May 2014	2014 Q1		BOP_EUR_Q	Euro indicators	T + 2 months	6 June 2014
30 June 2014	2014 Q1	2013 Q4	BOP_Q_Q ⁽²⁾	Q1	T + 90 days	18 July 2014
29 August 2014	2014 Q2		BOP_EUR_Q	Euro indicators	T + 2 months	5 September 2014
29 August 2014	2012 A	2011 A	BOP_FATS_A	Y11_R1/2/3	T+20 months	
30 September 2014	2012 A	2011 A	BOP_FDI_A ⁽²⁾	Y5_R5/6/7/8	T+21 months	
30 September 2014	2012 A	2011 A	BOP_POS_A ⁽²⁾	Y7_R6/7	T+21 months	
30 September 2014	2012 A	2011 A	BOP_POS_A ⁽²⁾	Y8_R3/4	T+21 months	

⁽¹⁾ Member States can send other revisions or back data, in case of any revisions in national figures.

⁽²⁾ Member States which are transmitting to Eurostat two sets of data (one compiled according to the Community concept, the other compiled according to the national concept) are kindly required to differentiate the two data flows using different DSI segment as described on page 15. Deadlines for data compiled according to national concept are the same as for the corresponding data compiled according to Community concept.

4.2. DATA TRANSMISSION GUIDELINES

4.2.1 Which data format ?

The data format is Gesmes/TS.

As example, the UNB segment of the file header, e.g.:

UNB+UNOC:3+AT2+4D0+021230:1541+IREF000001++GESMES/TS'

All data must be reported in Gesmes/TS format. For information about the format, please consult:

<https://circabc.europa.eu/faces/jsp/extension/wai/ecas/ecaslogin.jsp?ticket=ST-1425093-F8Nr7EU7vYtG1Po8yiIzUsR0xIrWqS4bhSYdGQ78hZSKazWX7leGw7ED5VAdk2Hnic7patL1zzenY8zPkuYzzrSm-9fKQG0rMBdOgElNm4zvAZ7-f0Eslzw60E7PzWkVrqL3ouZID3YBPqzKXjmzMpoClvHi>

Choose: Eurostat/Balance of Payments-BoP/Library/IT related issues/Gesmes.doc

4.2.2.a Where to send data ?

Always to Eurostat's single entry point, and nowhere else. According to Eurostat internal decision announced at the SPC meeting in February 2008, it is compulsory to use eDAMIS for all transmissions of regular datasets to Eurostat as from 1 July 2008. It can be done in two ways:

- ✓ By using the eDAMIS Web Application on your intranet (available in all EU Member States' National Statistical Institutes and National Banks). The data file can be encrypted.
- ✓ By using eDAMIS Web Portal: <https://webgate.ec.europa.eu/edamis>. The data file can be encrypted.
- ☛ Explanations about sending encrypted files to Eurostat can be found on eDAMIS Help Center Web site: <https://circabc.europa.eu/faces/jsp/extension/wai/navigation/container.jsp>
Choose: Browse categories/Eurostat/EDAMIS Help Centre.

4.2.2.b How to send data ?

With the introduction of Gesmes/TS to exchange data, the way to send data and to present the data request has changed.

As GESMES/TS is designed to exchange sets of data, the concept of data flow has been created. From the point of view of data transmission, 'questionnaires' have been replaced by 'data flows'.

Data flows are designed to avoid duplicates. A data flow groups together all data belonging to questionnaires of a specific domain (euro-indicators, quarterly BoP data, ITS, FDI flows, FDI positions, Outward FATS), which are homogeneous from a methodological point of view (that is, compiled following either the Community concept or the national concept). A data flow can contain several requests. These are the definitions of the BOP data flows in terms of the BOP questionnaires:

Data flow	Requests	Data to be sent (in terms of BoP or FATS questionnaires)
BOP_EUR_Q	R1	Euro-indicators
BOP_Q_Q, BOP_QN_Q	R1, R2, R3, R4, R5	Q1
BOP_ITS_A, BOP_ITSN_A	R1, R2, R3	Y1
BOP_FDI_A, BOP_FDIN_A	R1, R2, R3, R4, R5, R6, R7, R8, R9	Y5_R5, Y5_R6, Y5_R7, Y5_R8, Y5_R9, Y6_R1, Y6_R2, Y6_R3, Y6_R4
BOP_POS_A, BOP_POSN_A	R1, R2, R3, R4, R6, R7	Y8_R1, Y8_R2, Y8_R3, Y8_R4, Y7_R6, Y7_R7
BOP_FATS_A	R1, R2, R3	Y11

Countries for which the national concept is the same as the Community concept shall send only one data flow for each domain, which is BOP_Q_Q for quarterly BoP, BOP_ITS_A for ITS, BOP_FDI_A for FDI flows and BOP_POS_A for FDI stocks. Countries for which the national concept differs from the Community concept shall send two data flows for each domain where the two concepts translate in two different datasets.

4.2.3 How many data files ?

The data should be sent using **as few data files as possible**. For that matter, a single data file may cover several reporting periods. In practice, there should be a single message (a single message reference number) for each data flow. For example, there should be a single message for FDI data and this message should contain all data defined in Y5 and Y6 (all economic activities, all partners...) as defined in the data flow 'BOP_FDI_A', requests. For all BOP data, the key family is unique; the differentiation of the data flows is made using the DSI segment.

4.2.4 Which DSI (Data set identification) ?

Each data interchange contains data of a given type (ITS, FDI flows, FDI positions ...). The type of data must be specified in the DSI segment (data set identification) of the message. **Mixing two types of data, e.g., FDI flows and FDI positions, is not allowed.**

Separate DSI segments have been introduced to allow for the identification of data compiled according to the national concept (NC) and to distinguish them from the data compiled according to the Community concept (CC). The separate DSIs for data compiled according to the national concept shall be used only by Member States which are transmitting to Eurostat **two sets of data. These DSI segments should not be used by the Member States which are transmitting to Eurostat only one set of data.**

The following are the valid values for the DSI segment:

Type of data

Euro-indicators
Quarterly data (Community concept - CC)
Quarterly data (National concept - NC)
International Trade in Services and Remittances (CC)
International Trade in Services and Remittances (NC)
Foreign Direct Investments (flows) (CC)
Foreign Direct Investments (flows) (NC)
Foreign Direct Investments (positions) (CC)
Foreign Direct Investments (positions) (NC)
International Investment Position (Annual)
International Investment Position (Quarterly)
Foreign Affiliates Statistics

DSI segment

DSI+BOP_EUR_Q'
DSI+BOP_Q_Q'
DSI+BOP_QN_Q'
DSI+BOP_ITS_A'
DSI+BOP_ITSN_A'
DSI+BOP_FDI_A'
DSI+BOP_FDIN_A'
DSI+BOP_POS_A'
DSI+BOP_POSN_A'
DSI+BOP_IIP_A'
DSI+BOP_IIP_Q'
DSI+BOP_FATS_A'

Using DSI+EUROSTAT_BOP_01 is not correct.

For Outward FATS data, a different key family EUROSTAT_FATS_01 has been introduced, the DSI remains unchanged: 'BOP_FATS_A'.

4.2.5 Uniqueness of the key

No two cells in a data set can have the same key value (the key is the combination of the dimensions of the key family). In other words, the (combination of) values of the dimensions given in a data set must be unique. **This guarantees that there are no duplicates in the dataset**; the elements stored in a cell (obs value, obs status, obs confidentiality) are unique.

4.2.6 Which sign convention?

ITS AND QUARTERLY BOP FIGURES

For the current and capital account items:

Credits and debits have to be recorded with a plus sign (even though some exceptions can occur).

The net is calculated as **credits – debits**.

For the financial account items:

Note: only the net is requested for financial account.

- the **net decrease in assets** or **net increase in liabilities** have to be sent with a **plus sign**
- the **net increase in assets** or **decrease in liabilities** have to be sent with a **minus sign**

The net is calculated as **net increase/decrease in assets + net increase/decrease in liabilities**

	Increase	Decrease
Assets	-	+
Liabilities	+	-

FDI FIGURES

In accordance with the BPM5, FDI data should cover the Special Purpose Entities (SPEs).

As regards the sign convention, the general rule stated above applies also to FDI flows and income (flows as part of the financial account and income as part of the current account).

The following paragraphs explain in detail:

Flows

Data concerned are collected in **BOP_FDI_A requests R1, R2, R5, R6 and R9 (questionnaires Y5_R5/6/9 and Y6_R1/R2)**. The flows follow the sign convention for the BOP items. The net decrease in external assets (disinvestment abroad) or net increase in external liabilities (investment in the reporting country) has to be sent with a plus sign. The net increase in external assets (investment abroad) or net decrease in external liabilities (disinvestment in the reporting country) has to be sent with a minus sign. According to the BPM5 guidelines, their sign follows the convention shown in the table:

	Post	Investment	Disinvestment
FDI abroad	505, 510, 525, 530	-	+
FDI inward	555, 560, 575, 580	+	-

Income

The data concerned are collected in **BOP_FDI_A requests R3, R4, R7, R8 and R9 (questionnaires Y5_R7/8/9, Y6_R3/4)**. FDI income has to be recorded both for the credits and debits side. The net is calculated as credits - debits.

1- Dividends (post 332): credits and debits have to be recorded with a plus sign.

2- Reinvested earnings (post 333) is a "balancing" item, therefore it is more frequent to observe negative values both on the credits or the debits sides. The credits side corresponds to the net RIE generated by the activity of foreign affiliates abroad. Because they are (by definition) reinvested abroad in the concerned affiliates, the credit side of post 333 is equivalent (with opposite sign) to the net RIE abroad recorded in the financial account part (333-credit= 525-net timed by "-1"). Similarly, the debits side summarises the net RIE generated by resident direct investment companies and correspond to the net RIE from abroad of the financial account part (333-debit = 575-net).

3- Interest (post 334): credits and debits have to be recorded with a plus sign (even though some exceptions can occur).

Stocks

Data concerned are collected in **BOP_POS_A requests R1, R2, R3, R4, R6, R7 (questionnaires Y7_R6/7, Y8-R1/2/3/4)**.

FDI positions are requested on a net basis, that is:

- For the three following posts 505, 506 and 530 (with $505=506+530$) on the assets side.
- For the three following posts 555, 556 and 580 (with $555=556+580$) on the liabilities side.

FDI positions data do not have to follow the BOP convention sign as the latter refers (by nature) only to transactions. Furthermore, the footnote of table 13.1 of the IMF Balance of Payment Textbook (p.143) specifies that, for the "Flows/Stocks Reconciliation exercise, a net increase (in assets or liabilities) in transactions is recorded with a "+" sign, a net decrease with a "-" sign (i.e. the BOP convention rule is not applied for the reconciliation exercise).

In FDI positions data files, most values should be positive. Negative ones could be observed in exceptional circumstances where:

Under the assets side:

- The total "Liabilities to affiliated enterprises" (posts 508, 540 recorded with a "-" sign) exceeds (in absolute value) the total amount of "Claims on affiliated enterprises" (posts 504, 535).

Under the liabilities side:

- The total "Claims on direct investors" (posts 557, 585 recorded with a "-" sign) exceeds (in absolute value) the total amount of "Liabilities to direct investors" (posts 558, 590).

As for the flows each of the net posts components should be obtained by making the sum of the claims and liabilities posts components (i.e. $505=503+504$, $506=507+508$, $530=535+540$, $555=553+554$, $556= 557+558$ and $580=585+590$).

Practical rule for ITS, FDI and financial account – sign convention

This sign convention obeys the famous golden rule "If you don't understand something, follow the money". In fact, a simple way to remember is to determine the direction of the cash flow:

- If a cash flow is directed towards the reporting economy, there is either an investment in the reporting economy or a disinvestment abroad the reporting economy; the movement is reported with a plus. Plus sign shows that money is coming into the country.
- If the cash flows are directed out the reported economy, there is either an investment abroad or a disinvestment in the reporting economy; the movement is reported with a minus. Minus sign shows that money is leaving the country.

4.2.7 **Which unit multiplier?**

Currency:

All data, apart from outward FATS data, have to be sent in **Millions of Euro** for **EMU Member States** and in **Millions of National currency** for **non-EMU countries**.

If a country wants to send a figure lower than 1 million, decimals may be used. In this case, the separator has to be a dot (.). (Example: if a country wants to report a value of 10 000 the figure 0.01 has to be sent.)

Outward FATS data on turnover, personnel costs, value added at factor cost, gross investment in tangible goods, exports of goods and services, imports of goods and services, intra-group exports of goods and services, intra-group imports of goods and services and total intra-mural R&D expenditure (requested in questionnaire Y11) have to be sent in **Thousands of Euro** for **EMU Member States** and in **Thousands of National currency** for **non-EMU countries**.

Number of persons employed:

Data on number of persons employed and total number of R&D personnel (requested in questionnaire Y11) have to be reported in number of persons.

Number of enterprises:

Data on number of enterprises (requested in questionnaire Y11) have to be reported in units.

4.2.8 **What about empty cells?**

If the value of the transaction is not known, all dimensions should be reported as empty for these cells. You should simply not send anything at all (no dimensions data) for these cells. If, for some extraordinary reasons, the dimensions of an unknown value are included in the data files, the value must be represented as the Missing value symbol ("-").

If the value of the transaction does not exist or is negligible, this should be reported as zero and not empty. If there are no transactions in a specific service or if the economic activity doesn't exist at all (e.g. Malta: no railway), this should not be considered as a missing value rather should be reported as zero.

Data providers should not report data with Reference Area = Counterpart Area. These cells should not exist, and therefore they should not be marked with any status or confidentiality flag.

4.2.9 **Resident or non-resident economic activity?**

For **FDI positions** and **flows**, it is recommended to classify:

- **FDI abroad** according to the activity of the **non-resident enterprise**, and
- **FDI in the reporting economy** according to the activity of the **resident enterprise**.

In all FDI datasets, the activity breakdown should be reported in dimension "resid_econ_activ ", while keeping only Total activity (X9999) in dimension "non_resid_econ_activ ".

The above recommendation is in line with the guidelines given for FATS in order to enable a linked analysis of FATS and FDI positions. It is also in line with the OECD Benchmark definition that “recommends, in both inward and outward direct investment statistics, that, where feasible, the direct investment enterprise be analysed both by its industrial activity in the host country and by the industrial activity of its direct investor”.

For Outward FATS, it is recommended to classify according to the activity of the non-resident enterprise.

	Resident economic activity	Non-resident economic activity
FDI Flows abroad	✓ [*]	✓
FDI Flows in the reporting economy	✓	
FDI positions abroad		✓
FDI positions in the reporting economy	✓	
FATS outwards		✓

^{*} **FDI outward flows** may be classified according to the economic activity of the resident enterprise (the direct investor) as proxy when the non-resident economic activity cannot be identified

4.2.10 How to deal with confidential data?

A) List of flags

Accepted flags are the following (code list CL_OBS_CONF):

Code	Description	Operational use and details
F	Free; (free for publication)	Default value (if OBS_CONF is not sent associated to an observation, then the value “F” would be assumed). Data cells flagged with F (or not flagged at all) are considered free for publication and may be released in Eurostat public database (Eurobase).
N	Not for publication, restricted for internal use only.	These observations, though not publishable, can be shared among institutions (for internal use) following the appropriate agreements. This flag should not be used with an observation which reveals data of individual respondents: in this latter case the observation should be flagged as “confidential statistical information” (see next row). No secondary confidentiality treatment is done for cells with N-flag.
C	Confidential statistical information	These observations are used by the receiver for compilation purposes within the statistics production area. An observation flagged as “confidential” could reveal data of individual respondents: in this case, the corresponding legal acts apply and sharing between institutions would not be possible, unless if foreseen by a legal act. Before the release of a data set which contains confidential cells, secondary confidentiality treatment must be done in order to eliminate indirect disclosure. ¹
S	Secondary confidentiality <i>set and managed by the receiver,</i> not for publication	This is used by Eurostat to flag observations that must be “suppressed” in a subsequent processing stage in order to appropriately protect and prevent observations flagged (by the sender) as “confidential statistical information” to be indirectly deduced. <INTERNAL EUROSTAT/ECB ATTRIBUTE>
D	Secondary confidentiality <i>set by the sender,</i> not for publication	This should be used by the sender (e.g. an NCB) to flag observations that should be “suppressed” in a subsequent processing stage (in receiver’s side) in order to prevent observations flagged as “confidential statistical information” to be indirectly deduced.

If your purpose is only to protect your data against publication (e.g. due to not sufficient quality), then you should use the N flag. The data flagged with the N flag are not released for publication, but the data are not subjected to the secondary confidentiality treatment. Secondary confidentiality treatment is applied only when data is flagged with C.

The S -flag has been created, only for internal use at Eurostat when treating secondary confidentiality. Countries can use code C (for primary confidentiality) or D (for secondary confidentiality) to flag their confidential data.

B) Transmission of non-publishable and confidential data

The transmission of confidential data is very important for the quality of EU aggregates. However, the processing of confidential data implies a number of important constraints and a good co-ordination between Member States and Eurostat is essential.

The data can be transmitted either via *eDAMIS Web Application* if it is available on your intranet, or *eDAMIS Web Portal* (<https://webgate.ec.europa.eu/edamis>).

¹ By using secondary confidentiality management techniques, e.g. by reducing the breakdowns, suppressing other components.

C) Error in the data file of a confidential transmission

If there is a problem in the heading of a file containing confidential data, we will inform the BOP compiler. The BOP compiler has 48 hours to correct the file and send it back to us or inform us how to solve the problem. The absence of answer will be considered as an authorisation to solve the problem in order to avoid blocking the process.

If the problem is situated at the data level only the BOP compiler is authorised to fix it.

D) Secondary confidentiality treatment

Secondary confidentiality treatment must be done when confidential data can be recalculated using other non-confidential data. In order to prevent recalculation of confidential data, the superseding aggregate or one of its sub-components should be suppressed. The secondary confidentiality functions used for all items are mainly based on the rules included in section 4.6., pp. 44-49. Interrelationships between the dimensions (partners, activities, flows or posts) should be considered. Confidential flags should be used conservatively as the quantity of data concerned with secondary confidentiality would increase.

4.2.11 Guidelines for "Current account, Services, Branding, Quasi-transit adjustment" (201)

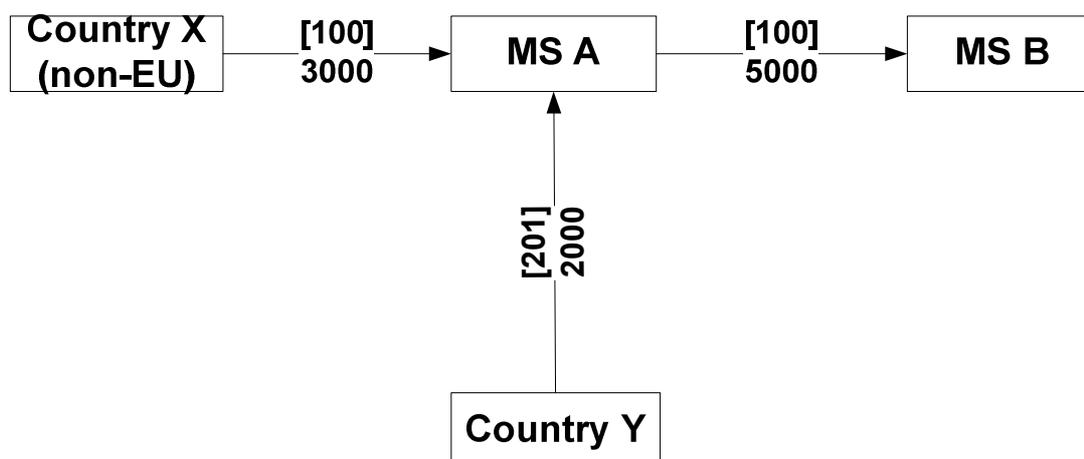

BoP item 201, Current account, Services, Branding, Quasi-transit adjustment shall be used by the Member States affected by the phenomenon of "Quasi-transit trade" to report the gap between the value declared when the goods are initially imported from a non-EU country and their value when dispatched to another EU Member State.

"**Quasi transit trade**" is a term used to define goods which enter the European Union in Member State A, are cleared for free circulation (and submitted to import duties) in Member State A, are then dispatched to the EU Member State B. In Member State A, a company with little or no staff employed (but with a VAT number) might be managing the Customs procedures related to these goods. In case Member State A treats this company as non-resident for National Account purposes, the transactions concerned would not be included in the goods compiled according to the national concept. However, they are included in the Community Concept followed in trade in goods and BoP. "Quasi-transit trade" should have no impact in net terms. In practice, however, the value of the goods re-exported can be much higher than the value of the goods which entered Member State A. This creates remarkable differences between the net value of trade in goods recorded in BoP and in RoW. To address this problem, TF-RoW recommended that the gap between imports and dispatches (excluding changes in price due to storage, tax and insurance) should be recorded in BoP as import of "Services", at least when reporting data to Eurostat and the ECB.

For practical reasons, (i.e. regardless of whether this is an intra-group transaction or transaction between independent parties), Eurostat and the ECB prefer the imputation to be made under "Branding", BoP item 201. The geographical breakdown should be compiled on the basis of the country of residence of the parent enterprise controlling the company that manages the customs procedure related to these goods in the reporting economy. Consultations with the counterpart countries (which should record a corresponding export of services) are encouraged in order to reduce intra EU asymmetries.

The following example clarifies the way the value of branding can be estimated and reported: The Member State "A" imports goods (BoP item 100) from Country "X" (non-EU) for value of 3000. These goods are cleared through customs and further dispatched to Member State "B" for value of 5000.

The company managing the customs procedures is controlled by a parent enterprise resident in Country "Y", which could be or could be not the EU Member State.

The following values should be recorded in Balance of Payments of Member State "A" in line with the Community concept:

Reporter MS "A"

Partner: A1 World (all entities)

	<i>2 Credits</i>	<i>3 Debits</i>	<i>4 Net</i>
Goods [100]	5000 (MS "B")	3000 (Country "X")	2000
Branding [201]	0	2000 (Country "Y")	-2000
Current account [993]	5000	5000	0

4.2.12 Guidelines for "Net External Debt" (980)

Net External Debt (NED) (item 980) is a subset of International Investment Position (IIP) data, which contrary to the IIP is expressed as liabilities minus assets.

It can be estimated in two ways (following BPM5 methodology). Only in case when all the subcomponents are available both methods produce the same result.

a) Summing-up the net IIP debt components directly

$$NED = ((580-530)+(669-619)+(753-703)-(810+808+806T+806U+813))$$

Net External Debt = ((Direct investment in the reporting economy, Other capital - Direct investment abroad, Other capital) + (Portfolio investment, Liabilities, Debt securities - Portfolio investment, Assets, Debt securities) + (Other investment, Liabilities-Other investment, Assets) -(Official reserves assets, IMF reserve positions + Official reserves assets, Foreign exchange, Foreign currency reserves, total currency and deposits + Official reserve assets, Foreign exchange, Securities, Bonds and notes + Official reserve assets, Foreign exchange, Securities, Money market instruments + Other reserve assets, Other claims (excluding financial derivatives)).

b) Excluding from the net IIP total the non-debt component (equity, financial derivatives and SDRs), after changing the sign.

$$NED = \text{minus } (995-(506-556)-(610-660)-910-(812+811+806S+814A))$$

Net External Debt = minus (Total financial account – (Direct investment, Abroad, Equity capital and reinvested earnings - Direct investment, In the reporting economy, Equity capital and reinvested earnings) – (Portfolio investment, Assets, Equities securities - Portfolio investment, Liabilities,

Equities securities) – Financial derivatives – (Official reserve assets, Monetary gold + Official reserve assets, SDRs + Official reserve assets, Foreign exchange, Securities, Equities + Official reserve assets, Foreign exchange, Financial derivatives)).

4.2.13 Guidelines for specific ITS items:

- **Merchanting item (270):**

This item has to be recorded on a net basis. It is considered that the value of this service is the profit or loss on the transaction, i.e. the difference between the purchase price and the resale price. The net value has to be placed on the credit and net sides and debit has to be provided as zero.

Geographical breakdown of net with the World should be calculated pro rata of gross credit and put in credit.

- **Services not allocated (982):**

This item was created due to the fact that some Member States are unable to allocate certain amounts to specific services. This results in a discrepancy between the sum of individual services and the total services item.

If a Member State encounters this problem, please record such residual item under 982 ‘Services not allocated’.

Only services whose origin cannot be determined should be included under this label.

- **Audio-visual and related services (288) and memorandum item audio-visual transactions (894)**

The memorandum item audio-visual transactions (894) differ from the item audio-visual and related services (288).

Audio-visual transactions (894) include Audio-visual and related services (288), parts of royalties and license fees (266); parts of acquisitions/disposals of non-produced nonfinancial assets (480, capital account).

MSITS2002 (§3.146) clarifies that "This memorandum item covers transactions in services, including services included in both *audio-visual services* and parts of *royalties and license fees*, **and in addition includes** the acquisition and disposal of non-produced, non-financial assets, such as patents, copyrights, trademarks and franchises. This memorandum item is a reorganization of a range of resident/non-resident transactions, including transactions that are outside the range of services covered in BPM5 and EBOPS, and its compilation and reporting is recommended for its analytical usefulness". See IMTS2002 §3.147-3.150 for more information.

The following overview clarifies which transactions should be recorded for this item:

Audiovisual services (894) corresponds to Audiovisual and related services (288) in CPC rev. 1.1 (including broadcasting)

- [9611](#) - Sound recording and audio post-production services
- [9612](#) - Motion picture, videotape, television and radio programme production services
- [9613](#) - Audiovisual production support services

- [9614](#) - Services related to the production of motion pictures and television and radio programmes
- [9615](#) - Motion picture and videotape projection services
- [9616](#) - Broadcasting (programming and scheduling) services?

Services of performing artists (96310) and services of authors (96320) **should not be included** as these do not represent audiovisual services (if the performance has been recorded then this recording is an audiovisual product).

Additionally, EBOPS (266) Royalties and license fees (the payments for the right to use various non-financial, intangible assets) would correspond to division 733 in CPC rev.1.1 and

- [7332](#) - Licensing services for the right to use entertainment, literary or acoustic originals (not only the part referring to movies, sound recordings, radio and television programmes).

Has to be included in audiovisual transactions, as suggested in MSITS 2002 the item

- [7322](#) - Leasing or rental services concerning videotape

The additional acquisition and disposal of non-produced, non-financial assets, (i.e. the sales of originals which should not cover all aspects as described in MSITS 2002 3.145 but only the part referring to copyrights). However, category 51 of CPC 1.0 was removed from CPC 1.1 as assets were not considered goods or services. Transactions in audiovisual assets **should be included**. MSITS 2002 did not include transactions in goods under audiovisual transactions.

Overview: Composition of 894 (audiovisual transactions) Correspondence EBOPS - CPC - CPA

EBOPS 2002	CPC 1.1	CPC 2.0	CPA 2008
288	96111 - Sound recording services	96111* - Sound recording services 96112* - Live recording services	59.20.11* - Sound recording services 59.20.12* - Live recording services

266	73220 - Leasing or rental services concerning videotape	73220 - Leasing or rental services concerning video tapes and disks	77.22.10 - Rental services of video tapes and disks
272	73129 - Leasing or rental services concerning other machinery and equipment without operator n.e.c.	73129 - Leasing or rental services concerning other machinery and equipment without operator n.e.c.	77.39.19 - Rental and leasing services of other machinery and equipment without operator and tangible goods n.e.c

***partial correspondence**

Comment concerning code 272:

The only code in CPA 2008 that corresponds to EBOPS 272 "Operational leasing" in the context of audiovisual services is 77.39.19 "Rental and leasing services of other machinery and equipment without operator and tangible goods n.e.c" which covers inter alia the rental, leasing or hiring services of motion picture production equipment.

4.2.14 Financial Intermediation Services Indirectly Measured (FISIM): Guidelines for compilation

Regulation n°448/98 and n°1889/2002 introduced in ESA95 methodology the principles for estimating and allocating FISIM. Consequently, compilers of National Accounts in the Member States are required to estimate the FISIM component of GDP starting from the data related to January 2005.

This brings ESA95 in line with the principles defined in SNA93, which states that “the actual payments or receipts of interest to or from financial intermediaries need to be adjusted to eliminate the margins that represent the implicit charges made by financial intermediaries. The amounts of interest paid by borrowers to financial intermediaries must be reduced by the estimated values of the charges payable, while the amounts of interest receivable by depositors must be similarly increased” (SNA93 paragraph 7.108).

Due to the above Regulations, in the new national accounts recording system, D.41 (Property income – Interest) must be adjusted for FISIM following SNA93 prescriptions: D.41 paid by the Member State to the Rest of the World (RoW) for deposits owned by non-residents must be increased with the implicit charge made for FISIM (FISIM export on deposits). D41 paid by the Member State to the RoW for loans obtained from the RoW must be reduced to take in account the implicit charge paid for FISIM (FISIM imports on loans). Similarly, the D.41 received must be adjusted. This adjustment has consequences for the values of output (and intermediate consumption), as well as for the values of imports and exports (and final consumption) (ref. ESA95, Annex I, page 258).

In the compilation of BOP, following BPM5 (paragraphs 258, 508, 509), these implicit services “are reported indistinguishably under investment income (interests)” (paragraph 258, footnote 7).

To overcome this conceptual discrepancy between BoP and RoW, the following items have been added in BoP quarterly questionnaire:

- 320INT and 370INT are interest according to BPM5, that is without the adjustment for FISIM;
- 320D41 is interest adjusted for FISIM, as defined in SNA93 (paragraph 7.108);
- 320FIS is the estimated value of imported and exported FISIM, as compiled according to the Commission Regulation N°1889/2002 (article 1) and n°448/98 (Annex III).

Keeping 320INT independent from the estimated value of FISIM export and imports ($320INT \neq 320D41 + 320FIS$) will allow full respect of BPM5; at the same time a correct estimation of imports and exports of FISIM and of interest adjusted for FISIM will be available, as required by compilers of sector accounts.

The equation $320INT = 320D41 + 320FIS$ will however hold on for the net flows.

This will ensure that the calculation of FISIM will not change the net lending/borrowing flows of an economy.

The following example should help countries in the compilation of FISIM

	4 types of transactions ²	Interest Flows	Stock	Interest rate applied
1	Interest received on Deposits hold abroad by residents	100	5000	2.0%
2	Interest paid on Deposits of non-residents	80	4000	2.0%
3	Interest received on Loans made to non-residents	200	2500	8.0%
4	Interest paid on Loans received from non-residents	300	3750	8.0%

Reference rate = 3%

	4 types of transactions	Interest according to reference rate ³	Difference= FISIM
1	Interest received on Deposits hold abroad by residents	150	-50
2	Interest paid on Deposits of non-residents	120	-40
3	Interest received on Loans made to non-residents	75	125
4	Interest paid on Loans received from non-residents	112.5	187.5

How to estimate the related BoP items:

	CREDIT	DEBIT	NET
320INT= interest BPM5 (not adjusted for FISIM)	same as Bop BPM5=334+349+370INT		
1	100		
2		80	
3	200		
4		300	
	300	380	-80
320D41 =Interest SNA93 (adjusted for FISIM)	estimated according to FISIM regulation		
1	150		
2		120	
3	75		
4		112.5	
	225	232.5	-7.5
320FIS	estimated according to FISIM regulation		
1		50	
2	40		
3	125		
4		187.5	
	165	237.5	-72.5

² Transactions type 1 and type 4 relate to import of FISIM and transactions type 2 and type 3 relate to export of FISIM.

³ Interest=Stock*Reference rate.

4.2.15 Guidelines for Outward FATS trade items

For the definitions of "exports" and "imports" of foreign affiliates, please consult the FATS Recommendations Manual. According to the FATS Regulation 4 trade characteristics are to be compiled on a voluntary basis, being also subject to pilot studies::

FATS coded item	Description
EXP	Exports of goods and services
IMP	Imports of goods and services
EXPI	Intra-group exports of goods and services
IMPI	Intra-group imports of goods and services

In case a Member State is not able to provide entirely a requested trade characteristic or collect more detailed information on foreign trade than is requested in the FATS-R, please use for data transmission one of the following codes for exports and imports that would most precise describe the compiled value:

FATS coded item	Description
EXPG	Exports of goods
EXPS	Exports of services
IMPG	Imports of goods
IMPS	Imports of services
EXPIG	Intra-group exports of goods
EXPIS	Intra-group exports of services
IMPIG	Intra-group imports of goods
IMPIS	Intra-group imports of services

EXAMPLE: If Member state instead of compiling *Exports of goods and services* for the time being ascertains only Exports of goods, the code EXPG should be chosen instead of EXP.

4.3 EUROSTAT KEY FAMILIES

4.3.1 Eurostat Balance of Payments' key family

The **key family** used by Eurostat BOP is named **Eurostat_BOP_01**. A key family is uniquely identified by a key family identifier (Eurostat_BOP_01) and has a **key structure** and a set of **attributes** (mandatory or conditional). The coded statistical concepts forming the key structure are called **dimensions**. To each statistical concept or dimensions is associated one code list.

In the Eurostat BOP key family the following dimensions or attributes are requested:

<u>Dimension name</u>	<u>Dimension definition</u>	<u>Associated Code list mnemonic</u>
Frequency	Frequency of the value (e.g. A, Q, M, D)	CL_FREQ
Reference area or Reporter	The country or geographical/political group of countries that the measured economic phenomenon relates to.	CL_AREA_EE
Adjustment indicator	Indicates whether a seasonal adjustment and/or a working day adjustment have been applied.	CL_ADJUSTMENT
Data type: flow, stocks and adjustment	Describes the data type, e.g. stock, flow, for balance of payments statistics	CL_DATA_TYPE_BOP
BOP coded item	Coded item from breakdown of the BOP	CL_BOP_ITEM
Currency breakdown	It refers to the currency breakdown for transactions and positions	CL_CURR_BRKDWN
Counterpart or Partner area	The country, or geographical/economic group of countries with which the reference area or reporter (REF_AREA) area had the transaction.	CL_AREA_EE
Denomination of series or special calculation	Currency of denomination (common currency e.g. Euro or ECU or USD or national currency etc.) or special calculation	CL_SERIES_DENOM
Resident economic activity	Resident economic activity	CL_BOP_EC_ACTIV_R1
Non-resident economic activity	Non-resident economic activity	CL_BOP_EC_ACTIV_R1

<u>Attribute name</u>	<u>Attribute definition</u>	<u>Associated Code list Mnemonic</u>
Observation status (mandatory)	Information on quality of value or an unusual or missing value.	CL_OBS_STATUS
Observation confidentiality (conditional)	Information on whether the observation can be made known outside the receiving institution or not	CL_OBS_CONF

In the BOP key family the field 'message administration' has to be filled in to determine the organisation that sends and the organisation that receives the message.

<u>Name</u>	<u>Definition</u>	<u>Associated Code list Mnemonic</u>
Sender organisation	Entity that sends data or information	CL_ORGANISATION
Recipient organisation	Entity that receives data or information	CL_ORGANISATION

DATA STRUCTURE DEFINITION

EUROSTAT 'BALANCE OF PAYMENTS' KEY FAMILY

KEY FAMILY MNEMONIC: **EUROSTAT_BOP_01**

Organisation of statistical concepts involved

Position in key:	Attachment level and Usage Status	Concept (mnemonic)	Concept name	Value format	Code list (mnemonic)	Code list name	
DIMENSIONS							
1		FREQ	Frequency	AN1	CL_FREQ	Frequency code list	
2		REF_AREA	Reference area	AN2	CL_AREA_EE	Area code list	
3		ADJUSTMENT	Adjustment indicator	AN1	CL_ADJUSTMENT	Adjustment indicator code list	
4		DATA_TYPE_BOP	Data type	AN1	CL_DATA_TYPE_BOP	BOP type of data, flow & position code list	
5		BOP_ITEM	BoP coded item	AN..8	CL_BOP_ITEM	BOP item code list	
6		CURR_BRKDOWN	Currency breakdown	AN1	CL_CURR_BRKDOWN	Currency breakdown for transactions and positions code list	
7		COUNT_AREA	Counterpart area	AN2	CL_AREA_EE	Area code list	
8		SERIES_DENOM	Denomination of the series or special calculation	AN1	CL_SERIES_DENOM	Denom. of series or special calc. code list	
9		RESID_ECON_ACTIV	Resident Economic Activity	N4	CL_BOP_EC_ACTIV_R1	BOP aggregation – Economic activity sector (EUROSTAT-BOP)	
10		NON_RESID_ECON_ACTIV	Non-resident economic activity	N4	CL_BOP_EC_ACTIV_R1	BOP aggregation – Economic activity sector (EUROSTAT-BOP)	
<i>Time reference and observation</i>							
11		TIME_PERIOD	Time period or range	AN..35	-		
12		TIME_FORMAT	Time format code	AN3	-		
13		OBS_VALUE	Observation value	AN..15	-		
OBSERVATION ATTACHED ATTRIBUTES (in the main ARR segment)							
	Assignment level	C, M					
14	Observation	M	OBS_STATUS	Observation status	AN1	CL_OBS_STATUS	Observation status code list
15	Observation	C	OBS_CONF	Observation confidentiality	AN1	CL_OBS_CONF	Observation confidentiality code list
16	Observation	C	OBS_PRE_BREAK	Pre-break observation value	AN..15	-	not processed by BOP EUROSTAT
OTHER ATTRIBUTES not processed by EUROSTAT							
	Sibling	C	TITLE	Title	AN..70	<i>uncoded</i>	not processed by BOP EUROSTAT
	Sibling	C	UNIT	Unit	AN..12	CL_UNIT	not processed by BOP EUROSTAT
	Sibling	C	UNIT_MULT	unit multiplier	AN..2	CL_UNIT_MULT	not processed by BOP EUROSTAT
	Sibling	C	DECIMALS	Decimals	N1	CL_DECIMALS	not processed by BOP EUROSTAT
	Time series	C	COLLECTION	collection indicator	AN1	CL_COLLECTION	not processed by BOP EUROSTAT
	Time series	C	AVAILABILITY	Availability	AN1	CL_AVAILABILITY	not processed by BOP EUROSTAT
	Time series	C	BOP_BASIS	Basis of data collection for BOP related statistics	AN1	CL_BOP_BASIS	not processed by BOP EUROSTAT
	Sibling	C	TITLE_COMPL	title complement	AN..350	<i>uncoded</i>	not processed by BOP EUROSTAT
	Sibling	C	COMPILOTION	Compilation	AN..350	<i>uncoded</i>	not processed by BOP EUROSTAT
	Time series	C	BREAKS	Breaks	AN..350	<i>uncoded</i>	not processed by BOP EUROSTAT
	Sibling	C	AGG_EQUN	aggregation equations	AN..350	<i>uncoded</i>	not processed by BOP EUROSTAT
	Observation	C	OBS_COM	observation comment	AN..350	<i>uncoded</i>	not processed by BOP EUROSTAT
Message administration:			ORGANISATION	Organisation	AN3	CL_ORGANISATION	Organisation code list

Formats: AN= alphanumeric (e.g. AN..70=alphanumeric up to 70 positions, AN1=alphanumeric - one character exact), N=numeric (e.g. N1=numeric, one character exact).

M: Mandatory attribute (it has in all cases a value).

C: Conditional attribute (not always a value, it is provided if available).

Only the observation coded attributes (attached next to each observation) are always present in all messages carrying numeric data.

All other attributes are not exchanged with every message. As long as their values are known to the partners, they don't need to be exchanged again (unless, of course, if their values are modified).

4.3.2 Eurostat FATS' key family

The **key family** used by Eurostat Outward FATS is named **Eurostat_FATS_01**. In the Eurostat FATS key family the following dimensions or attributes are requested:

<u>Dimension name</u>	<u>Dimension definition</u>	<u>Associated Code list mnemonic</u>
Frequency	Frequency of the value (e.g. A, Q, M, D)	CL_FREQ
Reference area or Reporter	The country or geographical/political group of countries that the measured economic phenomenon relates to.	CL_AREA_EE
Adjustment indicator	Indicates whether a seasonal adjustment and/or a working day adjustment have been applied.	CL_ADJUSTMENT
Data type	For Outward FATS, use always 'N'.	CL_DATA_TYPE_FATS
FATS coded item	Coded item for Outward FATS characteristics	CL_FATS_ITEM
Currency breakdown	It refers to the currency breakdown for transactions and positions	CL_CURR_BRKDWN
Counterpart or Partner area	The country, or geographical/economic group of countries with which the reference area or reporter (REF_AREA) area had the transaction.	CL_AREA_EE
Denomination of series or special calculation	Currency of denomination (common currency e.g. Euro or ECU or USD or national currency etc.) or special calculation	CL_SERIES_DENOM
Resident economic activity	Resident economic activity	CL_BOP_EC_ACTIV_R1
Non-resident economic activity	Non-resident economic activity	CL_BOP_EC_ACTIV_R1

<u>Attribute name</u>	<u>Attribute definition</u>	<u>Associated Code list Mnemonic</u>
Observation status (mandatory)	Information on quality of value or an unusual or missing value.	CL_OBS_STATUS
Observation confidentiality (conditional)	Information on whether the observation can be made known outside the receiving institution or not	CL_OBS_CONF

In the FATS key family the field 'message administration' has to be filled in to determine the organisation that sends and the organisation that receives the message.

<u>Name</u>	<u>Definition</u>	<u>Associated Code list Mnemonic</u>
Sender organisation	Entity that sends data or information	CL_ORGANISATION
Recipient organisation	Entity that receives data or information	CL_ORGANISATION

DATA STRUCTURE DEFINITION

EUROSTAT 'FOREIGN AFFILIATES STATISTICS' KEY FAMILY

KEY FAMILY MNEMONIC: **EUROSTAT_FATS_01**

Organisation of statistical concepts involved

Position in key:	Attachement level and usage status	Concept (mnemonic)	Concept name	Value format	Code list (mnemonic)	Code list name	
DIMENSIONS							
1		FREQ	Frequency	AN1	CL_FREQ	Frequency code list (BIS, EMI)	
2		REF_AREA	Reference area	AN2	CL_AREA_EE	Area code list (EUROSTAT-BoP, EMI)	
3		ADJUSTMENT	Adjustment indicator	AN1	CL_ADJUSTMENT		
4		DATA_TYPE_FATS	Data type	AN1	CL_DATA_TYPE_FATS	FATS type of data, flow & position	
5		BOP_FATS	FATS coded item	AN..8	CL_FATS_ITEM	FATS item code list (Eurostat-BoP, EMI, BIS)	
6		CURR_BRKDOWN	Currency breakdown	AN1	CL_CURR_BRKDOWN	Currency breakdown for transactions and positions code	
7		COUNT_AREA	Counterpart area	AN2	CL_AREA_EE	Area code list (EUROSTAT-BoP, EMI)	
8		SERIES_DENOM	Currency of denomination of the series (common/national)	AN1	CL_SERIES_DENOM	Currency of denom. of the series (national/common) (EMI)	
9		RESID_ECON_ACTIV	Resident Economic Activity	N4	CL_BOP_EC_ACTIV_R1	BoP aggregation – Economic activity sector (EUROSTAT-BoP)	
10		NON_RESID_ECON_ACTIV	Non-resident economic activity	N4	CL_BOP_EC_ACTIV_R1	BoP aggregation – Economic activity sector (EUROSTAT-BoP)

☛ **Please, before any delivery to Eurostat, make sure (at least) that:**

1. The DSI segment is correct
2. There is no space within (and between) the rows.

MESSAGE OVERVIEW

The segments below present a simple data update GESMES/TS message. The variable data elements that each segment contains are represented italics. An explanation of each variable data element is then given. **Please note that DTM+242 segment gives the dataset preparation date. DTM+Z02 segment gives the reporting period and it is a mandatory segment.**

Syntax character Specification

1 UNA:+.? '

Interchange Header

2 UNB+UNOC:3+*LUI*+*4DO*+*021128:1007*+*IREF000001*++GESMES/TS'

UNB+UNOC:3+*Sender_id*+*recipient_id*+*date:time of preparation*+
Interchange_reference++GESMES/TS'

The '*Sender_id*' and '*recipient_id*' code values are extracted from the CL_ORGANISATION code list.

Message Header

3 UNH+*MREF000001*+GESMES:2:1:E6'

UNH+*message_reference*+GESMES:2:1:E6'

Beginning of Message

4 BGM+74'

Code list administration agency

5 NAD+Z02+*ECB*'

NAD+Z02+*maintenance_agency_id*'

Reference to the message receiver

6 NAD+MR+*4DO*'

NAD+MR+*receiver_id*'

The '*receiver_id*' code value is extracted from the CL_ORGANISATION code list and it is the same as in the UNB segment.

Reference to the message sender

7 NAD+MS+*LUI*'

NAD+MS+*sender_id*'

The '*sender_id*' code value is extracted from the CL_ORGANISATION code list and it is the same as in the UNB segment.

Message Identity

8 IDE+10+*This describes the reported dataset*'

IDE+10+*message_identity*'

'Message_identity' is free text up to 35 chars long and is provided by the message sender. This segment is not mandatory.

Contact information

9 CTA+*CP*+*BOP: Hans Mustermann*'

CTA+*contact_function*+*contact_id:contact_name*'

'Contact_function' identifies the function of the person and can take the following values:

CC: Responsible person for information production,

CP: Responsible person for computer data processing,

CF: Head of unit for information production,

CE: Head of unit for computer data processing.

'*Contact_id*' and '*Contact_name*' are the department id and the name of the person respectively. This segment is mandatory. The format of '*Contact_id*' is AN..17 and the format of '*Contact_name*' is AN..35.

Communication number and type of channel

10 COM+*hans.mustermann@stat.LU:EM*
COM+*communication_number:communication_channel*
'*Communication_channel*' can take the following values

EM: e-mail,
TE: Telephone,
FX: Fax,
XF: X.400.

Communication_number has the format AN..25.

Data set identification

11 DSI+*BOP_EUR_Q*
DSI+*data_set_identifier*
'*Data_set_identifier*' is provided by the centre. It is variable because it depends in the type of data transmitted. Please refer to the table 'Data Set Identifier' on page 20 of this document.

Status report

12 STS+3+7
STS+3+*status_code*
'*Status_code*' can take the following values:

7: update or replace data
6: delete

Data set extraction date/time

13 DTM+242:200211281000:203'
DTM+242:*date_time*:203'
The format of the '*date_time*' data element, as defined by the '203' qualifier, is CCYYMMDDhhmm.

Reporting period

14 DTM+Z02:20023:608'
DTM+Z02:*period or period_range:format_qualifier*
The format of the '*period_range*' data element is defined by the '*format_qualifier*' and can take the following values:

102 - for CCYYMMDD,
602 - for CCYY,
604 - for CCYYs,
608 - for CCYYQ,
610 - for CCYYMM,
616 - for CCYYWW for period and
711 - for CCYYMMDDCCYYMMDD,
702 - for CCYYCCYY,
704 - for CCYYSCCYYS
708 - for CCYYQCCYYQ
710 - for CCYYMMCCYYMM
716 - for CCYYWWCCYYWW for ranges.

Key family/dataset structure identity

15 IDE+5+*EUROSTAT_BOP_01*'
IDE+5+*kf_identity*'
The '*kf_identity*' is '*EUROSTAT_BOP_01*'.

4.5 CODE LISTS OF STATISTICAL CONCEPTS AND ATTRIBUTES

IMPORTANT NOTE:

**Only the codes shown in the following lists can be sent.
All changes since the previous version have been highlighted.**

4.5.1 Frequency

- **Definition:** the frequency of the series
- **Name of the code list:** CL_FREQ
- **Maintenance agency:** EUROSTAT/ECB/IMF
- **Format:** AN1

AN1	Frequency code list (BIS, ECB)
A	Annual
B	Business (not supported)
D	Daily
E	Event (not supported)
H	Half-yearly
M	Monthly
N	Hourly
Q	Quarterly
W	Weekly

4.5.2 Reference area or reporter

Definition: the country or geographical/political group of countries related to a measured economic phenomenon. This entity is also called ‘reporter’. Country codes are generated from ISO 3166-1 (http://www.iso.org/iso/iso-3166-1_decoding_table)

Name of the code list: CL_AREA_EE

Maintenance agency: EUROSTAT/ECB/IMF

Format: AN2

Abbreviations used for type: COU Country, ECO economic zone, GEO geographical zone, ORG International organisation.

Please, refer to the **requests** for codes to be sent.

See Annex I: Area Code list

4.5.3 Adjustment indicator

- **Definition:** Indicates whether a seasonal adjustment and/or a working day adjustment has been applied or not.
- **Name of the code list:** CL_ADJUSTMENT
- **Maintenance agency:** EUROSTAT/ECB/IMF
- **Format:** AN1

AN1	Adjustment indicator code list (BIS, ECB)
C	Trend-cycle data, working day adjusted, not seasonally adjusted
N	Neither seasonally nor working day adjusted
S	Seasonally adjusted, not working day adjusted
T	Trend
W	Working day adjusted, not seasonally adjusted
X	Seasonal factors
Y	Working day and seasonally adjusted
Z	Combined seasonal and calendar factors

4.5.4 Data types

4.5.4.a BoP data type

- **Definition:** describes the data type, e.g. stock, flow, for balance of payments statistics.
- **Name of the code list:** CL_DATA_TYPE_BOP
- **Maintenance agency:** EUROSTAT/ECB/IMF
- **Format:** AN1

AN1	BoP type of data, flow & position (Eurostat-BOP, ECB)
1	Outstanding amounts at the beginning of the period (stocks)
2	Credit transactions
3	Debit transactions
4	Net transactions
5	Price valuation adjustment
6	Exchange rate valuation adjustment
7	Other adjustments
8	Outstanding amounts at the end of the period (stocks)
9	Total adjustments
T	Net transactions (international investment position sign convention), (used at the ECB)

4.5.4.b FATS data type

- **Definition:** describes data type, recommended to use 'N'
- **Name of the code list:** CL_DATA_TYPE_FATS
- **Maintenance agency:** EUROSTAT
- **Format:** AN1

AN1	FATS type of data
N	Not applicable
8	Not applicable (deprecated code)

4.5.5 BoP and FATS coded item

4.5.5.a BOP coded item

- **Definition:** Coded item from breakdown of the BoP.
- **Name of the code list:** CL_BOP_ITEM
- **Maintenance agency:** EUROSTAT/ECB/IMF
- **Format:** AN8
- **Abbreviations used for type:** STD standard component, MEM memorandum item, SUP supplementary information, XOE Eurostat/OECD or Eurostat item, ECB item, IIP International Investment Position.

Please, refer to the requests for codes to be sent.

See Annex III: Bop Item Code list

4.5.5.b FATS coded item

- **Definition:** Coded item for Outward FATS characteristics.
- **Name of the code list:** CL_FATS_ITEM
- **Maintenance agency:** EUROSTAT
- **Format:** AN8

Please, refer to the requests for codes to be sent.

See Annex V: FATS Item Code list

4.5.6 Currency Breakdown

- **Definition:** It refers to currency breakdown for transactions and positions.
- **Name of the code list:** CL_CURR_BRKDOWN
- **Maintenance agency:** EUROSTAT/ECB/IMF
- **Format:** AN1

AN1	Currency breakdown (ECB)
N	All currencies
E	Euro
U	US Dollar
P	British Pound
Y	Japanese Yen
F	Swiss Franc
O	All currencies except Euro
X	All currencies except Euro and US Dollar
W	All currencies except Euro, US Dollar, British Pound, Japanese Yen, and Swiss Franc

4.5.7 Counterpart area

- **Definition:** The country or geographical/economical group of countries within which the reference area or reporter (ref_area) had the transaction.
- **Name of the code list:** CL_AREA_EE
- **Maintenance agency:** EUROSTAT/ECB/IMF
- **Format:** AN2

Code List see 2) Reference area or reporter: CL_AREA_EE (Annex I)

4.5.8. Denomination of series

- **Definition:** Currency of denomination (common currency e.g. Euro or ECU or USD or national currency etc.) or special calculation.
- **Name of the code list:** CL_SERIES_DENOM
- **Maintenance agency:** EUROSTAT/ECB/IMF
- **Format:** AN1

AN1	Denomination of series or special calc. code list (ECB)
A	Annual growth rate
E	Euro*
F	Percentage
G	Fine troy ounces
I	Interest rate
J	Japanese Yen
N	National currency**
P	Growth rate to previous period
Q	Quantity
S	Special Drawing Rights (SDR)
U	US dollar
V	3-month moving average
X	ECU (=special Eurostat-BoP requirement)
3	3 month annualised growth rate
6	6 month annualised growth rate

* For members of Euro zone, and for data related to periods before the introduction of the Euro, data should be transmitted to Eurostat/ECB either in old national currency ("N") or, if converted to Euro "E", fixed conversion rate should be used (see ECB Booklet "The Exchange of Balance of Payments, International Investment Position and Reserve Assets Statistics within the ESCB", chapter 4.1.a (Unit)).

** Countries which are not members of Euro zone should send data in national currency.

4.5.9 Resident economic activity

- **Definition:** resident economic activity
- **Name of the code list:** CL_BOP_EC_ACTIV_R1
- **Maintenance agency:** EUROSTAT/ECB
- **Format:** N4

Please, refer to the requests for codes to be sent.

See 6.2 "Level of activity breakdown".

4.5.10 Non resident economic activity

- **Definition:** Non-resident economic activity
- **Name of the code list:** CL_BOP_EC_ACTIV_R1
- **Maintenance agency:** EUROSTAT/ECB
- **Format:** N4

Code List see 9) Resident economic activity: CL_BOP_EC_ACTIV_R1

4.5.11 Observation status (mandatory)

- **Definition:** Information on quality of value or an unusual or missing value.
- **Name of the code list:** CL_OBS_STATUS
- **Maintenance agency:** EUROSTAT/ECB/IMF
- **Format:** AN1

AN1	Observation status code list (BIS, ECB, Eurostat-BOP)
A	Normal value
B	Break
E	Estimated value
F	Forecast value
H	Missing value; holiday or weekend
L	Missing value; data exist but were not collected
M	Missing value; data cannot exist
P	Provisional value
S	Strike
Q	Missing value; suppressed

4.5.12 Observation confidentiality (conditional)

- **Definition:** Information about whether the observation can be made public outside the receiving institution or not.
- **Name of the code list:** CL_OBS_CONF
- **Maintenance agency:** EUROSTAT/ECB/IMF
- **Format:** AN1

AN1	Observation confidentiality code list (Eurostat-BOP, ECB)
C	Confidential statistical information
F	Free (free for publication)
N	Not for publication, restricted for internal use only
D	Secondary confidentiality set by the sender, not for publication
S	Secondary confidentiality set and managed by the receiver, not for publication

4.5.13 Sender organisation

- **Definition:** Entity that sends the data
- **Name of the code list:** CL_ORGANISATION
- **Maintenance agency:** EUROSTAT/ECB/IMF
- **Format:** AN3

List: see Annex VI: Sender organisations' list

4.5.14 Recipient

- **Definition:** Entity that receives the data
- **Name of the code list:** CL_ORGANISATION
- **Maintenance agency:** EUROSTAT/ECB/IMF
- **Format:** AN3

Code list see 13) CL_ORGANISATION

4.6 INTEGRITY RULES FOR DATA TRANSMISSION

1) BOP item : CL BOP ITEM

Aggregates should match the sum of the sub-items (except in case of confidentiality problems). Please, refer to Annex IV for a complete dictionary of integrity rules for BoP items.

The following integrity rules apply for Quarterly BoP requests:

Code	Integrity rule
993	= 100 + 200 + 300 + 379
200	= 201 + 205 + 236 + 245 + 249 + 253 + 260 + 262 + 266 + 268 + 287 + 291 + 982
981	= 245 + 249 + 253 + 260 + 262 + 266 + 268 + 287 + 291
300	= 310 + 320
320	= 330 + 339 + 370
379	= 380 + 390
320	= 320INT + 320D4N
320INT	= 320D41 + 320FIS
320INT	= 334 + 349 + 370INT
330	= 331 + 334
331	= 332 + 333
333 (2)	= - 525 (4)
333 (3)	= 575 (4)
339	= 340 + 349
370	= 370INT + 370D44 + 370D4N
390	= 391 + 392
994	= 400 + 480
400	= 400D91 + 400D9N
Integrity rules only for flow 4 (net)	
995	= 500 + 600 + 700 + 802 + 910
500	= 505 + 555
505	= 510 + 525 + 530
555	= 560 + 575 + 580
600	= 602 + 652
700	= 703 + 753
998	= - 993 - 994 - 995

2) FATS coded item : CL FATS ITEM

Aggregates should match the sum of the sub-items (except in case of confidentiality problems).

For Outward FATS trade characteristics, the following integrity rules apply:

FATS coded item	Integrity rule
EXP	= EXPG + EXPS
IMP	= IMPG + IMPS
EXPI	= EXPIG + EXPIS
IMPI	= IMPIG + IMPIS
EXPI	≤ EXP
IMPI	≤ IMP

3) Counterpart or partner area : CL-AREA EE

Minimal check requirements: the sum of the components must be equal to the aggregate (except in case of confidentiality problems) and consistency between geographical zone and economic zone (see Annex VII).

The following rules are based on the set of countries and zones requested at the geographical breakdown level 3 (see 6.1 "Levels of geographical breakdown" for the definitions of the different levels). For FDI flows, FDI stocks and Outward FATS characteristic "Value added at factor costs", only equalities have to be checked.

Code	Integrity rule

4) Integrity rules for FDI positions

Minimal check requirements: the sum of the components must be equal to the aggregate (except in case of confidentiality problems)

Data on stocks are collected through BOP_POS_A requests R1, R2, R3, R4, R6, R7 (questionnaires Y7_R6, Y7_R7 and Y8_R1 to Y8_R4). When broken down by type of instrument FDI positions data follow the same integrity rules as those defined for FDI flows:

<u>Assets (FDI abroad)</u>	
505 =	503 + 504
506 =	507 + 508
530 =	535 + 540
<u>Liabilities (FDI in the reporting country)</u>	
555 =	553 + 554
556 =	557 + 558
580 =	585 + 590

Eurostat FDI positions (official) requests are restricted to the left hand side of the table, showing the net "claims + liabilities" by type of instrument. Therefore, Eurostat can check the consistency of FDI positions data **only** through the following two equations:

$$505 = 506 + 530 \text{ and } 555 = 556 + 580$$

5) Resident economic activity and non resident economic activity: CL BOP EC ACTIV R1

Aggregates should match the sum of the sub-components (except in case of confidentiality problems). For FDI flows, FDI stocks and Outward FATS characteristic "Value added at factor costs", only equalities have to be checked.

Integrity rules for Level 2 of the activity breakdown according to NACE Rev. 2 (from reference year 2010 onwards)

Code	Integrity rule
C1895	= C1405 + C1805
C1995**	= C1900 + C2000 + C2100 + C2200
C2805	= C2505 + C2600 + C2800

X9595**	=	G4795 + H5395 + I5695 + J6395 + K6695 + L6800 + M7595 + N8295 + P8500 + Q8895 + R9395 + S9695
X9997*	=	A0395 + B0995 + C3395 + D3500 + E3995 + F4395 + X9995 + X9996
X9999*	=	X9997 + X 9998
X9994**	=	B0995 + C3395 + D3500 + E3995 + F4395 + X9595 + X9996

* Integrity rule only for FDI.

** Integrity rule only for FATS.

5. DATA REQUESTS

5.1. DATA FLOWS

I. DATA FLOW: BOP_EUR_Q (subset of BOP_Q)

This data flow covers the questionnaire Euro-indicators

The deadline is T + 2 months

There is only one request: R1

Concept name	Concept mnemonic	Contents
Frequency	Freq	Q
Reference area	Ref_area	XX (ISO code of the reporting economy)
Adjustment indicator	Adjustment	N
Data type	data_type_bop	2,3,4
Bop coded item	bop_item	100, 200, 310, 330, 339(*), 370, 379
Currency breakdown	curr_brkdwn	N
Counterpart area	count_area	A1(**), V4
Currency	series_denom	E if EMU MS (In millions of currency units) N if non EMU MS (In millions of currency units)
Resident economic activity	Resid_econ_activ	9999
Non resident economic activity	non_resid_econ_activ	9999
Time period or range	time_period	CCYYQ for a single time period or CCYYQCCYYQ for a time series
Time format	time_format	608 for a single time period or 708 for a time series
Observation value	obs_value	

(*)339 credit (flow 2) is required with partner V4, 339 net (flow 4) is required with partner A1. 339 debit (flow 3) is not required.

(**) Partner A1 is required only for the post 339, flow 4.

II. DATA FLOW: BOP_Q_Q

This data flow covers the quarterly questionnaire Q1.

The deadline is T + 90 days

There are 5 requests: R1, R2, R3, R4 and R5

The same requests R1, R2, R3, R4, R5 are to be used for data flow BOP_QN_Q.

The following bullet points summarize the most important information from Chapter 2 "Changes from the previous version":

- 1. The new EA-18 aggregates are required as from reference quarter 2014/Q1.**
- 2. In order to allow for a minimal time series analysis, Eurostat requires **back-data with partner Latvia for reference quarters from 2008/Q1 until 2013/Q4**.**
- 3. For each reference period the **required compositions of EU and Euro Area aggregates**, are presented in the table on page 6.**
- 4. Option: Member States may also **send full bilateral data instead of EU and EA aggregates**.**
- 5. Special request for back-data with partner **Latvia** for period 1999/Q1-2007/Q4, described on page 54, is requested by 30 June 2014.**
The **priority QSA** posts are: 332, 333, 334, 340 and 349. They need to be consistent with the other BoP items in the Eurostat database.

Data flow BOP_Q_Q Request R1

Concept name	Concept mnemonic	Contents
Frequency	Freq	Q
Reference area	Ref_area	XX (ISO code of the reporting economy)
Adjustment indicator	Adjustment	N
Data type	data_type_bop	2,3,4
Bop coded item	bop_item	100, 200, 201, 205, 236, 981, 982, 245, 249, 253, 260, 262, 266, 268, 287, 291, 310, 330, 339 (*),370, 379, 994
Currency breakdown	curr_brkdwn	N
Counterpart area	count_area	A1,CH,CA,US,JP,4A,C4,Z8,7Z,CN,BR,HK,RU,IN,Intra/Extra EU and Euro Area aggregates according to the current compositions, DK**, SE**, GB**,S7**,Q6**,BE,BG,CZ,DE,EE,IE,GR,ES,FR,IT,CY,LV,LT, LU,HU,MT,NL,AT,PL,PT,RO,SI,SK,FI,HR
Currency	series_denom	E if EMU MS (In millions of currency units) N if non EMU MS (In millions of currency units)
Resident economic activity	resid_econ_activ	9999
Non resident economic activity	non_resid_econ_activ	9999
Time period or range	time_period	CCYYQ for a single time period or CCYYQCCYYQ for a time series
Time format	time_format	608 for a single time period or 708 for a time series
Observation value	obs_value	

(*) For the flows 3 (debit) and 4 (net), only the partner A1 is required Flow 3 (debit) is not required by the BoP Regulation.

(**) The definition of Level 1 geographical breakdown for Quarterly BoP data requests now includes DK, GB, SE and S7/Q6 in order to comply with the ECB request for data on services. The new definition of Level 1 applies not only to services items, but to all QBoP posts, where Level 1 of geographical breakdown is required.

Special request for back data:

- **Period:** 1999/Q1 till 2007/Q4

- **Posts:** 993,100, 200, 300, 310, 320, 330, 339, 370, 379, 994
and the priority QSA posts: 332, 333, 334, 340 and 349.

- **Partner:** LV

Please make sure that the posts and partners are **consistent** with the existing **BoP information in the Eurostat database.**

III. DATA FLOW: BOP_ITS_A

This data flow corresponds to the yearly questionnaires Y1

The deadline is T + 9 months (only revisions for t+21 or t+33 months are requested)

There are 3 requests: R1, R2 and R3.

The same requests R1, R2, R3 are to be used for data flow BOP_ITSN_A.

V. DATA FLOW: BOP_POS_A

A) Geographical breakdown: Corresponds to the Questionnaire Y8

Revised data for requests: **R1 and R2** and initial data for requests **R3 and R4** are expected at **t+21 months and t+33 months**.

The same requests **R1, R2, R3, R4** are to be used for data flow BOP_POSN_N.

Data flow BOP_POS_A Request R1 (t+21, t+33)

Concept name	Concept mnemonic	Contents
Frequency	Freq	A

RESIDENT ECONOMIC ACTIVITY: X9999

Geographical breakdown: crossed with each partner of the LEVEL 1 (see 6.1.b, pp. 99-102)

	Number of enterprises	Number of persons employed	Turnover
	ENT	EMP	TUR
	(in units)	(in number of persons)	(in thousands of currency units)
Non resident economic activity			
X9994	TOTAL ACTIVITY		
A0395	AGRICULTURE, FORESTRY AND FISHING (Section A)		
B0995	MINING AND QUARRYING (Section B)		
B0905	Extraction of crude petroleum, natural gas and mining support service activities		
C3395	MANUFACTURING (Section C)		
C1205	Food products, beverages and tobacco products		
C1895	Total textiles & wood activities (C1405 + C1805)		
C1405	Textiles and wearing apparel		
C1600	Wood and products of wood, cork, straw and plaiting materials, except furniture		
C1700	Paper and paper products		
C1800	Printing and reproduction of recorded media		
C1805	Wood, paper, printing and reproduction		
C1995	Total petroleum, chemicals, pharmaceutical products, rubber & plastic products (C1900 + C2000 + C2200)		
C1900	Coke and refined petroleum products		
C2000	Chemicals and chemical products		
C2100	Basic pharmaceutical products and pharmaceutical preparations		
C2200	Rubber and plastic products		
C2300	Other non-metallic mineral products		
C2805	Total metal & machinery products (C2505 + C2600 + C2800)		
C2505	Basic metals and fabricated metal products		
C2400	Basic metals		
C2500	Fabricated metal products		
C2600	Computer, electronic and optical products		
C2700	Electrical equipment		
C2800	Machinery and equipment n.e.c.		
C3095	Total vehicles & other transport equipment (C2900 + C3000)		
C2900	Motor vehicles, trailers and semitrailers		
C3000	Other transport equipment		
C3030	Air and spacecraft and related machinery		
C3105	Furniture, other manufacturing, repair of machinery and equipment		
C3390	Total of other manufacturing		
D3500	ELECTRICITY, GAS, STEAM AND AIR CONDITIONING SUPPLY (Section D)		
E3995	WATER SUPPLY; SEWERAGE, WASTE MANAGEMENT AND REMEDIATION ACTIVITIES (Section E)		
E3600	Water collection, treatment and supply		
E3905	Sewerage, waste management, remediation activities		
F4395	CONSTRUCTION (Section F)		
X9595	TOTAL SERVICES (Sections G to S, excluding O)		
G4795	WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES (Section G)		
G4500	Wholesale and retail trade and repair of motor vehicles and motor cycles		
G4600	Wholesale trade, except of motor vehicles and motor cycles		
G4700	Retail trade, except of motor vehicles and motor cycles		
H5395	TRANSPORTATION AND STORAGE (Section H)		
H5295	Total transport and storage (H4900 + H5000 + H5100 + H5200)		
H4900	Land transport and transport via pipelines		
H5000	Water transport		
H5100	Air transport		
H5200	Warehousing and support activities for transportation		
H5300	Postal and courier activities		
I5695	ACCOMMODATION AND FOOD SERVICE ACTIVITIES (Section I)		
J6395	INFORMATION AND COMMUNICATION (Section J)		
J5800	Publishing		
J6005	Motion picture, video, television programme production, other entertainment activities		
J5900	Motion picture, video, television, sound recording, music publishing		
J6000	Programming and broadcasting		
J6100	Telecommunications		
J6305	Other information and communication activities		
J6200	Computer programming and consultancy		
J6300	Information services		
K6695	FINANCIAL AND INSURANCE ACTIVITIES (Section K)		
K6400	Management activities of holding companies		
K6420	Activities of holding companies		
K6500	Insurance, reinsurance and pension funding, except compulsory social security		
K6600	Other financial activities		
L6800	REAL ESTATE ACTIVITIES (Section L)		
M7595	PROFESSIONAL, SCIENTIFIC AND TECHNICAL ACTIVITIES (Section M)		
M6900	Legal and accounting activities		
M6910	Legal activities		
M6920	Accounting, bookkeeping and auditing activities; tax consultancy		
M7000	Activities of head offices; management consultancy activities		
M7010	Activities of head offices		
M7020	Management consultancy act		
M7100	Architecture and engineering activities; technical testing and analysis		
M7200	Scientific research and development		
M7300	Advertising and market research		
M7310	Advertising		
M7320	Market research and public opinion polling		
M7505	Other professional, scientific and technical activities, veterinary activities		
N8295	ADMINISTRATIVE AND SUPPORT SERVICE ACTIVITIES (Section N)		
N7700	Rental and leasing activities		
N7900	Travel agency, tour operator reservation service and related activities		
N8205	Other administrative and support service activities		
P8500	EDUCATION (Section P)		
Q8895	HUMAN HEALTH AND SOCIAL WORK ACTIVITIES (Section Q)		
R9395	ARTS, ENTERTAINMENT AND RECREATION (section R)		
R9000	Creative, arts and entertainment activities		
R9100	Libraries, archives, museums and other cultural activities		
R9305	Sporting and other recreational activities; gambling and betting activities		
S9695	OTHER SERVICE ACTIVITIES (section S)		
S9400	Activities of membership organisations		
S9605	Repair of computers and personal and household goods, other services		
X9996	Not allocated

Codes in bold are covered by the Regulation on Balance of Payments. Rest of codes, not in bold (EU-27 Member States for level 2 and geographical/economic zones for level 2 and 3) are not covered by the Regulation, but for the transitional period, Eurostat asks the Member States to keep * To be reported only in Quarterly BoP questionnaire. The definition of Level 1 geographical breakdown for Quarterly BoP data requests now includes DK, GB, SE and S7/Q6 in order to comply with the ECB request for data on services. In addition, these data are used to compute the EU aggregate coherently with the new method introduced by the ECB in November 2009. The new definition of Level 1 applies not only to services items, but to all QBoP posts, where Level 1 of geographical breakdown is required.

** To be reported only in FDI questionnaires

ANNEX II

Contents of country codes

Inclusions and exclusions of certain territories in country codes (apply for all data requests)

BOP code	Country	ISO code	Contents
EUROPE			
DE	Germany	DE	Germany <i>Including</i> Helgoland <i>Excluding</i> Büsingen and Büttelhardt Höfe (customs free zones belonging to the customs territory of Switzerland)
DK	Denmark	DK	Denmark <i>Excluding</i> Faroe Islands (FO) and Greenland (GL)
ES	Spain	ES	Spain <i>Including</i> Balearic Islands, Ceuta and Melilla and Canary Islands <i>Excluding</i> Andorra (AD)
FI	Finland	FI AX	Finland <i>Including</i> Åland Islands (AX)
FR	France	FR FX MC GF MQ GP RE YT BL MF PM	France France, metropolitan Principality of Monaco <i>Including</i> Overseas Departments: French Guyana Martinique Guadeloupe (Grande Terre, Basse Terre, Marie Galante, Les Saintes, Iles de la Petite Terre and Désirade) Réunion Mayotte <i>Including</i> Territorial collectivities: Saint Barthélemy Saint Martin Saint Pierre et Miquelon <i>Excluding</i> Overseas Territories (French Polynesia (PF), New Caledonia and dependencies (NC), Wallis and Futuna Islands (WF), French Southern and Antarctic Lands (TF))
IT	Italy	IT	Italy <i>Excluding</i> San Marino (SM) and the Holy See (VA)
NL	Netherlands	NL	Netherlands <i>Excluding</i> Aruba (AW), Bonaire, Sint Eustatius and Saba (BQ), Curaçao (CW) and Sint Maarten (SX)
NO	Norway	NO	Norway <i>Including</i> Svalbard and Jan Mayen (SJ)
PT	Portugal	PT	Portugal <i>Including</i> Açores and Madeira <i>Excluding</i> Macau (MO)
GB	United Kingdom	GB	United Kingdom of Great Britain and Northern Ireland <i>Excluding</i> Channel Islands - Guernsey (GG), Jersey (JE); Gibraltar (GI), the Isle of Man (IM), Anguilla (AI), Bermuda (BM), Montserrat (MS), the British Virgin Islands (VG), the Turks and Caicos Islands (TC), the Cayman Islands (KY), Falkland Islands (FK), British Indian Ocean Territory (IO), St Helena, Ascension and Tristan da Cunha (SH), Pitcairn (PN) and South Georgia and the South Sandwich Islands (GS)

AFRICA			
MA	Morocco	MA	Morocco <i>Including</i> Occidental Sahara (EH)
AO	Angola	AO	Angola <i>Including</i> Cabinda
IO	British Indian Ocean Territory	IO	British Indian Ocean Territory <i>Including</i> Chagos Archipelago
KM	Comoros	KM	Comoros <i>Including</i> Anjouan, Grande Comore, Mohéli
MU	Mauritius	MU	Mauritius <i>Including</i> Rodrigues Island, Agalega Islands and Cargados Carajos Shoals (St Brandon Islands)
SC	Seychelles	SC	Seychelles <i>Including</i> Alphonse, Bijoutier, St François Islands, St Pierre Islet, Cosmoledo Islands, Amirantes, Providence, Aldabra, Farquhar and Desroches, Mahé, Silhouette, Praslin (including La Digue), Frégate, Mamelles and Récifs, Bird and Denis, Plate and Coëtivy
SH	St Helena, Ascension and Tristan da Cunha	SH	St Helena, Ascension and Tristan da Cunha <i>Including</i> St Helena Island, Ascension Island, Tristan da Cunha Archipelago (Gough, Inaccessible, Nightingale and Stoltenholl Islands)
TZ	Tanzania	TZ	Tanzania <i>Including</i> Tanganyika, Zanzibar Island and Pemba
AMERICA			
US	United States	US	United States <i>Including</i> Puerto Rico (PR) and Navassa
GD	Grenada	GD	Grenada <i>Including</i> Southern Grenadines Islands
HN	Honduras	HN	Honduras <i>Including</i> Swan Islands
NI	Nicaragua	NI	Nicaragua <i>Including</i> Corn Islands
PA	Panama	PA	Panama <i>Including</i> former Canal zone
VC	St Vincent and the Grenadines	VC	St Vincent and the Grenadines <i>Including</i> Northern Grenadines Islands
EC	Ecuador	EC	Ecuador <i>Including</i> Galapagos Islands
ASIA			
AE	United Arab Emirates	AE	United Arab Emirates <i>Including</i> Abu Dhabi, Dubai, Sharjah, Ajman, Umm al Qaiwain, Ras al Khaimah and Fujairah
OM	Oman	OM	Oman <i>Including</i> Kuria Muria Islands
YE	Yemen	YE	Yemen <i>Including</i> North Yemen and South Yemen, Perim, Kamaran, Socotra and associated Islands
IN	India	IN	India <i>Including</i> Amindivi Island, Laccadive Island, Minicoy Island, Andaman Islands, Nicobar Islands and Sikkim
MY	Malaysia	MY	Malaysia <i>Including</i> Peninsular Malaysia and Eastern Malaysia (Sabah, Sarawak and
TL	Timor-Leste	TL	Timor-Leste <i>Including</i> the exclave of Oecussi
TW	Taiwan	TW	Taiwan <i>Including</i> separate customs territory of Taiwan, Penghu, Kinmen and Matsu

OCEANIA AND POLAR REGIONS			
FM	Micronesia, Federated States of	FM	Micronesia, Federated States of <i>Including</i> Caroline Islands (except Palau), Yap, Chuuk, Pohnpei, Kosrae
MP	Northern Mariana Islands	MP	Northern Mariana Islands <i>Including</i> Mariana Islands except Guam
NC	New Caledonia	NC	New Caledonia <i>Including</i> Loyalty Islands (Maré, Lifou and Ouvéa)
NZ	New Zealand	NZ	New Zealand <i>Including</i> Antipodes Islands, Auckland Islands, Bounty Islands, Campbell Island, Kermadec Islands, Chatham Islands and Snares Islands. Excluding Ross Dependency (Antarctica)
PF	French Polynesia	PF	French Polynesia <i>Including</i> Marquesas Islands, Society Islands (including Tahiti), Tuamotu Islands, Gambier Islands and Austral Islands. Also Clipperton Island.
PG	Papua New Guinea	PG	Papua New Guinea <i>Including</i> Bismarck Archipelago, Louisiade Archipelago, Admiralty Islands, Northern Solomon Islands (Bougainville, Buka, Green), d'Entrecasteaux Islands, Lavongai, Trobriand Islands, New Britain, New Ireland, Woodlark and associated Islands

SB	Solomon Islands	SB	Solomon Islands <i>Including</i> Southern Solomon Islands, primarily Guadalcanal, Malaita, San Cristobal, Santa Isabel, Choiseul
WF	Wallis and Futuna	WF	Wallis and Futuna <i>Including</i> Alofi Island
UM	US Minor Outlying Islands	UM	US Minor Outlying Islands <i>Including</i> Baker, Howland, and Jarvis Islands, Johnston Atoll, Kingman Reef, Midway Islands, Palmyra Atoll and Wake Island
TF	French Southern and Antarctic Lands	TF	French Southern and Antarctic Lands <i>Including</i> Kerguelen, Amsterdam and Saint Paul Islands, Crozet Archipelago, Adélie Land and the Scattered Islands

ANNEX III

BoP item code list

Coded item for breakdown of the Balance of Payments

Abbreviations

STD: standard BPM5 component
MEM: Memorandum item
SUP: Supplementary information
XOE: Eurostat/OECD or Eurostat item
ECB: ECB item
EUI: EU Institutions item
IMF: Additional code from IMF
FATS: Foreign Affiliates Statistics

Bkf: Bop Key Family

This column indicates whether the bop item is in the bop item list of the BoP key family for SDMX purposes.

AN8	BoP item code list (Eurostat-BoP, ECB, BIS, IMF)	Type	Bkf
010	Current + capital account	SUP	y
011	Current and capital transfers	XOE	y
012	Current and capital transfers, General government	XOE	y

ANNEX V

FATS item code list

Coded item for Outward FATS characteristics

AN8	FATS item code list (Eurostat-BoP)
EMP	Number of persons employed
ENT	Number of enterprises
EXP	Exports of goods and services
EXPEU	Exports of goods and services to the EU
EXPG	Exports of goods
EXPGEU	Exports of goods to the EU
EXPGRW	Exports of goods to the rest of world
EXPI	Intra-group exports of goods and services
EXPICC	Intra-group exports of goods and services to the controlling unit in the compiling country
EXPIG	Intra-group exports of goods
EXPINC	Intra-group exports of goods and services excluding controlling unit
EXPIS	Intra-group exports of services
EXPRW	Exports of goods and services to the rest of world
EXPS	Exports of services
EXPSEU	Exports of services to the EU
EXPSRW	Exports of services to the rest of world
GIT	Gross investment in tangible goods
IMP	Imports of goods and services
IMPEU	Imports of goods and services from the EU
IMPG	Imports of goods
IMPGEU	Imports of goods from the EU
IMPGRW	Imports of goods from the rest of world
IMPI	Intra-group imports of goods and services
IMPIG	Intra-group imports of goods
IMPIS	Intra-group imports of services

BOP ECONOMIC ZONES

N.B.: Some economic zones have been completed by adding the date on which Members joined or left. The compilers should take these dates into account when constructing economic zones: the zone should only include the countries composing the area at the time referred to.
