8.2. Comparability - over time	Methodological changes between the present reference year and previous year(s). Justification of the important changes in figures reported for the present reference year and previous year(s) <i>Change of our system of production that improved the quality of breakdowns when possible, since 2020.</i>
Other quality issues	<i>There is a difference between French definition of a first-resident permit and the one in the Guidelines : according to our definition a first residence permit is a RP delivered after a period of at least 12 months with no permit.</i>
12. Comment	<p>The following classification is used for data availability at Eurostat level:</p> <ul style="list-style-type: none"> • The term "not applicable" related to the categories of permits which do not exist in national legislation/administrative procedures and therefore such statistics cannot be issued. • The term "not available" relates to categories of data that exist in the national legal/administrative system but cannot be delivered under Residence permits statistics data collection for various reasons (e.g. data cannot exist, data exist but are not collected, data are unreliable, etc.).
