## **Belgium**

### **Operation theatres in hospital**

Source of data: **SPF Santé publique - DGGS**, Hospital technical resources - metadata - statistiques hospitalières.

Reference period: annual average.

Coverage: sans les salles d'opération réservées exclusivement à la chirurgie de jour.

### **Day care places altogether**

Source of data: **SPF Santé publique - DGGS**, Hospital technical resources - metadata - statistiques hospitalières.

Reference period: annual average.

Coverage: avec l'hospitalisation de jour chirurgicale mais sans la psychiatrie de jour.

### **Surgical day care places**

Source of data: **SPF Santé publique - DGGS** Hospital technical resources - metadata - statistiques hospitalières.

Reference period: annual average.

### **Oncological day care places**

Source of data: **SPF Santé publique - DGGS**, Hospital technical resources - metadata - statistiques hospitalières.

Reference period: annual average.

### **Psychiatric day care places**

Source of data: **SPF Santé publique - DGGS**, Hospital technical resources - metadata - statistiques hospitalières.

Reference period: annual average.

### **Geriatric day care places**

Source of data: **SPF Santé publique - DGGS**, Hospital technical resources - metadata - statistiques hospitalières.

Reference period: annual average.

## **Bulgaria**

### **Operation theatres in hospital**

Data not available.

### **Day care places altogether**

Source of data: **National Statistical Institute, National Centre for Public Health and Analyses**

Reference period: 31st of December

Coverage: All available Places for short stay in all types of hospitals are included. The centres with beds are also included.

In 2016, with amendments of the national legislation, "Places for short stay" are introduced.

"Places for short stay" are places for carrying out certain medical diagnostic and treatment activities requiring a stay of the patient not longer than 12 hours."

This places are used mainly for activities in the field of medical oncology, radiotherapy psychiatry, dialysis treatment and etc.

### **Surgical day care places**

Source of data: **National Centre for Public Health and Analyses**

Reference period: 31st of December

Coverage: All available surgical places for short stay in all types of hospitals are included. The centres with beds are also included.

Data for surgical day care places in health establishments attached to other ministries are not included.

### **Oncological day care places**

Source of data: **National Centre for Public Health and Analyses**

Reference period: 31st of December

Coverage: All available oncological places for short stay in all types of hospitals are included. The centres with beds are also included.

Data for oncological day care places in health establishments attached to other ministries are not included

### **Psychiatric day care places**

Source of data: **National Centre for Public Health and Analyses**

Reference period: 31st of December

Coverage: All available psychiatric places for short stay in all types of hospitals are included. The centres with beds are also included.

2016-2019 Data for psychiatric day care places in health establishments attached to other ministries are not included.

### **Geriatric day care places**

Data not available.

## **Czechia**

### **Operation theatres in hospital**

Source of data: **Institute of Health Information and Statistics of the Czech Republic.** Survey on bed resources of health establishments and their exploitation. - till 2015 separately, since 2016 as an attachment of other survey.

Reference period: 31st December.

Coverage: Data refers to Hospitals and Specialized therapeutic institutes (excluding Balneologic institutes and Convalescent homes for children).

### **Day care places altogether**

Data not available.

### **Surgical day care places**

Data not available.

Data not available.

## **Germany**

### **Operation theatres in hospital**

Data not available.

### **Day care places altogether**

Source of data: **Federal Statistical Office**, Hospital statistics 2019 (basic data of hospitals); Statistisches Bundesamt 2021, *Fachserie 12, Reihe 6.1.1*, table 2.9; <http://www.destatis.de> or <http://www.gbe-bund.de>.

Reference period: 31<sup>st</sup> December.

#### **Coverage:**

- The number of available day care places comprises day and night places in all types of hospitals (HP1.1, 1.2 and 1.3) in all sectors (public, not-for-profit and private). They serve for partly inpatient medical care of patients during the day or the night.

### **Surgical day care places**

Source of data: **Federal Statistical Office**, Hospital statistics 2017 (basic data of hospitals); Statistisches Bundesamt 2021, *Fachserie 12, Reihe 6.1.1*, table 2.9; <http://www.destatis.de> or <http://www.gbe-bund.de>.

Reference period: 31<sup>st</sup> December.

Coverage:

- The number of available day care places comprises day and night places in all types of hospitals (HP1.1, 1.2 and 1.3) in all sectors (public, not-for-profit and private). They serve for partly inpatient medical care of patients during the day or the night.
- Surgical day care places: including general surgery, cardio surgery, paediatric surgery, neurosurgery, plastic surgery and dental, oral and maxillofacial-surgery.
- Data before 2002 is not available.

### **Oncological day care places**

Source of data: **Federal Statistical Office**, Hospital statistics 2017 (basic data of hospitals); Statistisches Bundesamt 2021, *Fachserie 12, Reihe 6.1.1*, table 2.9; <http://www.destatis.de> or <http://www.gbe-bund.de>.

Reference period: 31<sup>st</sup> December.

Coverage:

- The number of available day care places comprises day and night places in all types of hospitals (HP1.1, 1.2 and 1.3) in all sectors (public, not-for-profit and private). They serve for partly inpatient medical care of patients during the day or the night.
- Oncological day care places: including haematology and clinical oncology.
- Data before 2002 are not available.

### **Psychiatric day care places**

Source of data: **Federal Statistical Office**, Hospital statistics 2017 (basic data of hospitals); Statistisches Bundesamt 2021, *Fachserie 12, Reihe 6.1.1*, table 2.9; <http://www.destatis.de> or <http://www.gbe-bund.de>.

Reference period: 31<sup>st</sup> December.

Coverage:

- The number of available day care places comprises day and night places in all types of hospitals (HP1.1, 1.2 and 1.3) in all sectors (public, not-for-profit and private). They serve for partly inpatient medical care of patients during the day or the night.
- Psychiatric day care places: including child and adolescent psychiatry, psychiatry and psychotherapy, psychosomatic medicine.

### **Geriatric day care places**

Source of data: **Federal Statistical Office**, Hospital statistics 2019 (basic data of hospitals); Statistisches Bundesamt 2021, *Fachserie 12, Reihe 6.1.1*, table 2.9; <http://www.destatis.de> or <http://www.gbe-bund.de>.

Reference period: 31<sup>st</sup> December.

Coverage:

- The number of available day care places comprises day and night places in all types of hospitals (HP1.1, 1.2 and 1.3) in all sectors (public, not-for-profit and private). They serve for partly inpatient medical care of patients during the day or the night.
- Geriatric day care places: including clinical geriatrics.

## Estonia

### Operation theatres in hospital

Source of data: National Institute for Health Development. Annual statistical reports.

Reference period: number of operation theatres on the 31<sup>st</sup> of December.

Coverage: All hospitals (HP1) are included. All operation theatres of hospitals (stationary, day care and ambulatory) are included.

### Day care places altogether

Source of data: National Institute for Health Development since 1.01.2008. Annual statistical reports of health care providers.

Reference period: number of beds on the 31<sup>st</sup> of December.

Coverage: In annual reports, all hospitals (HP.1) are included. There are also out-patient institutions that provide day care and therefore have day care beds. Day care beds in out-patient health care institutions are not included.

### Surgical day care places

Data not available.

### Oncological day care places

Data not available.

### Psychiatric day care places

Data not available.

### Geriatric day care places

Data not available.

## Ireland

### Operation theatres in hospital

Source of data:

From 2016: HSE.

Pre 2016: **Department of Health**

Coverage: Data refer to all Public acute hospitals (HP1) and relate to the number of major operating theatres only. A small number of minor theatres also exist, but these have been excluded from the data.

Break in time series

(2016)-Data collected from the HSE relates to week ending Dec 10<sup>th</sup> 2017 (or nearest week if not returned that week). Collection template is based on the following definitions:

- Information is required in relation to Operating Theatres (including staffed Emergency Theatres), minor operations and procedure rooms which are currently operational.
- Details of rooms that were never commissioned /opened i.e. funding not approved or were decommissioned/ permanently closed are not required.

- An operating theatre (**OT**) is a self-contained, aseptic room in which sterile and other surgical procedures can be carried out under general or regional anaesthesia; is normally equipped with an operating table, an anaesthetic machine and adjustable illumination and whose size varies depending on the complexity of procedures and the equipment they require, varying from relatively small, such as for day surgery, to larger for complex procedures such as transplantation or open heart surgery.
- Minor operation rooms and endoscopy rooms are excluded from the reported data.
- Only operating theatres open for full days are reported.

### **Day care places altogether**

Source of data:

2000-2005: **Department of Health.**

2006 onwards: **Health Service Executive.**

2018 onwards: Private Hospital data is sourced from the Department of Health.

Reference period: December.

- Data refers to average available beds in publicly funded acute hospitals only up 2018.

- Private hospital data is included from 2018 onwards.

### **Surgical day care places**

Data not available.

### **Oncological day care places**

Data not available.

### **Psychiatric day care places**

Data not available.

### **Geriatric day care places**

Data not available.

## **Greece**

### **Operation theatres in hospital**

Source of data: Annual Survey Of Hospital Census.

Reference period: 31<sup>st</sup> December.

Coverage: The coverage is complete at geographical level.

### **Day care places altogether**

Source of data: Annual Survey Of Hospital Census.

Reference period: 31<sup>st</sup> December.

Coverage: The coverage is complete at regional level.

### **Surgical day care places**

Source of data: Annual Survey Of Hospital Census.

Reference period: 31<sup>st</sup> December.

Coverage: The coverage is complete at regional level.

Deviation from the definition: The day care places aren't always designated as such.

### **Oncological day care places**

Source of data: Annual Survey Of Hospital Census

Reference period: 31st December.

Coverage: The coverage is at regional level.

Deviation from the definition: The data given concern mainly chemotherapy.

### **Psychiatric day care places**

Source of data: Annual Survey Of Hospital Census

Reference period: 31st December.

Coverage: The coverage is at regional level.

### **Geriatric day care places**

Data not available.

## **Spain**

### **Operation theatres in hospital**

Source of data: **Ministry of Health**, data from Statistics on Health Establishments Providing In-patient Care.

Since 2010: **Ministry of Health** from Statistics of Specialized Care Centres (Sistema de Información de Atención Especializada - SIAE)

<https://www.mscbs.gob.es/estadEstudios/estadisticas/estHospilInternado/inforAnual/homeESCRI.htm>

Reference period: Annual average - occupied beds.

Coverage: All public and private hospitals are included.

Break in series: operation theatres from outpatient centers included since 2010.

### **Day care places altogether**

Source of data: **Ministry of Health**, data from Statistics on Health Establishments Providing In-patient Care.

Since 2010: **Ministry of Health** from Statistics of Specialized Care Centres (Sistema de Información de Atención Especializada - SIAE)

<https://www.mscbs.gob.es/estadEstudios/estadisticas/estHospilInternado/inforAnual/homeESCRI.htm>

Reference period: Annual average - occupied beds.

Coverage: All public and private hospitals are included.

Break in series: day care places belonging to outpatient centers which are dependent upon hospitals (mainly, day-psychiatric places of mental health centers) included since 2010.

### **Surgical day care places**

Source of data: **Ministry of Health**, data from Statistics on Health Establishments Providing In-patient Care.

Since 2010: **Ministry of Health** from Statistics of Specialized Care Centres (Sistema de Información de Atención Especializada - SIAE)

<https://www.mscbs.gob.es/estadEstudios/estadisticas/estHospilInternado/inforAnual/homeESCRI.htm>

### **Oncological day care places**

Source of data:

Since 2010: **Ministry of Health** from Statistics of Specialized Care Centres (Sistema de Información de Atención Especializada - SIAE)

<https://www.mscbs.gob.es/estadEstudios/estadisticas/estHospilInternado/inforAnual/homeESCRI.htm>

### **Psychiatric day care places**

Source of data:

Since 2010: **Ministry of Health** from Statistics of Specialized Care Centres (Sistema de Información de Atención Especializada - SIAE)

<https://www.mscbs.gob.es/estadEstudios/estadisticas/estHospilInternado/inforAnual/homeESCRI.htm>

### **Geriatric day care places**

Source of data:

Since 2010: **Ministry of Health** from Statistics of Specialized Care Centres (Sistema de Información de Atención Especializada - SIAE)

<https://www.mscbs.gob.es/estadEstudios/estadisticas/estHospilInternado/inforAnual/homeESCRI.htm>

## **France**

### **Operation theatres in hospital**

Source of data: **Ministère des Solidarités et de la Santé - Direction de la Recherche, des Etudes, de l'Evaluation et des Statistiques (DREES)**. Data are from the "Statistique Annuelle des Etablissements de santé (SAE)".

Reference period: 31<sup>st</sup> December.

Coverage:

- Data refer to metropolitan France and D.O.M. (overseas departments).

### **Day care places altogether**

Source of data: **Ministère Solidarités et de la santé - Direction de la Recherche, des Etudes, de l'Evaluation et des Statistiques (DREES)**. Data are from the "Statistique Annuelle des Etablissements de santé (SAE)".

NB: This survey has been recasted in 2014 for the data concerning 2013 (review and update of the questionnaire, change of the unit surveyed [legal entity - geographical establishment], improvement of the consistency between the survey and an administrative source of data on the activity of hospitals). Though the principles of the survey remain the same, some concepts and some questions have changed: this can lead to break in series for year 2013.

Reference period: 31<sup>st</sup> December.

Coverage:

- Data refer to metropolitan France and D.O.M. (overseas departments).

- From 2013, we count the number of geographical establishments for all sectors (public and private). That is why there is a break in series in the number of the total hospitals and the public hospitals.

### **Surgical day care places**

Source of data: **Ministère des Solidarités et de la Santé - Direction de la Recherche, des Etudes, de l'Evaluation et des Statistiques (DREES)**. Data are from the "Statistique Annuelle des Etablissements de santé (SAE)".

NB: This survey has been recasted in 2014 for the data concerning 2013 (review and update of the questionnaire, change of the unit surveyed [legal entity - geographical establishment], improvement of the consistency between the survey and an administrative source of data on the activity of hospitals). Though the principles of the survey remain the same, some concepts and some questions have changed: this can lead to break in series for year 2013.

Reference period: 31<sup>st</sup> December.

Coverage:

- Data refer to metropolitan France and D.O.M. (overseas departments).
- From 2013, we count the number of geographical establishments for all sectors (public and private). That is why there is a break in series in the number of the total hospitals and the public hospitals.

### **Oncological day care places**

Source of data: **Ministère des Solidarités et de la Santé - Direction de la Recherche, des Etudes, de l'Evaluation et des Statistiques (DREES)**. Data are from the "Statistique Annuelle des Etablissements de santé (SAE)".

Reference period: 31<sup>st</sup> December.

Coverage:

- Data refer to metropolitan France and D.O.M. (overseas departments).
- Oncological day care places have been recalculated, based on consolidated data.

### **Psychiatric day care places**

Source of data: **Ministère des Solidarités et de la Santé - Direction de la Recherche, des Etudes, de l'Evaluation et des Statistiques (DREES)**. Data are from the "Statistique Annuelle des Etablissements de santé (SAE)".

NB: This survey has been recasted in 2014 for the data concerning 2013 (review and update of the questionnaire, change of the unit surveyed [legal entity - geographical establishment], improvement of the consistency between the survey and an administrative source of data on the activity of hospitals). Though the principles of the survey remain the same, some concepts and some questions have changed: this can lead to break in series for year 2013.

- Data refer to metropolitan France and D.O.M. (overseas departments).
- From 2013, we count the number of geographical establishments for all sectors (public and private). That is why there is a break in series in the number of the total hospitals and the public hospitals.

### **Geriatric day care places**

Source of data: **Ministère des Solidarités et de la Santé - Direction de la Recherche, des Etudes, de l'Evaluation et des Statistiques (DREES)**. Data are from the "Statistique Annuelle des Etablissements de santé (SAE)".

Reference period: 31<sup>st</sup> December.

Coverage:

- Data refer to metropolitan France and D.O.M. (overseas departments).

## **Croatia**

### **Operation theatres in hospital**

Source: **Croatian Institute of Public Health.**

Reference period: 31<sup>st</sup> December.

Coverage: Data include operation theatres in all public and private hospitals in Croatia, except prison hospital.

### **Day care places altogether**

Source: **Croatian Institute of Public Health**, Hospital structure and function database.

Reference period: 31<sup>st</sup> December.

Coverage: Data include number of day care places in all public and private hospitals in Croatia, except prison hospital.

### **Surgical day care places**

Source: **Croatian Institute of Public Health**, Hospital structure and function database.

Reference period: 31<sup>st</sup> December.

Coverage: Data include number of day care places in all public and private hospitals in Croatia, except prison hospital. Surgical day care places including: general surgery, plastic surgery, child surgery, neurological surgery, maxillofacial surgery, urology, orthopaedics, ophthalmology, anaesthesiology and day care surgery.

### **Oncological day care places**

Source: **Croatian Institute of Public Health**, Hospital structure and function database.

Reference period: 31<sup>st</sup> December.

Coverage: Data include number of day care places in all public and private hospitals in Croatia, except prison hospital. **Oncological day care places** including oncology, internal medicine-oncology, gynecologic oncology, pediatric haematology and oncology.

### **Psychiatric day care places**

Source: **Croatian Institute of Public Health**, Hospital structure and function database.

Reference period: 31<sup>st</sup> December.

Coverage: Data include number of day care places in all public and private hospitals in Croatia, except prison hospital.

### **Geriatric day care places**

Source: **Croatian Institute of Public Health**, Hospital structure and function database.

Reference period: 31<sup>st</sup> December.

Coverage: Data include number of day care places in all public and private hospitals in Croatia, except prison hospital.

## **Italy**

### **Operation theatres in hospital**

Source of data: Ministry of Health – General Directorate of digitalization, health information system and statistics – Office of Statistics,

<http://www.salute.gov.it/statistiche>.

Reference period: annual average.

### **Day care places altogether**

Source of data: Ministry of Health – General Directorate of digitalization, health information system and statistics – Office of Statistics,

<http://www.salute.gov.it/statistiche>.

Reference period: annual average.

Break in the series: since 2007 data on surgical day places and Day care places are gathered as distinct.

### **Surgical day care places**

Source of data: Ministry of Health – General Directorate of digitalization, health information system and statistics – Office of Statistics,

<http://www.salute.gov.it/statistiche>.

Reference period: annual average.

Coverage: included with day care places until 2006.

### **Oncological day care places**

Source of data: Ministry of Health – General Directorate of digitalization, health information system and statistics – Office of Statistics,

<http://www.salute.gov.it/statistiche>.

Reference period: annual average.

### **Psychiatric day care places**

Source of data: Ministry of Health – General Directorate of digitalization, health information system and statistics – Office of Statistics,

<http://www.salute.gov.it/statistiche>.

Reference period: annual average.

### **Geriatric day care places**

Source of data: Ministry of Health – General Directorate of digitalization, health information system and statistics – Office of Statistics,

<http://www.salute.gov.it/statistiche>.

Reference period: annual average.

## **Cyprus**

### **Operation theatres in hospital**

Source of data: Information for the Public Sector obtained from the hospitals and for the Private Sector from the Private Clinics Inspectors.

Coverage: Up to 2014, data refers to Public Sector (General Hospitals). From 2015 onwards, data covers both public and private sectors.

Deviation from the definition: Deviation up to 2014 to due partial coverage.

Estimation method: No estimations performed.

Break in series: Data not available for 2009-2011. A break in series occurs in 2015, since the data refers to both public and private sectors.

### **Day care places altogether**

Source of data: Information for the Public Sector obtained from the hospitals and for the Private Sector from the Private Clinics Inspectors.

Coverage: Up to 2014, data refers to Public Sector (General Hospitals). From 2015 onwards, data covers both public and private sectors.

Deviation from the definition: Deviation up to 2014 due to partial coverage.

Estimation method: No estimations performed.

Break in series: Data not available for 2009-2011. A break in series occurs in 2015, since the data refers to both public and private sectors.

### **Surgical day care places**

Source of data: Information for the Public Sector obtained from the hospitals and for the Private Sector from the Private Clinics Inspectors.

Coverage: Up to 2014, data refers to Public Sector (General Hospitals). From 2015 onwards, data covers both public and private sectors.

Deviation from the definition: Deviation up to 2014 to due partial coverage.

Estimation method: No estimations performed.

Break in series: Data not available for 2009-2011. A break in series occurs in 2015, since the data refers to both public and private sectors.

### **Oncological day care places**

Source of data: Information for the Public Sector obtained from the hospitals and for the Private Sector from the Private Clinics Inspectors.

Coverage: Up to 2014, data refers to Public Sector (General Hospitals). From 2015 onwards, data covers both public and private sectors.

Deviation from the definition: Deviation up to 2014 to due partial coverage.

Estimation method: No estimations performed.

Break in series: Data not available for 2009-2011. A break in series occurs in 2015, since the data refers to both public and private sectors.

### **Psychiatric day care places**

Not applicable for the case of Cyprus.

### **Geriatric day care places**

Not applicable for the case of Cyprus.

## **Latvia**

### **Operation theatres in hospital**

Source of data: **Health Inspectorate**; Register of Medical Institutions.

Reference period: data as of December 31.

Coverage: all country; cover both public and private sector.

Deviation from the definition: -

Estimation method: Data of the registry.

Break in time series: -

### **Day care places altogether**

Source of data: **The Centre for Disease Prevention and Control;** State Statistical Report.

Reference period: data as of December 31.

Starting from 2009 a reform of the health care system takes place. The aim of the reform was to facilitate the development of the outpatient sector, widening the range of services provided and their quality. As a result the sector witnesses reorganization or re-profiling, as well as structural reforms inside enterprises or institutions. E.g., part of hospital beds is changed to day hospital's places. Besides, from 2010 payment procedures for out-patient services provided in the day hospitals were specified and services provided only in day hospitals were determined.

Coverage: all country; cover both public and private sector.

Deviation from the definition: -

Estimation method: Data of the report.

Break in time series: -

### **Surgical day care places**

Data not available.

### **Oncological day care places**

Data not available.

### **Psychiatric day care places**

Source of data: **The Centre for Disease Prevention and Control;** State Statistical Report.

Reference period: data as of December 31.

Coverage: all country; cover both public and private sector.

Deviation from the definition: -

Estimation method: Data of the report

Break in time series: -

### **Geriatric day care places**

Data not available.

## **Lithuania**

### **Operation theatres in hospital**

Source of data: **Health Information Centre of Institute of Hygiene**

Estimation method: Number of day care places is estimated by the number of day cases in hospitals. Number of day cases is calculated from Compulsory Health Insurance Fund information system as alive persons admitted and discharged to home in the same day.

### **Day care places altogether**

Data not available.

### **Surgical day care places**

Data not available.

### **Oncological day care places**

Data not available.

### **Psychiatric day care places**

Data not available.

### **Geriatric day care places**

Data not available.

## **Luxembourg**

### **Operation theatres in hospital**

Source of data: **Directorate of Health**, Division of curative medicine and health quality.

Coverage: Data refer to the number of major operation theatres only.

Break in series 2017: change in data collection method: data come from Hospital declaration.

Reference period: 31<sup>st</sup> December.

### **Day care places altogether**

Source of data: **Directorate of Health**, Division of curative medicine and health quality.

Coverage: Following the implementation of the 2018 Hospital law, data refer to the following day care places (beds/seats):

- surgical day care places,
- non-surgical day care places,
- dialysis stations
- psychiatric day care places available in adult and pediatric services and in acute care services as well as rehabilitation services
- pediatric day care places
- geriatric day care places available in acute care services and rehabilitation services.

### **Surgical day care places**

Source of data: **Directorate of Health**, Division of curative medicine and health quality.

### **Oncological day care places**

Data not available

### **Psychiatric day care places**

Source of data: **Directorate of Health**, Division of curative medicine and health quality.

Coverage: psychiatric day care places available in adult and pediatric services and in acute care services as well as rehabilitation services

### **Geriatric day care places**

Source of data: **Directorate of Health**, Division of curative medicine and health quality.

Coverage: Geriatric day care places (beds/seats) available in acute care services and geriatric rehabilitation services.

## **Hungary**

### **Operation theatres in hospital**

Source of data: - In 2000, 2003, 2006: Hungarian National Institute for Hospital and Medical Engineering (ORKI in Hungarian) [www.orki.hu](http://www.orki.hu).

- In 2009: Healthcare Quality Improvement and Hospital Engineering (EMKI in Hungarian) [www.emki.hu](http://www.emki.hu).

- In 2012: National Institute for Quality- and Organizational Development in Healthcare and Medicines (GYEMSZI in Hungarian) [www.gyemszi.hu](http://www.gyemszi.hu).

- From 2015: National Healthcare Services Center (ÁEEK in Hungarian) [www.aEEK.hu](http://www.aEEK.hu).

Reference period: Each two years on 31 December.

### **Day care places altogether**

Data not available.

### **Surgical day care places**

Data not available.

### **Oncological day care places**

Data not available.

### **Psychiatric day care places**

Data not available.

### **Geriatric day care places**

Data not available.

## **Malta**

### **Operation theatres in hospital**

Source of data:

**Directorate of Institutional Health, Ministry of Health, the Elderly and Community Care and individual Institutions.**

From 2007 onwards: **Individual Institutions** and the Health Care Services Standards, Health Division within the **Ministry for Health**.

Reference period: end of the year.

Coverage: Data for operation theatres is National.

The number of Operation theatres decreased in 2011 due to the termination of one privately owned hospital.

The number of Operation theatres decreased in 2012 since 1 operating theatre in a privately owned hospital was not in use.

2013: A small private hospital is now being included under the hospital sector since it is licensed for overnight stays.

2017: A new small private hospital was in operation during 2017.

### **Day care places altogether**

Source of data:

**Directorate of Institutional Health, Ministry of Health, the Elderly and Community Care and individual Institutions.**

From 2007: **Individual Institutions** and the Health Care Services Standards, Health Division within the **Ministry for Health**.

Reference period: end of the year.

Coverage: Data Number of day care places (beds/seats) altogether includes also some day care places/beds in private clinics and hospitals.

Figures for day care beds/places from end 2007 cannot be assessed as day care beds and inpatient beds are currently being used interchangeably by different establishments as the need arises following migration between hospitals.

Figure supplied for 2009 is an estimate of National figure. Exact figures are not available as many institutions use inpatient and day care beds interchangeably as the need arises.

Data for 2010 is an estimate of the number of day care beds/places in hospitals at National level.

Subdivision into the categories requested is not possible as day care beds/places are used interchangeably as the need arises by the different hospitals. There are no dedicated surgical, oncological, psychiatric and geriatric day care beds or places in hospitals.

The total number of day care places in 2014 has increased since a number of beds which were being used for overnight stays are now being used as day care beds.

### **Surgical day care places**

Subdivision into the categories requested is not possible as day care beds/places are used interchangeably as the need arises by the different hospitals. There are no dedicated surgical, oncological, psychiatric and geriatric day care beds or places in hospitals.

### **Oncological day care places**

Subdivision into the categories requested is not possible as day care beds/places are used interchangeably as the need arises by the different hospitals. There are no dedicated surgical, oncological, psychiatric and geriatric day care beds or places in hospitals.

As from 2016 data, Oncological day care beds are being included.

### **Psychiatric day care places**

Subdivision into the categories requested is not possible as day care beds/places are used interchangeably as the need arises by the different hospitals. There are no dedicated surgical, oncological, psychiatric and geriatric day care beds or places in hospitals.

### **Geriatric day care places**

Subdivision into the categories requested is not possible as day care beds/places are used interchangeably as the need arises by the different hospitals. There are no dedicated surgical, oncological, psychiatric and geriatric day care beds or places in hospitals.

As from 2016 data, Geriatric day care beds are being included.

## **Netherlands**

### **Operation theatres in hospital**

Source of data:

2016: Annual reports social account (DigiMV).

Reference period:

2016: end of reporting year, i.e. 31 December.

Coverage: Operation theatres in general, university specialized hospitals and for profit private hospitals that are partly funded by the basic health insurance (independent treatment centers), with the exception of for profit solely private-funded hospitals and mental hospitals.

### **Day care places altogether**

Source of data:

2016: Annual reports social account (DigiMV).

Reference period:

2016: end of reporting year, i.e. 31 December.

Coverage: Day care places in psychiatric wards in general and university hospitals are included. Day care places in mental hospitals are excluded.

### **Surgical day care places**

Data not available.

### **Oncological day care places**

Data not available.

### **Psychiatric day care places**

Data not available.

### **Geriatric day care places**

Data not available.

## **Austria**

### **Operation theatres in hospital**

Source of data: Austrian Federal Ministry of Labour, Social Affairs, Health and Consumer Protection; Hospital statistics.

Reference period: 1<sup>st</sup> to 31<sup>st</sup> December.

Coverage: Included are all inpatient institutions classifiable as HP.1 according to SHA/OECD. In Austria, it is not the number of "physical operating theatres" that is documented, but the number of cost centres coded as "OP/operation theatre(s)" according to the Austrian DRG-system. A cost centre can comprise one or more operating theatres, and conversely, an operating theatre can also be assigned to several cost centres. For example, an operating theatre may have one cost centre for outpatient surgery and one cost centre for inpatient surgery. All cost centres (or cost centre numbers) reported at least once during a year are recorded. If cost centres are restructured or renamed within the hospital during the year (e.g. when splitting cost centres), the respective cost centre numbers are counted separately (example: a surgical cost centre no. 200 is split into cost centres 201 and cost centre 202, three surgical cost centres are shown in the data).

Deviation from definition: Included are operation theatre cost centres in hospitals financed by the Federal State Health Fund. No information is available on hospitals not financed by the Federal State Health Fund (as private or general accident insurance hospitals).

Break in time series: With the introduction of a new outpatient hospital billing model, there has been an increase in hospital-internal reorganisations in the cost centre structure in 2019.

### **Day care places altogether**

No appropriate data available because not all day care places are coded as such; moreover, day care is often provided in inpatient units and beds.

### **Surgical day care places**

Data are not available. There are not all day care places coded as such; moreover, day care is often provided in inpatient units resp. beds.

### **Oncological day care places**

Data are not available. There are not all day care places coded as such; moreover, day care is often provided in inpatient units resp. beds.

### **Psychiatric day care places**

Data are not available. There are not all day care places coded as such; moreover, day care is often provided in inpatient units resp. beds.

### **Geriatric day care places**

Data are not available. There are not all day care places coded as such; moreover, day care is often provided in inpatient units resp. beds.

## **Poland**

### **Operation theatres in hospital**

Source of data: The Ministry of Health, the Ministry of Interior and the Ministry of National Defence (until 2011).

Reference period: 31<sup>st</sup> December.

Coverage: Operation theatres in all general hospitals and day care hospitals.

### **Day care places altogether**

Source of data: the Ministry of Health, the Ministry of Interior and the Ministry of National Defence (until 2011).

Reference period: 31<sup>st</sup> December.

Coverage: Number of all day care places altogether available in all general hospitals and day care hospitals.

Break in series:

- Since 2012, some day care wards have been established as enterprises of ambulatory care.
  - For 2012 and 2013, the data for individual types of day care places have been removed because it was only a fraction containing places in inpatient hospitals.
- Since 2012, data include day care places in psychiatric hospitals.

### **Surgical day care places**

Source of data: The Ministry of Health, the Ministry of Interior and the Ministry of National Defence (until 2011).

Reference period: 31<sup>st</sup> December.

Coverage: Number of all surgical day care places available in all general hospitals.  
Since 2012, some day care wards have been established as enterprises of ambulatory care.

### **Oncological day care places**

Source of data: the Ministry of Health, the Ministry of Interior and the Ministry of National Defence (until 2011).

Reference period: 31<sup>st</sup> December.

Coverage: Number of all oncological day care places available in all general hospitals.  
Since 2012, some day care wards have been established as enterprises of ambulatory care.

### **Psychiatric day care places**

Source of data: the Ministry of Health, the Ministry of Interior and the Ministry of National Defence (until 2011).

Reference period: 31<sup>st</sup> December.

Coverage: Number of psychiatric day care places available in all general hospitals.  
Since 2012, some day care wards have been established as enterprises of ambulatory care.

### **Geriatric day care places**

Source of data: the Ministry of Health, the Ministry of Interior and the Ministry of National Defence (until 2011).

Reference period: 31<sup>st</sup> December.

Coverage: Number of geriatric day care places available in all general hospitals.

## **Portugal**

### **Operation theatres in hospital**

Source of data: **Statistics Portugal** – Hospital Survey.

Reference period: 31<sup>st</sup> December.

- The Hospital Survey began in 1985. This survey covers the whole range of hospitals acting in Portugal: hospitals managed by the National Health Service (public hospitals, with universal access), non-public state hospitals (military and prison) and private hospitals.

- Provisional data for 2015.

### **Day care places altogether**

Source of data: **Statistics Portugal** – Hospital Survey.

Reference period: 31<sup>st</sup> December.

- The Hospital Survey began in 1985. This survey covers the whole range of hospitals acting in Portugal: hospitals managed by the National Health Service (public hospitals, with universal access), non-public state hospitals (military and prison) and private hospitals.

## **Romania**

### **Operation theatres in hospital**

Source of data: **National Institute of Statistics.**

Reference period: data as of 31<sup>st</sup> December.

Coverage: The data cover public and private (including not for profit) sectors and all types of hospitals (HP.1.1, HP.1.2 and HP.1.3). Includes operation theatres for inpatient and day-care patients. From 2018, it refers to the number of operation theatres in hospitals, excluding medical centres that provide predominately out-patient services, but provide also day-care services for some specialisations (with a small number of beds/places).

### **Day care places altogether**

Source of data: **National Institute of Statistics.**

Reference period: data as of 31<sup>st</sup> December.

Coverage: The data cover public and private (including not for profit) sector.

According to the legislative rules, in Romania hospitals receive the approval from the Ministry of Health for functioning with a total number of day care beds. The hospital staff is responsible for the use of the total number of day care beds for different medical specialisations, thus, the number of day care hospital beds may vary significantly from one year to another for some medical specializations. Data includes dialysis chairs.

From 2018, it refers to the number of day care places in hospitals, excluding Medical centres that provide predominately out-patient services, but provide also day-care services for some specialisations (with a small number of beds/places) and dialysis centres.

### **Surgical day care places**

Source of data: **National Institute of Statistics.**

Reference period: data as of 31<sup>st</sup> December.

Coverage: The data cover public and private (including not for profit) sector.

From 2018, it refers to the number of surgical day care places in hospitals, excluding medical centres that provide predominately out-patient services, but provide also day-care services for some specialisations (with a small number of beds/places).

### **Oncological day care places**

Source of data: **National Institute of Statistics.**

Reference period: data as of 31<sup>st</sup> December.

Coverage: The data cover public and private (including not for profit) sector.

From 2018, it refers to the number of surgical day care places in hospitals, excluding medical centres that provide predominately out-patient services, but provide also day-care services for some specialisations (with a small number of beds/places).

### **Psychiatric day care places**

Source of data: **National Institute of Statistics.**

Reference period: data as of 31<sup>st</sup> December.

Coverage: The data cover public and private (including not for profit) sector.

From 2018, it refers to the number of surgical day care places in hospitals, excluding medical centres that provide predominately out-patient services, but provide also day-care services for some specialisations (with a small number of beds/places).

### **Geriatric day care places**

### Day care places altogether

Source of data: **National Health Information Center;**

Data for 2003 – 2008, Annual report (MZSR) on network of health care providers.

Data for 2009- 2019 are from Report on network of health care providers.

Reference period: 31<sup>st</sup> December.

Coverage:

Data include day care places not only available in hospitals but as well as day care places available in ambulatory health care facilities (e.g.dialysis points).

### Surgical day care places

Source of data: **National Health Information Center;**

**2003 - 2008** Annual report (MZSR) on network of health care providers

Data for 2009 - 2018 are from Report on network of health care providers.

Reference period: 31<sup>st</sup> December.

Coverage:

Data include day care places not only available in hospitals but as well as day care places available in ambulatory health care facilities (e.g. dialysis points).

In 2009, there was an increase in one day surgery in hospitals in general and therefore there is increase for surgical day care places, e.g. increase of day care places in ophthalmology, maxillofacial surgery, orthopaedics, paediatric urology, plastic surgery, surgery etc. The same increase was in 2010, 2011 and an increase from the same reason is visible in 2012 too.

### Oncological day care places
