

Table 1 – National characteristics as a result of the breakdown / individualization of the characteristics defined in Community legislation

National characteristic	Characteristic listed on Regulation (EC) No 1166/2008 where the national characteristic is included	Entity that requested the inclusion of the characteristic
Individualization of the area of two-row barley, six-row barley, triticale, hybrid grain maize, regional grain maize and sorghum.	Arable land – <i>Cereals for the production of grain (including seed)</i>	Ministry of Agriculture, Forestry and Rural Development (MAFDR)
Individualization of the area of chick peas	Arable land – <i>Dried pulses and protein crops for the production of grain (including seed and mixtures of cereals and pulses)</i>	Ministry of Agriculture, Forestry and Rural Development (MAFDR)
Individualization of the area of annual mixtures, fodder oats, fodder sorghum and ryegrass	Arable land – <i>Plants harvested green</i>	Ministry of Agriculture, Forestry and Rural Development (MAFDR)
Individualization of the area of early potatoes and other potatoes	Arable land – <i>Potatoes (including early potatoes and seed potatoes)</i>	Ministry of Agriculture, Forestry and Rural Development (MAFDR)
Individualization of the area of processing tomato, melons and strawberries	Arable land – <i>Fresh vegetables, melons and strawberries</i>	Ministry of Agriculture, Forestry and Rural Development (MAFDR)
Individualization of the area of kitchen garden and market gardening potatoes	Arable land – <i>Fresh vegetables, melons and strawberries;</i> Kitchen gardens	Ministry of Agriculture, Forestry and Rural Development (MAFDR)
Area of temporary crops as a secondary successive crop or as a secondary crop under permanent crops	Arable land	Ministry of Agriculture, Forestry and Rural Development (MAFDR)
Breakdown of irrigation methods in: <ul style="list-style-type: none"> • Surface irrigation in traditional furrow irrigation, modernized furrow irrigation, flow irrigation and others surface irrigation methods; • Sprinkler irrigation in sprinklers with permanent lateral pipes, sprinklers with portable lateral pipes, hard hose travelling gun with hose reel and centre pivot system; • Drop irrigation in drip irrigation and micro-sprinkler irrigation. 	Arable land	Ministry of Agriculture, Forestry and Rural Development (MAFDR) Institute of Agronomy (ISA)
Individualization of the area of the main species of fruit (temperate climate zones) plantations, berry plantations, fruit (subtropical climate zones) plantations and nuts plantations	Permanent crops – <i>Fruit and berry plantations</i>	Ministry of Agriculture, Forestry and Rural Development (MAFDR)
Individualization of the area of the main species of citrus plantations	Permanent crops – <i>Citrus plantations</i>	Ministry of Agriculture, Forestry and Rural Development (MAFDR)
Breakdown of olive for oil production plantations by planting density	Permanent crops – <i>Olive plantations</i>	Ministry of Agriculture, Forestry and Rural Development (MAFDR)
Breakdown of quality wines in PDO and PGI	Permanent crops – <i>Vineyards, of which normally producing quality wine</i>	Ministry of Agriculture, Forestry and Rural Development (MAFDR)
Breakdown of nurseries in vine and root-stock, fruit trees/citrus/olive trees, forest trees and ornamental plants	Permanent crops – <i>Nurseries</i>	Ministry of Agriculture, Forestry and Rural Development (MAFDR)
Breakdown of permanent grassland in sowed pastures and improved natural pastures	Permanent grassland – <i>Pasture and meadow, excluding rough grazings</i>	Ministry of Agriculture, Forestry and Rural Development (MAFDR)

National characteristic	Characteristic listed on Regulation (EC) No 1166/2008 where the national characteristic is included	Entity that requested the inclusion of the characteristic
Breakdown of permanent grassland in areas not under permanent crops or wooded area, areas under permanent crops area and areas under wooded area	Permanent grassland	Ministry of Agriculture, Forestry and Rural Development (MAFDR)
Breakdown of type of tenure (in relation to the holder) of UAA in tenant farming, seasonal tenant farming, share farming and other types of tenure	Type of tenure (in relation to the holder) and farming system	Ministry of Agriculture, Forestry and Rural Development (MAFDR)
Breakdown of source of irrigation water used on the holding in surface water, ground water and other	Irrigation – <i>Source of irrigation water used on the holding</i>	Ministry of Agriculture, Forestry and Rural Development (MAFDR) Portuguese Environment Agency (APA)
Breakdown of pigs in order to answer to Regulation (EC) No 1165/2008	Livestock – <i>Pigs</i>	Statistics Portugal (INE)
Breakdown of sheep in order to answer to Regulation (EC) No 1165/2008	Livestock – <i>Sheep and goats</i>	Statistics Portugal (INE)
Breakdown of goats in order to answer to Regulation (EC) No 1165/2008	Livestock – <i>Sheep and goats</i>	Statistics Portugal (INE)
Breakdown of equidea in horses, donkeys and mules	Livestock – <i>Equidae</i>	Ministry of Agriculture, Forestry and Rural Development (MAFDR)
Sources of the final output of the holding (other than the one coming from other gainful activities directly related to the holding)	Other gainful activities of the holding (directly related to the holding) – <i>Importance of the other gainful activities directly related to the holding</i>	Statistics Portugal (INE)
