## CHAPTER 5. MANURE MANAGEMENT (year 2020)

### 29. NUTRIENT USE AND MANURE ON THE AGRICULTURAL HOLDING

#### 29.1. Total UAA fertilised with chemical fertilisers (Hectares)

Utilised Agricultural Area that has been fertilised with chemical fertilisers, including natural mineral fertilisers utilised in organic farming

Not existant

#### 29.2. Total UAA fertilised with manure (Hectares)

Utilised Agricultural Area that has been fertilised with manure

Not existant

#### 29.3.a. Slurry/liquid manure imported by the agricultural holding (cubic meters)

Liquid manure entering (purchased or exchanged) on the agricultural holding for use as fertiliser or for industrial processing

Not existant

#### 29.3.b. Slurry/liquid manure exported by the agricultural holding (cubic meters)

Liquid manure removed (sold or exchanged) from the agricultural holding for use as fertiliser or for industrial processing

Not existant

#### 29.4.a. Solid manure imported by the agricultural holding (tons)

Solid manure entered (purchased or exchanged) on the agricultural holding for use as fertiliser or for industrial processing

Not existant

#### 29.4.b. Solid manure exported by the agricultural holding (tons)

Solid manure removed from the agricultural holding (sold or exchanged) for use as fertiliser or for industrial processing

Not existant

#### 29.5. Organic and waste based fertilisers other than manure (tons)

Organic and waste-based fertilisers, other than animal fertilisers, used for agricultural purposes

Not existant

## 30 MANURE APPLICATION TECHNIQUES

### 30.1. Manure broadcast no incorporation

Percentage of manure applied and not incorporated into the soil (within 24 hours of application)

Not existant

### 30.2. Manure broadcast incorporation within 4 hours

Percentage of manure applied and incorporated into the soil within 4 hours of application

Not existant

**30.3. Manure broadcast incorporation after 4 hours**

Percentage of manure applied and incorporated into the soil 4 hours after application

Not existant

**30.4. Manure band spread trailing hose**

Percentage of manure applied with hose dispenser

Not existant

**30.5. Manure band spread trailing shoe**

Percentage of manure applied with a low spray spread

Not existant

**30.6. Manure injection shallow/open slit**

Percentage of liquid manure or slurry applied in slots left closed or open after application

Not existant

**30.7. Manure injection deep/closed slit**

Percentage of manure applied in deep and closed slots after application

Not existant

**31. MANURE STORAGE FACILITIES AND CAPACITIES**

**31.1. Manure solid storage in heaps**

Percentage of manure stored in piles or stacks in uninsulated or isolated outdoor areas for several months

Not existant

**31.2. Manure stored in compost piles**

Percentage of manure stored in insulated, aerated and / or mixed compost piles

Not existant

**31.3. Manure stored in pits below animal confinement**

Percentage of manure stored (with or without the addition of water) under the grate floor of an animal shelter (storage for less than 1 year)

Not existant

**31.4. Manure stored in deep litter systems**

Animal manure that accumulates during a production cycle (6 to 12 months)

Not existant

**31.5. Liquid manure/ slurry storage without cover**

Percentage of manure stored in uncovered tanks or ponds for less than 1 year

Not existant

**31.6. Liquid manure/ slurry storage with permeable cover**

Percentage of manure stored (less than 1 year) in tanks or ponds covered with a permeable cover (clay, straw or natural crust)

Not existant

**31.7. Liquid manure/ slurry storage with impermeable cover**

Percentage of manure stored (less than 1 year) in tanks or ponds covered with a waterproof cap (polyethylene or negative pressure cap)

Not existant

**31.8. Manure stored in other facilities n.e.c.**

Percentage of manure stored in other types of installations, not mentioned above

Not existant

**31.9. Daily spread**

Manure frequently removed from an isolated plant and applied to cultivated land or pastures within 24 hours of excretion

Not existant

**31.10. Manure stored in compost piles (Number of months)**

Storage period (in months) in isolated compost stacks

Not existant

**31.11. Manure storage in pits below animal confinement (Number of months)**

Storage period (in months) in pits specially designed for this purpose

Not existant

**31.12. Manure storage in deep litter systems (Number of months)**

Storage period (in months) in deep litter systems

Not existant

**31.13. Liquid manure/slurry storage**

Storage period (in months) in liquid manure depots, regardless of how they are covered

Not existant

**31.14. Manure stored in other facilities n.e.c. (Number of months)**

Storage period (in months) in any other type of installation, not mentioned above

Not existant

**CHAPTER 6. ORGANIC FARMING**

**32. Organic farming - plant sector (2019 - 2020 crop year)**

**32.1. Organic certified utilised agricultural area (Hectares)**

UAA cultivated according to the principles of organic production

Not existant

**32.2. Utilised agricultural area in conversion to organic (Hectares)**

UAA on which organic production methods are applied, in transition to organic production

Not existant

**32.3. Arable land**

Both the areas on which organic production methods are applied and certified and the areas under conversion are recorded.

Yes/No

/

Common wheat and spelt

/
